"REMEMBER."

ALFRED DE MUSSET

Remember, when the timid dawn unclose
Her virgin palace to the sun's bright beam
Remember, when the pensive night reposes
Beneath her silvery veil in tender dream,
When pleasures call those when the heart is light,
When to sweet flowers shade invites at night
List through the deep woods ring
Sweet voices, murmuring
Remember!

Remember when Fate's cruel hand is lowering
For all the ties that bound my life with those
When with loss, years and exile grief impowers
Despairing heart and blasted hopes are mine.
Think of my love, think of my last vows,
Absence and time are naughts when love is true,
Long as my heart shall beat
Ever it shall repeat
Remember!

Remember when beneath the cold ground lying
My broken heart forever is at rest.
Remember, when some lovely flower is trying
Its petals not to open on my breast.
Then will not see me, but my soul, set free
Faithful in death, shall still return to thee.
Then hark to the sad moans
Of a fond voice that groans
Remember!

MEDICAL ASSOCIATION.

A CONTINUATION OF YESTERDAY'S SESSION—ADDITIONS TO THE ATTENDANCE—READING PAPERS

President's Opening Address—Kingston a Centre of Civilization—A successful Operation—Dr. Dupuis on a Code of Ethics—In Favour of Newspaper Notices.

The following additional members reported at the afternoon session:

Dr. Bigham, Cataraqui; Dr. Clarke, Toronto; Dr. Harrison, Selkirk; Dr. Macdonald, Londonderry, N.S.; Dr. Butler, Sterling; Dr. J. Cormont, Montreal; Dr. Bowen, Seeley's Bay; Dr. Grant, Ottawa; Dr. J. A. Macdonald, Montreal; Dr. Tobin, Halifax; F. Fulton, Toronto; Dr. Philp, Hamilton; Dr. Johnson, Kingston; Dr. Leonard, Napanee; Dr. Douglas, Castleton, Dr. Macfellan, Trenton; Dr. Kingston, Montreal.

ADDRESS OF THE PRESIDENT.

Dr. Mullin, of Hamilton, made an interesting address. He thanked the members for the honor conferred upon him in electing him President of the Association. This honor might justly have passed to many others before it reached him, but as he had been called to the chair he would do all in his power to discharge the duties of it honorably. One of his greatest pleasures was to attend the annual meetings of the Association, to meet members of the profession from all parts of the Dominion. All were welcomed to the assemblage, especially those who, though in advanced years were yet amongst them, those "whose eye is not dimmed nor the natural force abated." The speaker referred feelingly to the death of Dr Duval, of Montreal, the General Secretary from 1880 to 1881. Those who knew him best said "He was noted among his confreres as a man of the strictest integrity, of the highest sense of honor, and in these respects he was always an example to young men. He was an able and conscientious practitioner, full of zeal for his profession and anxious for the advancement of the

CAUSE OF MEDICAL EDUCATION.

He was a good citizen and took an active part in public meetings and in the promotion of charitable objects. He lived a busy and useful life and died at a good old age, respected and honored by all." The decease of Dr. G. T. Campbell, Ven. Sir Thomas Watson had also occurred. "It has been thought," said he, "that the itinerancy of our Association has been opposed to its usefulness and has hindered its growth, in fact some have said that wandering from place to place has jeopardized its existence, yet it still lives and every meeting gives increased confidence in its success. All who attend its sessions recognize the advantages it has derived from every place where it has met; each has given its special contribution to the success of an association, and in each place it has elicited the cordial support of the profession. We meet now in this old city of Kingston, the very cradle of the civilization of half this western section. We look for continued success when we reflect on the standing of the profession in this vicinity, and remember that we have come to an important centre of education and culture. Every member of this Association gladly recognizes that the institutions of this city remain worthy of the history of Eastern Ontario and exercise their influence over the youth of the present with a vigor corresponding to the growth of our country." The speaker then

DEALT UP TECHNICAL SUBJECTS.

He discussed the agencies through which the decomposition of organic substances were effected. He stated that the current of medical belief was that contagious fevers were caused by poisonous substances (the result of decomposition) being carried into the circulation of the blood. Contagious fevers depended upon changes due to the action of vegetable forms upon the fluids. He summed up the whole subject of vegetable growth and the presence of bacteria in the human system. He said: "Our knowledge at present is in accordance with that long since found true, that as regards contagious fevers and tubercular diseases all efforts must depend to a great extent be on our successes in teaching the public to rely less upon antidotes and more upon those means which tend to build up the strong frame capable of withstanding the agencies causing disease; that our main hope of banishing the mortality from these diseases lies in carrying out by the public of proper sanitary measures and as regards the individual attention to the laws of health.

In what they carried out, drink of, making on Monday.

The commencement, not chastisement delight.
Of many years over my head rejoice;
So may it then you all like rose fresh thou drop
Into thy mother's lap, or be with care
Cankered, not harshly pinched."

IMPORTANT ITEMS.

