AGENT.

Suppose we subscribed \$50,000 here at Barneston?" Fred asked, his eyes "That ought to bring us the road, don't you think?" "It would at least reopen the hearing," admitted Mr. Lynch.

He laughed softly over the pronouns we and us which Fred had used. I was a declaration of citizenship; an intimation that he was bound to be identified with the progress of the town. "Can the spring be bought?" the HCGOI'S Lardine ETry it and you will use no surveyor asked.

"I am afraid not," replied Fred. "It can be leased, however. "For 999 years?" "Is that the way it's done?"

"Why don't they make it the even Market Equare, Kingston "It wouldn't do to seem too grasping," replied Mr. Lynch, laughing. 'Now, my boy, as you have presented an idea that looks eminently practical,

I do not purpose to allow anybody to deprive you of the credit of it. I will be here one week from to-day, when you can report progress. The immensity of the undertaking confused Fred. He hadn't thought of carrying the heavy end of it.

"What am I expected to do between now and then?" he asked. "You are to secure a lease of the spring and raise the \$50,000." "All right," cried Fred. "I'll do it. I am much obliged to you for giving

me your attention. He lifted his hat and started off. "That's more than an ordinary boy," was the surveyor's mental comment. 'He's got grit enough to do all that e's set out to do." Two days later the surveyor exam-

McCOLL BROS. & GO., Toronto.

Chemical Laboratory, Dalhousie College, Halifax, N.S., Jan. 30th, 1885.

I have made an analysis of samples of the Emulsion of Cod Liver Oil, prepared by the Puttner Emulsion Co., and they have explained to me the details of their process. The ingredients used, and the mechanical processes to which they are successively subjected, enable this Company to prepare a permanent Emulsion without the use of acids or alkalies. This preparation has been known to me for many years, and when carefully prepared is certainly a great improvement upon the Crude Cod Liver Oil, not only being milder in flavor, but having the more substantial advantage of being in the best form for digestion or assimilation.
