CARS MAY BE ASSESSED.

The Administration May Impose Duties on Canadian Rolling Stock.

WASHINGTON, April 22.—It is not probable that Canadian freight cars, coming into the United States, and running over United States railroads, will have to pay the regular rate of duty at points of entry. The treasury department has had the matter under consideration for some time, in fact, ever since the fisheries trouble. But at that time it was considered as a possible retaliatory measure. If now adopted, it would simply be in accordance with the protective tariff ideas of the administration and to protect United States car builders. In preparation for this move on the part of the treasury department an account has been kept at some points of entry, notably at Detroit, of the dutiable freight cars belonging to Canadian roads which come in. It is estimated that an average of three hundred such cars come in daily at Detroit, Port Huron and Niagara Falls, and that fully three thousand dutiable Canadian cars are in constant use on roads in the United States not one of them having paid a cent for duty. There are three classifications under which these cars may come and there does not appear to be any precedents to show which it will be. On manufacturers of wood, they would pay 35 per cent. ad valorem; on manufacture of iron, 45 per cent., and on carriages, 35 per cent.

EMURDROUS ASSAULT.

Charles Swift, Late of Trenton, Ont., Almost Decapitates a Man.

MISSOULA, Mont., April 22.—Charles Swift, from Trenton, Ont., committed a murderous assault upon John Delmore, a barkeeper, nearly decapitating him. Swift ordered Delmore to set up champagne for the crowd. This Delmore refused to do, and Swift drew a knife saying: "I will cut your throat." Two of the wounds are serious. Swift is foreman of a large logging firm, and a bully. He is now in gaol. Delmore is weak from loss of blood. His friends have no hope of his recovery.

Who He Communicated With.

LONDON, April 22.—Major LeCaron, the witness in the Parnell Times case, says he was never known to the Canadian government by the name of LeCaron, but he did communicate with the government as Thomas Beach. He was instructed from London to enter into communication with the then governor-general of Canada, and by his direction he corresponded with Judge McMicken, the chief commissioner of police, when the matters connected with the contemplated invasion became acute. LeCaron says he has in his possession many letters of the most complimentary character, thanking him for his assistance at that period.

A Brave Switchman.

NEW YORK, April 20.—He was a railway switchman in greasy overalls. There was nothing remarkable about him as he stood at his post in the Pennsylvania depot, in Jersey City, an ordinary, grimy workman, the bread winner of a wife and seven children. A ten-year-old child stood on the track. Within a few feet of him was a moving train. Death was certain unless some hand snatched the child away. Without a moment's hesitation, Patrick McAtamney leaped forward and pushed the little one out of danger. Then the train rolled on, and the headless corpse of the brave switchman was found.

An Anti-Jesuit Circular.

TORONTO, April 22.—The citizens' committee on the Jesuit agitation has issued an address to the "People of Ontario" asserting respect for the Catholic religion, but denouncing the Jesuits' estates bill as unjust, unconstitutional and diabolical, and advocating the presentation of petitions to the governor-general against the bill; taking steps to test the legality of the act in the courts; and holding a provincial convention here on June 12th.

Yellow Fever Lagging.

BALTIMORE, April 22.—The British steamship Pine Branch, from Rio Janeiro, reports yellow fever as raging terribly at Santos and Rio Janeiro. The number of deaths at the latter port reaches one hundred a day. Chief Engineer Thomas, of the Pine Branch, was left at Rio suffering from the fever. March 31st a boy belonging to the crew died and was buried at sea.

Illegal Weights and Measures.

PICTON, April 20.—The district inspector of weights and measures seized 70 barrels of salt sold by the Blyth salt works to the Rathban company. The barrels were short from 20 to 50 pounds. Mr. Johnson also charged, before Police Magistrate Curry, Archibald Hoover, for using a short and unjust measure. He was found guilty and fined \$10 and costs.

Strike in Vienna.

