having sunk about 4 p.m., while making for this city, by an unknown, dee, laden, three masted schooner.

It is not clear how the collision occurgene below, leaving the first officer in charge of the bridge. Suddenly shadow loomed up in the darkness, and before those on board the steamer were able to distinguish what this object was, the crash came. The unknown schooner struck the Oregon in the side and stove a hole in her. The shock of the collision aroused the sleeping passengers, and a scene of wild confusion followed. An examination of the Oregon showed

that she had two holes in her port side below the water line, as if the schooner had rebounded from the first blow and struck the steamer a second time.
