Wanting to Make Terms. Certain members of the Cricket Club are anxious to make terms with representatives of the other athletic clubs in the city, touching the use of the cricket field. This is suggested by the members of the City Council, who think the removal of the fence would be advisable. If the fence were removed no fees could be collected for admissions to matches

A Very Painful Sight.

Last night there was a painful sight at the police station. A woman and three children, aged respectively 4, 6 and 6 years, ragged, sunburnt and dirty, put in an appearance. The woman said her name was Halliday. She was half dressed, and what clothes she had were torn in many places. She seemed demented, said she was from Brockville, and had been a week on the way. She and her broad were bound for Toronto

A meeting of citizens was held at the Windsor Hotel last evening to consider the advisability of holding a celebration on Dominion Day. All seemed to have

come prepared to support any reasonable movement and demonstration. The following gentlemen were present: Messrs. W. R. McRae, S. Oberudorffer, J. Jackson, J. Crawford, R. Bowes, H. Crothers, W. The bicycle races are open to wheelnen from a distance as well as to the local men. A petition will be presented to the

Council at its next meeting, asking for

a grant for celebration purposes. After the programme had been draft ed a subscription was taken up, and the handsome sum of \$150 was raised with out difficulty.

The following gentlemen were then appointed a committee to canvass the city for subscriptions : Messrs. Martin O'Brien, T. Mills, H. Wilkinson, James Crawford, W. Middleton, L. M. Woods, J. Jackson, C. Livingston, F. Rees and S. Oberndorffer. The above is a very influential committee, and the citizens will, no doubt, "come down handsomely" when called upon.

A Railway Scheme Divs on Wall Street - Portsmouth Episode-Won't

Put up the Money. Entertainment at Portsmouth.

The children of the Presbyterian Sabbath School, Portsmouth, had a very happy meeting in their hall last even ing. The Superintendent, Mr. Thompson, explained that being in want of a little money to pay for papers and other necessaries for successfully carrying on everything in connection with the Instithe school he had procared from Chicago a setting of the very best eggs he could find, and they had met to night to find out which egg contained the prize bird. The Secretary, Mr. Patterson. then proceeded to chip the eggs, great excitement being kept up as it was an nounced from time to time what each egg contained. At length the prize bird was found to be Miss Purdy's, valued at \$3. She was handed a very nice book as her prize. At intervals Mr. James of their most beautiful hymns, and Miss The following was finally decided | Marshall contributed a pretty solo. At 9 o'clock Mr. G. S. Fenwick arrived with his magic lantern and another hour was spent feasting the eye upon the very pretty pictures produced by him upon the wall. When the usual "Good Night" was shewn one little fellow called for three cheers for Mr. Fenwick, after which all retired heartily pleased with

the evening's enjoyment.

Cemetery Superintendent's Report At the annual meeting of the Cata raqui Cemetery Company, D. Nicol superintendent, reported that 238 in terments had been made during the year, two more than in 1882 83. Speaking of the improvements he said drains were made, culverts were built, and new avenues opened. Much needed re pairs to the fences were also made. and 150 ornamental trees were planted. and the unsightly trees cleared away. A section which was formerly au un sightly sand pit has been laid into lots. and walks formed through and around it. Willow pond has been formed and a bridge built to the island in it. There were many more visitors in the pas year than previously. A number of very fine monuments have been erected, and there seems to be manifested a growing interest in the general improvement of the cemetery. Yet comparatively few of the lot owners have their lots kept in order, and while so many are indif ferent about this matter the cemetery cannot be made to appear so tidy and clean as are some cemeteries where every lot owner contributes annually small amount for the dressing of his property.

A Railway Scheme Cellapsed.

The scheme for the building of a rail road line from Brockville to Westport and northward, has gone up as we ex pected it would do. It was chimerical and suggested only as a means of throw ing cold water upon the Kingston & Pembroke RR. proposition. A gentleman has returned from New York and tells the Brockvillians that those who were interested in the road collapsed in the recent Wall Street financial crash. It is hinted that Grant & Ward were to Messrs. T. Pugh and S. Marshall have they expressed their approbation of the have come down with the millions ne cessary to build the line. Meantime the Kingston & Pembroke RR. will go ahead. and Westport will be connected with a live business city.

> A Good Investment. We note that the Bell Telephone Com pany of Canada, which owns all the ex isting telephone business in the Domin ion at a cost so far of about \$1,203,000. has just made an issue of first mortgage bonds, the proceeds to be used in a still further extension of its business. These bonds, to the extent of \$100,000, are of fered to the public at a rate to pay the purchaser 7 per cent. interest. anl it would appear to be well worth while for any one having money to invest, from \$100 upwards, to obtain particulars from the Company's local agent or from Messra. Osler & Hammond, Stock Bro kers. Torontc.

A Terrible Downpour A centlemen who vesterday drove to the city from Gananoque states that the downpour of rain was something unpre cedented in his experience. Following the peals of thunder, which warned him of the imminence of a storm, the rain commenced to fall, and for a time seemed as if there was to be a second deluge. He says the water ran off his vehicle in streams, and the horse raced along through a foot of it on the road. The flood was terrible, but it was not ruinous so far as we know. The country needed wetting.
