Dyspepsia.

Much will necessarily depend upon the care exercised in the selection of food, which is all important to the dyspeptic. Hamilton's Pills may be used with the greatest benefit in cases where liver and bowel complications are produced by or are a result of dyspepsia. Commence with one pill every second day immediately after dinner, and reduce the dose gradually until one-quarter of a pill is taken, which will be found sufficient to stimulate the liver and assist in the more perfect stimulation of food in the stomach. Dyspeptics, try Hamilton's Pills and Mandrake Butternut.
