Sport at the Crystal Palace Grounds Yesterday Afternoon-Getting Up Good Speed:

The horse ring at the fair grounds was in very poor condition for bicycle racing yesterday, but a five ton roller from the penitentiary made it passable bicyclists wheeled into the circle and piled their bikes near the judges' stand. The visiting cyclists were Messrs. West and Magurn, of Belleville; Boyes, Smith and Lesite, of Napanee; and Johnson, of crosto. Outside the picket fence more

than three thousand people congregated. All these could not see, but they tried hard enough to do so. The Mechanics Hall steps were crowded, so was its platform and roof. For a time the wheelmen gave an exhibition of their profficiency, and several did more-they showed how unconcernedly they could look after taking a header. About 3 o'clock the bugie call announced the beginning of the races. Clark Hamilton acted as starter, and Alds. Thempson and Eilbeck (of the big four) as judges. Mr. John Carruthers, Honorary President of the Kingston club, was in atten dance and took a lively interest in the proceedings. Notwithstanding the seve rity of the weather and the slight dash of rain he and others saw the fun to the end. The races, however, were not as

exciting as they were anticipated to be,

the presence of strangers having pre-

vented many local men from entering.

HALF MILE RACE IN HEATS. The half mile race in heats, best two n three, twice around the ring, was called first, with the following entries: T. G. West, Belleville; A. Leslie, Napance; M. F. Johnson, Toronto, and Minnes, Kingston. In the first heat Minnes lead, but before the course was half traversed it could be seen that the contest lay between West and Johnson Leslie also passed the Kingstonian. A the end of the first lap West was ahead and he remained ahead to the finish though hard pressed by Johnson, who had been misinformed to the effect that the course had to be circled three times. Leslie was third and Minnes a long way

In the second heat the Kingston wheelman retired. West was passed by Johnson, but they kept pretty well together and made some exciting sport. Johnson was first. Leslie dropped out on the last lap.

In the third heat the two competitors kept together, Johnson a little is ad vance. He ran away from West in the tast lap. It was run, however, after the two mile race. The results, summed

The track required to be circled four times in order to make a mile. There were seven entries : Messrs. West, Bell ville; Johnson, Toronto; Nicol, Cataraqui; R. McKelvey, S. Henderson, King ston; W. Smith, A. Leslie, Napanee. Positions were drawn for and the race begun. Smith dropped off his "bike, but mounting it quickly followed the flyers, and before he had made two laps secured fourth position. He dropped out in the fourth lap. Leslie and Henderson retired on the second round, McKelvey in the third. Nicol went to the front! and ball as that postion the arm day; in the second, he and West crossed the line together, Johnson a long

way behind; in the third, Johnson passed Nicol and ran well up to West, who, however, had secured such a lead that Johnson, though working hard, could not overhaul him. Cheers greeted the winner as he rode past the judges, his pink jersey fluttering in the breeze.

THE TWO MILE BACE. * The Terente and Belleville men were the only competitors. A dash of rain made many leave the ground. The men started off well. Johnson got to the front and maintained the lead, close ly followed by West. There was con siderable excitement and the people cheered the little Belleville boy who was doing so pluckily. The seventh round was made with Johnson still ahead The half of the eighth was completed and Johnson was still ahead. Then West made a mighty spurt, passed Johnson, and, amidst great esthusiasm, ran in the winner, his hands high in the air and his feet off the wheel. This feat of West's was decidedly clever.
