THE RIGHT MAN AT LAST

If there were health in a multitude of medical systems, as there is said to be wisdom in a multitude of counsellors, sickness would be unknown in this age of so-called pathological discoveries. The homeopaths tell us that the salvation of our lives in sickness depends upon infinitesimal doses and infinite dilution; the hydropathists profess to raise health upon us from shower baths; or soak disease out of us with wet blankets; while a still newer set of exclusives purpose burying us up to armpits in the earth—putting both feet in the grave as it were, by way of saving our lives! Then, we have Sangrados, who are all for bleeding, blistering, and low diet, and mineralists, who believe in nothing but mercury and its oxides. It happens unfortunately, however, for all these theorists, that they can show no practical proof of the assumed infallibility of their methods of cure. Not so Thomas Halloway, whose medicines for the last forty years have annually benefited hundreds of thousands. This is no assumption, but a fact verified by the unimpeached evidence of "a choice of witnesses." The archives of his office in London contain manuscript certificates, authenticated in the strongest manner, and placing beyond the possibility of doubt the infallibility of his Pills and Ointment in maladies to which man is subject. Great Britain, the continent of Europe, India, China, the West Indies, British America, every civilized land, and every country to which the pioneers of civilization, commercial and religious, have found their way, ring with the fame of these all conquering remedies. Such is the demand for them in all parts of the world that they may be justly called a great commercial staple, and the number of agencies for their sale amounts to tens of thousands! These facts speak for themselves, and clearly show that while so many medical dogmatists have been groping in the dark, he has actually discovered and applied the true and only means of eradicating the primary cause of disease in the human system. —New Picayune.

Advice To Mothers.

Mrs. Winslow's Soothing Syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States, and has been used for forty years with never-failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels, and wind-colic. By giving health to the child it rests the mother. Price 25c a bottle.

The mind of Amos H. Allison, Napanee, has gradually been weakening. Last week he grew worse, so that on Saturday it was deemed advisable to remove him to his brother's residence in Richmond. His mind has become completely unsettled. Heavy losses in bucket shop deals preyed upon his mind constantly.

Eighty Per Cent.

Of the human race, according to a high authority, suffer from one or other form of blood taint. Never allow this latent evil to develop into serious disease while the blood can be kept pure and the system clean by proper precautions, such as using Burdock Blood Bitters, whenever any scrofulous symptoms appear. No medicine equals B.B.B. as a blood cleanser.

George Meredith, the great English novelist, spends the greater part of his life in a beautiful little villa situated at the foot of Box hill. Visitors and admirers sometimes catch a glimpse of him taking his way from his house to a high hill within his grounds, where he has built himself a small, plain chalet, in which he has written most of his novels.

Important to Workmen.

Artizans, mechanics and laboring men are liable to sudden accidents and injuries; as well as painful cords, stiff joints and lameness. To all thus troubled we would recommend Hagyard's Yellow Oil; the handy and reliable pain cure for outward or internal use.
