LOCAL LEGISLATURE.

sideration of Two Notable Election Cases.

The papers and documents presented to the Local Legislature respecting the case of Dr. Dowling embrace the report of the Attorney-General of January 17th last, the certificates of the trial judges, the judgment of the appeal judges, and a copy of the Act passed at the last session of the Dominion Parliament respecting Sir Charles Tupper. Mr. Mowat shows that Dr. Dowling should not be disqualified by the opinion of a single indge for a mere technical breach of the law, contrary to the intention of the law, or that there should be any doubt on the subject was a wrong to him and his constituents, and they were justified in demanding legislative action to remedy this wrong. It was, therefore, the duty of the Government to introduce a Bill giving effect beyond the possibility of further disputing the intention of the Legislature, reheving Dr. Dowling from disability in respect of the Act as to which his judges differed, making it certain that he or his constituents would not again have to contest before the courts the question of bis disqualification.

Mr. Drury's Election Again. The Privileges and Elections Committee met on Thursday for the purpose of hearing counsel on behalf of Mr. Drury in the East Simcoe election case. Lount, QC., asked the indulgence the committee owing to several engage. ments he had not had an opportunity to prepare the case as thoroughly as he 19,000,000 take his seat, and in order to make his blowing up ships was a very incentous noying circumstance left the patients lifty hair mattrasses, one hundred feapoint as strong as possible he asked for one, and was arranged so that the dyna for another spring to drink the polluted ther pillows, fire apparatus for the new afereactile Bisas tates at LOWEST Current as adjournment until next Wednesday. mite it contained would be exploded by waters. Necessity for a New Parliament.

prorogation.

The debate on the motion, declaring the local parliamentary buildings unfit for occupation and unsafe for the protection of the public records, was resumed by Mr. Broder, of the Opposition, on Thursday, who said that Toronto was chiefly interested in the erection of new buildings. He opposed the resolution on the ground that the government was trying to shirk their responsibility by allowing an abstract motion like this to be submitted to the House. Mr. O'Connor (Ministerialist) favored the erection of new buildings, and moved an amendment to the amendment of Mr. Mere dith, that there be added to the original motion the following words: "And this House is prepared to consider any reasonable scheme for the erection new parliamentary and department buildings." The discussion was participated in by half the members of the House. Most of those speaking against the motion declared at the same time that new buildings were badly needed, but they opposed the motion because the government did not come down to the House with a definite scheme for which they would take the responsibility Ministerial members took the ground that the representatives should authorize the government to proceed with the COAL Commissioner of Public Works, said it was not an extraordinary thing for a was not an extraordinary thing for a government to wish to consult the House on a particular question. motion as amended was finally carried by a vote of 53 to 30, four Opposition members voting with the government. Mr. Metcalfe voted with the govern ment and Mr. Denison against it.

The School Law.

Hon G. W. Ross moved the Local Public Schools Act. In answer to Mr. Meredith, the Min-

ister said he could find no way to include women in the term "ratepayer." Clause 7 provided that papils are not to be required to observe religious exercises objected to by their parents. Mr. Meredith asked if the new religious book proposed came under this