VIENNA, April 22.—The majority of the carmen in the city are on strike. The socialists side with them. The rioting yesterday occurred in the suburbs. The military and police charged the crowds with swords. Many rioters received bloody wounds, and about 100 were arrested. The mob replied by throwing stones.

Wellington R. Bart, Saginaw, president of the Michigan salt association, goes to England to secure \$10,000,000 by means of which, with the pool already formed in this country, the entire salt product of the United States will be controlled.

U.S. BOODLERS IN CANADA

HAVE MORE REASON THAN EVER TO BE UNEASY.

Prof. Weldon's Bill Transferred to Government Orders—Three Important Bills Put Through Committee.

OTTAWA, April 20.—The House had a Saturday sitting to-day, the first of the session. The uneasiness of the colony of United States boodlers in Canada will not be at all allayed by the action taken with reference to the bill of Professor Weldon of Alberta to extend the list of extraditable crimes. Sir John Thompson moved that the bill be transferred to Government orders.

Hon. Mr. Laurier said the details of the bill would be discussed on a very long discussion and it might be well therefore to leave it over to next session. Sir John Macdonald said there was great moral impatience on the part of the people of Canada to put an end to the inflow of rascality from the United States. Cynics might say we had enough rascality of our own, but it was well to tell the world that we don't want either these people or their ill-gotten gains. He thought the bill so objectionable in principle that it would meet with but little opposition, but if its details were likely to lead to protracted debate it would then remain for the House to say what disposition should be made of it.

Hon. L. H. Davies thought the Imperial authorities would not allow the proposed act to come in force. He knew it would meet great opposition in the House. Mr. Charlton endorsed the Premier's contentions. Hon. David Mills objected and said there was a big heap of constitutional questions in the way of the measure.

Sir John Macdonald then pointed out that both England and Canada were anxious to enlarge the list of extraditable offences, and that whatever delay had taken place in this direction was due to the action of the American authorities. By passing the bill we would inform England and the United States that Canada is anxious to have the extradition treaty enlarged, and this would have a beneficial effect.

The motion then passed. When Hon. John Costigan's bill to further amend the Inland Revenue Act was before the Committee of the Whole Mr. Davin moved an amendment permitting brewers in the Northwest to manufacture 4 per cent. beer, that strength being now imported for sale by special permit. The motion was lost without division, and the bill adopted.

When the bill to amend the General Inspection Act was before the committee Mr. Davin moved to increase the number of inspectors of grain standards from 9 to 11, so as to give the Northwest representation on the board. The amendment was accepted by Mr. Costigan and the bill agreed to.

The bill amending the Copyright Act was agreed to after some discussion on the powers of Parliament to enact such legislation, and on Sir John's statement that it would not come in force until it had received Imperial assent.

After recess the debate on the resolution respecting the proposed subsidy for the Atlantic steamship service was resumed in committee of the whole. Some opposition was offered by Ontario members on the ground that the improved service would not be of sufficient advantage to offset the increased expense. Colonel O'Brien held that the country should not pay \$500,000 to gratify St. John or Halifax. He wanted a class of vessels that would give farmers cheaper and faster freight service. Six-day ocean steamships such as proposed were of advantage only to the rich, to the class who used Pullman cars on the railways.

Mr. Paterson of Brant held that the people of the Upper Provinces were bound to use New York as a more expeditious port than Halifax or St. John, but Prof. Weldon and Mr. Shanley showed that with a reasonably fast mail train to meet the incoming boats the passage from England to Toronto would take less time via Halifax than via New York.

The evening discussion was mainly devoted to a discussion of the relative advantages of St. John and Halifax as the winter terminal port. A few minutes before midnight the resolution was adopted by the committee and the House adjourned.

The Missing Link.

OTTAWA, April 21.—Sir John Macdonald has given notice of a resolution affirming the expediency of the building by the Government of the proposed line of railway between Harvey and Salisbury and asking an appropriation this year of \$500,000 towards that object. The line to be built is about 120 miles long and passes through a country rich in unworked coal beds. The Canadian Pacific Railway Company have long been pressed to build this link as part of their line but have declined, it will make Halifax about 15 miles nearer to the Upper Provinces.

