As a good lext of the wood has either been chared or burnt off the general aspect of the country is the reverse of pleasing. Around Calabogie the country improves, and has been set the up for years. Still it was a consderable distance from a market, and, until there was a prospect of the railway into Renfrew coming round that way, the laud had reached a point beyoud which there was little likelihood of its increasing in value. With the surver of the radway, however, there came the discovery of large deposits of iron ore, and the opportunity for the erection of saw mills, which could send their products to market by the railway. Ther also own mines No. 2 and 3 on Thomas Church's land. Between the mines, and the saw mills erected or to be erected by Messrs. Carswell & Co. and Mr. Caldwell, the railway will be likely to have a good deal of business from the neighbourhood of Calabogie Lake. The morning train for Kingston left Calabogie Station at 7:30 o'clock. The place contuns a couple of taverns and a boarding house, a store and a telegraph office. Although no farm houses are visible from the line some extensive clearings and fenced fields show that the district around must have been ettied for many years The Robert-ville iron mines are in this vicinity : but work there is suspended at present. The principal at-

traction to most visitors appears to be Americans to the neighborhood. At Mississippi, the old-style par which does | Godwin, Ely, G.c.ves, R.es, Elliott, duty on the northern division, is exchanged for a new one, equipped in handsome and most comfortable mat. ner. Passing the small stations of Clarendon, Maberly and Oso, a run of 14 miles brings the traveller to the now fame ! Sharbot Lake, where there is a handsome station. Of the buildings the principal is the charcoal works, which did not show any signs of activity.

THERE WAS ICS ON THE BAY which runs up to the track, but beyond the island the water was open. On the arrival of the C.P.R. train from Montreal and Ottawa a number of passengers got on board the hingston train among whom were air. Felger and Hon. House of Commons. For about half the distance between Sharbot Lake and Kingston the country is rugged and rocky, though not so mountainous as further north; but soon after passing Verona the granite formation changes into the impestone, and the stations are surrounded by more flourishing settlements and important looking villages.

Kingston was reached a little before 6 o'clock in the evening, the run from Calabogie, 91 miles, thus occupying nearly the whole of a winter's day. as the line is opened through to Rention of the company to have the train leave Renfrew at noon, connecting with the C.P.R. trains at Sharbot Lake, and arriving in Kingston at 6 p.m. train for Renfrew 19 to leave Kingston at 1 p.m., connecting with C.P.R. trains also at Sharbot Lake, and arriving at Renfrew at 6 p.m.
