75 Cents a Bottle. \$5.00 a Doz.

W. H. HOBSON, WELLS, ONT.

### AGRICULTURAL OUTLOOK.

#### STRANGE LAND SLIDE.

Effect of the Cold Weather - Spring Crops Stocked - Losses of Reports.

The first serious report of the United States of Canada has been issued, giving a statement of the present condition of the crops and the outlook for the future. It is said that the ordinary course of the winter season is not at all unusual, but that the unusually early and severe weather has caused a great deal of damage to the crops. The report is that the crops are in a very poor condition, and that the outlook for the future is very gloomy.

#### STRANGE LAND SLIDE.

MARY JONES of Island Carried Across the River - Farmers Beware the Loss of Farms.

Year 1898. County of Muskogee, Okla. - One of the most extraordinary and strange occurrences in the history of the Territory was the carrying of a woman across the river by a log. The woman, Mary Jones, was carried across the river by a log which was carried by the current. The log was carried by the current, and the woman was carried across the river. This is a very strange occurrence, and it is a warning to farmers to be careful of their crops.
