

FINE APPOINTMENT.

If the Toronto court money in the contest, it is argued by their opponents, the Wines, that I did better than the larger number of politicians file against members elect in their behalf of the one party—in other words, against supporters of the Government, which was in power. This evidence that the heretic was not all on one side.—Ottawa, Ontario.

Really the argument is too silly to warrant serious consideration. The Wines ought to know if it does not that the positioning against the return of any man is not, *anti*-*anti*, *anti*-*anti*, but *in* *anti*, *in* *anti*.

Our contemporary common that the Liberals have been great offenders; it seems to be well satisfied upon the point that testimony is a matter of little moment. It can be disposed with altogether, for the protests have been put in and are they not convincing enough? It is quite evident that such reasoning cannot prove very popular with those who have their noses about them. It is a well known axiom of law that the accused must be counted innocent until the contrary has been proven. The prima facie evidence of the *Whigs* is no evidence at all. It went to remunerated that the scheme for the protection of elections on the whole plan was hatched at Ottawa, perhaps in the shade of the office of our contemporary, and it ought to know, if it does not, that the calculation was to turn a certain number of Liberals, to have new elections to conduct them as that of Monda had been done in the Tory interest, and to ultimately defeat the government by fair means or foul. The Liberals would not have protested so many seats were they not forced to fight fire with fire, and we hope for a successful issue. Our contemporary has had a great deal to say about what the courts have decided in. In Kingston the expenses have been all on the Tory side, and it is not much that the *Whigs* and its friends should deserve a review of it. We remember the outcome of the election case of 1874, and the editor of the *Whig* ought to remember it also. What a record of corruption! And how much worse it would have been had some men's memories not failed them at an opportune moment! These things are old now, not particularly happy to contemplate, but of the *Whigs* deserves a repeat of its scrap book we have no objections.

GROUNDS APPOINTMENTS.

Mr. Gerald, Collector of inland Revenue at London, Ont., has been appointed Inspector of Tobacco Manufactures under the Act of last session. Mr. Thomas Alexander, Deputy Collector at Kingston, has been appointed to succeed Mr. Gerald at London. We shall regret Mr. Alexander's departure from Kingston, but at the same time he is to be congratulated upon a promotion to which by experience and ability he is entitled. He is an excellent officer, qualified as few are in the service, and must become a good Collector. Mr. Alexander entered the inland Revenue Department in 1870 at the Toronto office. In 1871 he was sent to Kingston and remained here until 1873. Then he was sent to London, where he did duty until 1879, in which year Mr. Mr. Gladstone, Collector at Sault Ste. Marie, and Mr. Alexander took the management of his office until, as a separate establishment, it was abolished. Mr. Alexander returned to London, but had only settled down when sent to act as Collector of the Remained office. This change occurred in 1883. Last year he was removed to Kingston, becoming Deputy Collector. After a residence of some months he is off again, but this time with some prospect of permanency. As a Kingstonian we are glad to see his merit recognized. We hope he will long enjoy his new appointment; but it is not improbable that the Government will find him an even more exalted place by and by.

At the meeting of the Trustees of Queen's College in April the question of appointing a permanent Professor of Chemistry was considered, but without a decision being reached. The subject was referred to a Special Committee which met yesterday in Toronto, and, we hear by telegraph to-day, that the choice has fallen upon W. L. Goodwin, B. Sc., late Professor of Chemistry and Experimental Physics in Mount Allison College, Sackville, N.B. There were several applicants for the position, including a Kingstonian who had the strong endorsement of the Alumni. The Committee was commissioned to secure the best talent available, and the selection of Mr. Goodwin is expected to meet with general approval.

DISTINGUISHED CANADIANS.

From the May number of the Royal Engineer Journal it appears that at a recent examination held at the Royal Military Academy, Woolwich, under the Director-General of Military Education for promotion to the rank of Captain, that the names of two Canadian Lieutenant H. R. Mackay and A. H. Van Straaten appear among those who have passed with distinguished honors and been awarded special certificates. Both these gentlemen received their education at the Royal Military College, Kingston. Mr. Van Straaten is son of Deputy Adjutant General Von Straaten, of Montreal. Mr. Mackay having a son of Mr. Mackay, Deputy Warden of the St. Vincent de Paul Penitentiary.

