ANALYSES OF

TEAS AND COFFES By the Government Analyst, May 1st, 1884.

I hereby certify that I have received from Messra. S roud Brothers a number of samples of their teas and coffecs, representing their entire stock now in their saveral warehouses in the city. and at their request I have submitted the same to analyses and microscopic examination, and I now beg to report on the following samples of coffee and chicory : No. 4-GENUINE COFFEE MIXTURES, Selling at ...... 45e per 16.

All of these samples I find to be genuine and of excellent quality. Sample No. four is a judi ous mixture No's I and 2, which is decidedly preferable to either separately. No. 5 is a still further improvement, and forms a deliciously flavored coffee which, to those who prefer a little clicory, will be found both economical, fragrent and strong. The Chicory is genuine and of the English cultivated variety, which is superior to Canadian grown Chicory. Eight samples of CHINA TEAS and eleven samples of JAPAN TEAS are now in band and under examination, and will be the subject of a future report.

No. 5 - COFFEE AND CHICORY MIXTURES, Selling at ...... 35c per lb.
