DR. ANGLIN,

25 East Street near King Street.

KINGSTON VS. RENFREW.

THE CURLING MATCH PLAYED TO-DAY—
THE HOME TEAM VICTORIOUS.

The Visitors Entertained Last Evening—
They Try the Ice and Find It Good—
Those Who Composed the Traveling Party—
Curling a Grand Game, and a Great
Deal Can Be Said in Favor of It.

Skating is pleasant and exhilarating,
but middle-aged men lose their relish
for it. Coasting and tobogganing have
been handed over to the boys, although
real enjoyment and good exercise may
be found in it by older persons. The
popularity of curling, however, is sup-
plied in winter, especially by middle-
aged and old men, for a sport which
gives them enough exercise without
being too boisterous, and is much ex-
citing to make it lastingly attractive.
Curling is a democratic game. Every-
body stands on the ice on a perfect level
in more senses than one. Every man
holds his place until his turn comes,
and all distinctions of rank or
wealth are forgotten while the game
goes on. It is a courteous and gentle-
manly game. There is no bunting on
the result, no bluster between rival
players. It is a cheerful game. The
player who falls laughs at his misfor-
tune; the winner of a match indulges
in a little complacency at his triumph,
and the loser smiles at his defeat.
This is an economical game. The risk and
the stones once provided there is no
further expense to be incurred. The
player does not keep account of the
game he loses and has to pay the
reckoning at the conclusion. It is a
game which costs nothing but time and
skill.

The amount for which the wage
earner is assessed is not taxable. His
name is placed upon the assessment
roll for the sole purpose of giving him a
vote. The wage earner must take an
affirmation in form provided by statute,
and the assessor is compelled by law
to have these forms with him when
making assessment. Every household in
each township has a vote.
Every landholder's son also votes,
and the word "son" includes "stepson,"
"grandson" and "son-in-law," and the
word "landholder" includes "tenant,"
"occupant" and "tenant-in-common."

Formerly the right of Farmers' sons to
vote was governed by the amount for
which the father was assessed, and it
still is in the Dominion franchise.

By the Ontario Act of last session,
however, where the parent is assessed
either as owner or tenant in cities or
towns for \$100, and in villages and
townships for \$200, all the sons twenty-
one years of age, and who have resided
with their parents for twelve months,
are entitled to be placed upon the as-
sessment roll as landholder's son. The
expression "landholder's son," also in-
cludes in its meaning a stepson, grand-
son, or son-in-law, who may have so re-
sided with the assessed landholder. Six
months temporary absence during the
year does not prevent the name from
being entered. It is very desirable that
every one entitled to vote should have
his name entered on the assessment
rolls in the first instance, and not trust
to an appeal afterwards which will in-
volve considerable trouble.

Defeat or victory hinges on vigilance in
attending to the assessment rolls and
voter's lists. All friends of good government
in Ontario should render assistance
in this all important matter.