Dr. Bingham, Toronto, Dr. Foster, Napanee, Dr. Bastier Sterling, and Dr. C. R. Clark, of Rockwood Asylum, were elected members of the Association.

Dr. Tye, of Chatham, was appointed Chairman of the surgical section, and Dr. Graham, Chairman of the medical section.

Dr. Durland, of Milwaukee, Wis., was introduced as a delegate from the Wisconsin Medical Association.

SURGICAL SECTION.

At the opening of the surgical section Dr. Gardner, of Montreal, was appointed Secretary. Dr. Tye, of Chatham, introduced Dr. Fenwick, of Montreal, who read a paper on "Hypertrophic nævi with facial fistula." He illustrated a case by colored drawings. Dr. Fenwick gave his manner of operation.

Prof. McLean, of Ann Arbor, thought the case a very rare one. He congratulated Dr. Fenwick on the operation and on its results.

Drs. Robinson, Hoomes and Walker, of Detroit, offered remarks and then discussion followed on which a number of doctors took part.

Dr. Worthington, of Clinton, read a paper on the "Intravenous and retroflexion of the uterus. He made mention of many patients at present under observation.

A discussion followed and entered in to by many.

MEDICAL SECTION.

Dr. Graham took the chair and appointed Dr. Macdonald, of Montreal, Secretary. Papers on practical subjects were read as follows:

"Duel as a therapeutic agent," —Dr. Playter, Toronto.

"Successive diagnosis of the cause always specific." —Dr. Durland, Milwaukee, Wis.

"Inflation of the lungs by traction, abdominal and thoracic." —Dr. Brandebeck, St. John, N.B.

Each of these papers was discussed by the medical practitioners.

THE EVENING SESSION.

In the Medical Department Dr. Dupuis took the chair at 7.30 o'clock and addressed the assemblage on "the conduct of medical men towards each other and towards each other's patients. He asked if there was a code of medical etiquette to guide the medical men in Canada." He said there was such a code in Philadelphia, but his opinion was that there was no necessity for such a code. The golden rule was the best to govern them.

Dr. Osler said the Canada Medical Association had a code.

Dr. Dupuis said that there was a rule in existence that when a medical man settled in a large city, town or rural place he should call on all the physicians and extend a hand of friendship. This was an absurdity. When a new man went into a place where another only made a living to be friendly was to act like two pugilists who shook hands before they pummelled each other. The men should fight it out and then be friendly. It was different in olden times, when doctors received honorary fees whether they worked or not, or they were attaches of some household. Wherever doctors lived they should stand on their merits and work as they considered right. Regarding consultations he wished to know who should choose the second physician. He thought

WHOEVER PAID THE BILL

should have the selection. If the family asked for the consultation they should choose; when the doctor desired counsel he should select it. He next declared that consultations should not be conducted in a mysterious way, and physicians should not seek secret places and there come to decisions. They should not go to the people, hypocritically, and say they were agreed when they were not. The consultation should be made before the family, before those who paid for it. Independent opinions, when asked by the friends of a patient, should be given. Lawyers secured fees for their opinions though others had the case, and the same rule should exist amongst doctors. They should be guarded, however in making remarks not to reflect upon the course of treatment adopted by the physicians in charge. He homed on the taking of patients by one doctor from another, and cited a local case where the husband called one doctor and the wife and mother-in-law another. The mother-in-law prevailed. He thought doctors should go whenever called. There was no use for a code if men did not live up to it. He referred to newspaper notices and said that a recent case referred to in a medical journal was written to an absurd point simply to draw out discussion and to determine whether it was wrong to put in the papers accounts of successful surgical operations. He gave the ideas of Boecher and Abbott to the effect that newspaper publicity was a quicker way of telling one's friends of his exploits than to pass the information from mouth to mouth. The matter would undoubtedly be told, in fact that was just what a physician wanted. In civil cases reporters dwelt on

THE BRILLIANCY OF LAWYERS

as speakers and pleaders. A preacher coming to a new place had his sermon printed. An actor is lauded when he makes happy hits. If all these professions can have their abilities portrayed in the newspapers, why not the medical profession? Every man should be allowed to publish his cases rather than get them inserted in the papers and feel guilty about it. Some eminent men have risen simply through publication. Some thought there was an advantage in such a course but he held there was not. The doctor touched on general advertising, holding that such a means of proclaiming ability was absurd. He protested against the practice of travelling physicians, who ran about talking of their ability. Physicians should set their faces against these practices. He concluded by asking for the opinion of the members upon the suggestions he had uttered.

DISCUSSING THE QUESTIONS.

Dr. Harrison, Selkirk, said Dr. Dupuis' code was beautiful in its brevity. He opposed the idea that consultation should be held publicly and in the presence of the patient. In giving newspaper articles he thought the most prudent man with the greatest amount of assurance would come out at the head.

Dr. Osler, Montreal, would be pleased to present Dr. Dupuis with a copy of the Canada Association's code of etiquette.

