KINGSTON WATER.

An Analyses Made by Prof. Bayne, the Royal Military College-What He Found

The Editor, British Whig. Sir,-Herewith I beg to send you for publication, a transcript of Dr. Bayne's report, and results of analysis of five samples of water taken from the severa

localties herein stated, viz. : No. 1, from a hole in the ice, just outside the filter. No. 2, from a tap in the pump room, directly connected with the filter.

Nr. 3, from a hole in the ice, one thousand feet out in the harbour. No. 4, from a hole in the ice five hundred feet out in the harbour. No. 5, from a tap in Dr. Bayne's dwel-

It is worthy of remark that Dr. Bayne

was totally unaware of the sources

whence the samples were taken, until For the sake of comparison, I have subjoined to Dr. Bayne's report. not one, perhaps, in his finest work Professor Goodwin's table of results, 27th Feb. to the Whie, and reduced to as written with more consummate art. corrected as per his letter of 27th ult., the same standard of parts as shown by a boy, however, Shelley had the mis- to the Whie, and reduced to the same Dr. Bayne's table : no produce some tales scarcely standard of parts as shown by Dr. Bayne's table of results. By a glance at the respective tables it will be seen that the results are very similar, the difference in any case being a mere trifle, and representing just so many parts in 70,000 or 100,000,000, according to the tables.

The comparable samples are those marked A, B, and U, in each table respectively. I have also subjoined for comparison, the results of 19 analyses', made at different times, of the water furnished by

six different water companies in London, England. Yours truly, JAMES WILSON. March 10th, Manager K.W.W. Co.