ON TO TRIAL.

If the Kingston News will furnish us with enough to distinguish between the *Whig*'s statement of certain arguments in favor of Canadian independence, and our definition of our views as contained in the concluding part of our editorial, we will do in any manner worthy of serious consideration.—Toronto, June 16.

The *Whig*'s Error.

Last year I had a two-year-old son that had the heresy for two weeks to the end of the world and almost stoned and beat him. Dr. Dore's Surgeon Dr. Lister wrote or three days ago. It was entirely cured.

Papernose, P. Q.

This name comes to us of a very number of Heretic Diseases that are rapidly increasing among

stolid results were read before the Royal Society and published in the Transactions. He went to Heidelberg, Germany, and spent the academic year, 1880-81, in the university there.

Returning to London in 1882 he graduated as Bachelor of Science with honors in chemistry and experimental physics. He was appointed Demonstrator and Lecturer on Chemistry in University College, Bristol. During the winter of 1882-83 he carried on original investigations, the results of which were embodied in a thesis for the Doctor of Sciences (Edinburgh). That degree was conferred in 1883. It is that year the Professor of Chemistry and Physics in Mount Allison College, Sackville, was offered to Mr. Goodwin, and he has since discharged the duties of that post.

CHRISTIAN BROTHERS PEC-NIC.

The pic nic yesterday at Channel Grove for the benefit of the pupils of the Christian Brothers' School, was well attended. The day was propitious and the picnic-ground looked beautiful in its summer garb. The sports were of varied character. They were heartily entered into by the juveniles. A game of football, with fifteen on a side, was hotly contested, and after an hour and a half's play was decided in favor of the side captained by Marshall Albert. A lacrosse match was also played. It occupied about 45 minutes. The side in command of G. F. Roddison won. An interesting base ball match followed. It was an interesting event. Among the other contests the winners were:

Throwing baseball ball—W. Lambert, 100 yards race, boys 12 years—T. Morris. 100 yards race, boys 12 years—T. Morris and C. Wilson. Three-legged race, boys under 12 years—T. Morris and W. Power. Obstinate race, 12 years and over—F. Sullivan, T. Lovell. Obstinate race, under 12 years—Masters, Doughty and John Mullholand. 100 yards race, boys under 9—Masters, Doyle and Neale.

Such race, boys under 12 years—Davin, Lawrence.

Three-legged race, boys 12 years and over—T. Lovell and J. Miller.

Three-legged race, boys under 12 years—Masters O'Brien and O'Brien.

Three-legged race, boys under 9 years—T. Morris and W. Power.

Obstinate race, 12 years and over—F. Sullivan, T. Lovell.

Obstinate race, under 12 years—Masters O'Connor and Raftforth.

Obstinate race, under 9 years—W. Miller, J. A. Marchand.

The party returned home about 7.30 o'clock, after thoroughly enjoying themselves.

DAIY OF ONTARIO.

The letter of the Dominion Alliance was referred to the Committee of Church and Temperance Society.

REPORTS CONSIDERED.

Archdeacon Jones—On Motion Board.

An amendment of Rev. W. B. Carey, to add \$100 to the grant to Bradfield Seminary under the Act of last session. Mr. Thomas Alexander, Deputy Collector at Kingston, has been appointed to succeed Mr. Gerald at London. We shall regret Mr. Alexander's departure from Kingston, but at the same time he is to be congratulated upon a promotion to which by experience and ability he is entitled. He is an excellent officer, qualified as few are in the service, and must become a good Collector. Mr. Alexander entered the inland Revenue Department in 1870 at the Toronto office. CONFIRMATION OF CHILDREN.

Confirmation was administered at Campbellton on Sunday in the R. C. Church, when 100 children were confirmed by His Lordship Bishop James, of Peterborough. He was met at the G. T. Station by the congregation and inhabitants, who formed a procession, headed by the Campbellton Brass Band. In company with his Lordship, Father Casper, of Campbellton, and other attendants. He was driven to the parsonage, then proceeded to the Church, at the gateway of which a tony arch had been erected with the word "Welcome" in the centre. After Mass was celebrated His Lordship spoke of the children's superior attainments and their satisfactory preparation for the confirmation. He gave them the Episcopal benediction.
