Chemical Laboratory, Dalhousie College, Waitax, N.S., Jan. 30th, 1885.

I have made an analysis of samples of the Emulsion of God Liver Oil, prepared by the Puttner Emulsion Co., and they have explained to me the details of their process. The ingredients used, and the mechanical process es to which they are successively subjected, enable this Company to prepare a permanent Emulsion without the use of acids or alkalies. This preparation has been known to me for many years, and when carefully prepared is certainly a great improvement upon the Crude Cod Liver Oil, not only being milder in flavor, but having the more substantial advantage of being in the best term for digestion or assimilation.
