Mr. Davis was much affected in his response. He was surprosed, first for being presented with such a flattering | pany address, and second with receiving such a present. He was at a loss to find suitable words in which to express his feelings on the occasion. He thanked them smeerely for the gift. He please to find that he had so many friends in Kingston and he assured them that he left Kingston with much regret. He had spent many happy days amongst its residents. Having resided here some ten years, he could assure them that he had always been well treated by Kingstonians. He was not prepared to state his future movements. but should be return to Kingston be hoped he would meet all his old associates again. Should be not do so the present he received would be a momen to, hourly remanding him of the city and its people. He thanked them for the good wishes expressed for his welfare and resumed his seat amoist applause.

Following this there were pleasant speeches from Alds. Smythe, Redden. Shaw, an I Messrs. Capt. John Keeth, of Chicago, was recently in Kingston with a unsuber of his vesseels. On his return he was inter word and he is reported as making the following statement. "What have you to say of Kingston ?

Kingston is a quiet, old fashioned tile town, with a location worthy of dence of newspaper notices, already far more enterprise. The agents of the too fattering in five cases out of ten Montreal Transportation Company, Mr. Thompson and Superintendent tiaskin. are exceptions, being thrifty, persevering gentlemen, possessed of Yankee energy and skill and equal to the positions they hold. THE LEGAL ASPECT. The City Solicitor was called upon and said that he had forwarded an open on to the Committee which had caused them to abandon the scheme they had view. He was under the impression that the Committee were working un der the recent Act passed by the Outsno Legislature which gave cities, towns and villages the power to construct water works. The last clause, however, contained the sting and was evidently overlooked. The Act was to be carried out in conjunction with the Municipal Act and Section 470 of that Act reads

"In case there is any Gas or Water Company incorporated for the manuerpality the Conneil shall not levy any gas water rate until such Council bas by he law fixed a prace to offer for the works or stock of the Company, nor an til after thirty days have elapsed after notice of such price has been communicated to the Company, without the Company a having accopped the same, or having under the provisions of this Act as to Arbitrators, named and given notice of an Arbitrator to determine the price, nor until the price accepted or awarded has been paid, or has been secursed to the satisfaction of the Com-

Oty Solicitor, if he had ever communicated to any member of the Committee the im possibility of their proceedings, but he declined to answer the question. We are incline I to the opinion that some Civic Fathers were well aware that they could do nothing, but basing no better election cry they kept the real facts concealed nutil it was impossible to do so any longer. The reason why the Committee did not work as heartify as they should have done is now apparent. Who is responsible for the waste of money?
