WIT AND HUMOR.

An Easy One.

"What did Noah live on when the flood had subsided and his provisions in the ark were exhausted?" asked a West End Sunday school teacher of her class last Sunday.

"I know," squeaked a little girl, after all the others had given it up. "Well, what?" inquired the teacher. "Dry land."—Washington Post.

A Lonesome Life.

"You may want to screw some boards together some time. The old fashioned method of driving screws in with a ham, mer is pernicious, as it deteriorates the tenacity of the fangs of the screws, as it "Nothing today, sir."

"The gimlet also acts as a cork screw"_

"I don't want it." "It may be used as a tack hammer, a cigar holder and also as a tooth brush."

"I don't want it." "It has an eraser, a pen, an inkstand, a table for computing compound interest and a lunch box attachment."

"I can't help it; I don't want it." "I know you don't. You're one of those mean men that won't buy a gimlet unless it has a restaurant, a trip to Europe and an Italian opera company attached. You're the kind of a man who would live near an electric light to save a gas bill.

A Blighted Romance.

The young man had accepted a seat an hour or two before in a crowded train by the side of a young lady who had graciously made room for him.

"You will pardon me," he was saying, "for being bold enough, Miss"-"Hopper," she prompted, softly.

"Miss Whopper. Thank you. My name is Cahokia. LETTERS TO THE EDITOR.

Reply to Mr. Osborne.

KINGSTON, Feb. 12.-The following item must have been overlooked in the news papers by George Osborne when he accused Mr. Gladstone of aiming at the dismember ment of the empire : "In writing to Mr. J. Castell Hopkins, one of the secretaries of the Imperial Federation league in Canada, the Hon, W. E. Gladstone says 'It is my daily care and interest to obtain a more thorough and substantial union of the different countries' peoples paying allegiance to her majesty.' In addition to this Mr. Hopkins has been requested to send a thous-and copies of Dr. Beers' celebrated speech for distribution among the members of the British house of commons."

CANDOUR.

Timely Definitions.

KINGSTON, Feb. 12.—The following definitions by James C. Ambrose, of Evanston, can be quoted here quite appropriately at the present time :

Low license-A hole for every snake that wants one. High license-Big holes for big snakes, and no call for little holes.

Local option-Small-pox on the back and the breast thinks it won't work around under the arms. Prohibition-Death to all snakes and no

resurrection. PROHIBITION.

Holloway's Ointment and Pills.

Travellers and immigrants-Those who cross the seas change the climate, but they don't change the constitution. The altered conditions of life, the exigencies of travel and other causes render the traveller and emigrant peculiarly liable to diseases and accidents when far from efficient medical aid. With these associated remedies at hand they may be said to have a physician always at their call, and they may be certain that situations will be constantly arising in which they will require a ready resource in time of need. The directions for use which accompany each box and pot of Holloway's Pills and Ointment are written in plain and simple language, and are applicable in all cases.

A Sure Remedy for Neuralgia.

Neuralgia is one of the most common and painful affections incidental to this climate. Life to thousands is made miserable through its agency, and as it affects the nerves, only the most powerful and penetrating remedies can reach it. Nerviline has created wonder in the minds of those who have uselessly tried other remedies, since its action seems magical. To all suffering from any kind of nerve pain, internal or external, we suggest a trial of Nerviline. Sold by all dealers in medicine, 10 and 25 cents a bottle.

Dr. J. - Collis - Browne - Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

ADVICE TO INVALIDS—If you wish to obtain quiet, refreshing sleep, free from headache relief from pain and anguish to calm and assuage the weary achings of protracted disease, invigorating the nervous media, and regulating the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific in Cholera and Dysentery.
CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache,

Meningitis, &c. Meningitis, &c.

From Symnes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5, 1880. To J. T. Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy that their sojeurn there will be but evanescent. We could multiply instances "ad infinitum" of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhosa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera, Diarrhosa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other forms of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of the opinion that the substitution of of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST, TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharmacy Society of Great Britain. His Excellency the Viceroy's Chemists.

CAUTION-Vice Chancellor Sir Page Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "Times," July 13, 1864.
Sold in bottles at 1s. 14d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "D

J. Collis Browne's Chlorodyne" on the Government Stamp. Overwhelming medical testi

mony accompanies each bottle.

He Was Sick.

Had a far away look in his eyes, predicted all sorts of evil, short crops, low prices, a new rebellion in the North-West. His skin was yellow, and a fever spot on each of his cheeks told of a torpid fever and poisoned blood. A box of Hamilton's Mandrake and Butternut Pills worked a wondrous change, for through their stimulating action on the liver all poisonous germs were removed from the true river of life-the blood. Crop prospects improved, prices were away up, and life at once became filled with new prospects and pleasures. Try Hamilton's pills at druggists and dealers in medicine.