A Georgetown Fire.

GEORGETOWN, April 20.—Shortly before 12 o'clock last night a fire broke out in the dwelling house of W. R. Brown, wagon-maker and implement agent. The fire had attained considerable headway before it was discovered. The members of the family were soundly sleeping, and when aroused barely escaped with their lives. Mr. Brown's loss is heavy. It includes his dwelling, wagon shop and contents, implements and a new wagon and two other dwelling houses owned by him and occupied by E. Black, Geo. Errington and M. Newton, the contents of which were partially saved. Insurance about \$1000, in the Glasgow and London and the Wellington Mutual.

Sentenced to Death.

WASHINGTON, April 20.—Grace Smallwood, a small, weazened colored woman, was to-day sentenced to be hanged Oct. 11. She murdered her illegitimate child at its birth by tying a shoe string around its neck. Her mental condition is open to doubt. In passing sentence the court said it had reason to believe executive clemency would interfere to prevent its execution. This is the first time since Mrs. Surratt's trial that a woman has been sentenced to death in the District of Columbia.

A Father's Terrible Crime.

ADDISON, N. Y., April 20.—Frank Hancock, employed as fireman in the mill of Waite & Atwell at Blue Run, Pa., was found dead this morning at 6 and 7 o'clock, having hung himself in a bedroom of the shanty he occupied. In a bed in the same room lay the bodies of his four children, two with their throats cut, the other two stabbed in the heart. The eldest was 10 years old. The youngest child, aged 4, was still alive when the horrible discovery was made, but has since died.

Explosion of an Oil Tank.

LIMA, O., April 20.—One of the large iron tanks of the Standard refinery exploded this afternoon and scattered oil in every direction. The tank contained 40,000 barrels of distilled oil. The oil ran down and filled the ditches along the Chicago and Atlantic roads, which made it necessary to bank the fire of locomotives while passing the grounds to prevent a large conflagration. The loss will reach \$40,000. No one was injured.

Running Under Police Protection.

ST. PAUL, April 20.—During the afternoon a large number of secret cars were kept going, one or two policemen being in charge of each. About 50 Kansas City men have arrived to take the places of strikers. Some of them claimed to have taken advantage of the free transportation offered to reach this city and did not go to work.

SPECULATION IN CATS.

An Enterprising Dubuque Man Getting Rich Shipping Felices to Dakota.

DUBUQUE, Iowa, April 22.—Two car loads of cats have been shipped to Dakota by an enterprising speculator, and another car load is being secured for shipment. They are in demand to kill mice which swarm the corn and wheat bins doing great damage. In this market the felices bring from 50 cents to \$1, while the speculator receives \$3 each for them in Dakota. When shipped they are placed in separate boxes to prevent hostile encounters, and they make enough noise to awaken the seven sleepers.

The Dorcas Society.

The annual meeting of the Dorcas society was held at the rooms, Thursday, April 18th, when reports from the secretary and treasurer were read giving a very satisfactory account of the working of the society for the past year. Fifty families had been visited and 467 different articles of clothing distributed among them. The greater portion of these were made up by the ladies from new material bought with the money which was received from subscription fees, and the proceeds of an excursion in August. But they are in addition greatly indebted to the following ladies for bundles of cast-off clothing: Mesdames G. Sears, J. McMahon, Routley, Falconer, Sine, Young, and Miss Ross. Several gentlemen also greatly aided this good work. Mr. Wilson, of the cotton mill, gave a bale of cotton; Mr. Dunham fifty bread tickets, and Mr. Upper a quantity of beef. The True Blues contributed \$8. The following officers were elected: Mrs. Hoppins, president; Mrs. Whiting, first vice-president; Miss Meadows, second vice president; Mrs. Sine, secretary; Mrs. Couper, re-elected treasurer.
