> The steamer Alexandra, on the passage down the Lachine Rapid Tuesday stern round and forced it on to the rocks with such force as to shake the vessel from stem to stern. A crunching noise showed that the planking of the hull had succumbed to the punching. After atriking, the steamer immediately swung out into the channel and continued her career down the rapids. The water, however, was pouring into the hull, and fears were felt that she would fill before clear of the rapids. She was, however, kept affoat to a point between Nun's Island and Rock Island, where as the fires were extinguished and the steam was giving out she was run aground on a reef between the two islands. At the time the water was up to the main deck aft, and in a few seconds the stern settled down, with the water above the guard. The passengers Boucherville. The Belmont left Monand appliances for lightening the cargo, and it is thought that the steamer would be floated during the day. The cargo consisted of rags and will not be damaged. The steamer is owned in Picton.