Dr. McCammon said, in regard to newspaper notices, that reporters could not be suppressed. It could not be considered reprehensible to have notices inserted with the doctor's name attached to it, but it was reprehensible for the doctor to write out his own notices. The latter notices should appear in medical journals only.

Dr. Cassidy, Toronto, heard Dr. Dupuis remarks with some astonishment. He thought that at all colleges a code of ethics was taught and that it was carried into effect in the practice of medicine. Two years ago his address was entirely devoted to the medical code.

Dr. Dupuis said a code was not taught in the medical schools.

Dr. Oliver repudiated the idea that the Kingston physicians did not have a code of ethics. Many of the medical men lived up to them.

Dr. Gresham, Montreal, corrected Dr. Dupuis in saying that the result of consultations was commonly of a hypercritical character.

The discussion ceased.

A CORRECTION.

Dr. Playter states that he was not a member of the Special Committee appointed on Sanitation and Vital Statistics by the Dominion Medical Association. He thanks Dr. Cassidy had no reason to complain of the action of the deputation who met the Hon. Mr. Pope at Ottawa. It would be just as well to consider it as supplementary to the work of Committee which several of the deputation thought was not in existence.

A MORAL WRETCH.

In Hamilton Silas Slater, an educated man, is up for trial for larceny. The prisoner said whiskey was the cause of his downfall. He is very respectable connected in Watertown N.Y. His father is a clergyman of the Episcopal Methodist Church. He was carefully brought up and received an excellent education, being a graduate of Genesee College. In the business which he learned—that of watchmaking and engraving—he is remarkable expert, and can engrave the Lord's Prayer on one side of a gold dollar. Slater has for a long time been the victim of dissipated habits. In eight years he ran through $20,000. He has a brother in business in Toronto.

West Hastings, Belleville, Oct. 3, 6.
East Hastings, Thrasher's, Oct. 3.
Ameliasburg, Roblin's Mills, Oct. 13.

CALADONIA PICNIC.

On August 29th ult. the recently organized Sabbath Schools of East Calidonia and Tobey's Hill held a very enjoyable picnic in a beautiful grove on the east side of Grassy Bay. Over 100 people were present. Farmers left their fields; several railroad men laid aside their picks and shovels and a score of tree and light hearted miners came out of their pits and fixed themselves up for a holiday. The ladies were there with loaded baskets, and lots of plump and rosy country cousins, bent, like all the others, on having a good time.

A sumptuous table was spread under the trees and the good things fell before such appetites as only hard work and exuberant health can give. Afterwards came "the feast of reason and the flow of soul." J. M. Brenner, of the K. & P. RR., was elected Chairman, and an interesting programme of singing, reading and speeches followed. The singing was much appreciated, being from Mr. Haight, the Chairman and his daughter Minnie, and Miss Stranger, assisted by a young lady whose name we did not learn. A reading by Rev. W. J. Ellis and speeches by Capt. H. Johnson and Rev. H. Krupp were also given. The best of good feeling prevailed throughout and everybody seemed pleased. Two refreshments were all free, but a collection was taken up in aid of the Sunday Schools, when about $24 was thrown into the hats of the collectors. That's the way we do things at Calabogie.—D.A.S.

Prompt Action.

This is just what every sufferer wants—prompt action and rapid relief from pain. The greatest discovery of the age, the great pain cure, is Pulsen's Nervaline—prompt, powerful, pleasant to the taste and yet so pure that it may be given to the youngest infant. Try a 10 cent sample bottle, which you can purchase at King's drug store. Nervaline the great, sure, and prompt pain cure. The large bottles are only 25 cents.

There is no preparation before the people to-day that commands their confidence more, or meets with a better sale than does Dr. Fowler's Extract of Wild Strawberry—the infallible remedy for all forms of Summer Complaint.

If you are troubled with a disordered Stomach, Dr. Carson's Bitters will afford prompt relief. It is the best Family Medicine Ever Superior to Pills. All Druggists sell

Hunter's Acid Phosphate

prevents sleep when the nervous system is over-worked or worried by care and anxiety.

Miscellaneous.

Oh, my Back!

Is there a miserable, weakening pain in the small of the back? Is urination painful? Do you have palpitation of the heart? Do strange, indescribable feelings creep up your back and sides? Does the least exertion weary you? Does your urine show brickdust or albuminous deposit? Does any sudden fright cause an intense, sharp pain in the small of your back? Do you have an aching in the groin? Is your memory impaired? Is your breath short? Are there shooting pains about your vitals? Are you becoming dropsical?

These are all symptoms of kidney diseases. Be on your guard against them. If let run it may end in Bright's Disease, which is sure death.

Your best course is to procure at once a bottle of SUTHERLAND IRON BITTERS containing only 50c. It will cure any form of Kidney Complaint, except Bright's Disease, it will relieve the symptoms and clear the cold day corners are undertaken.

SUTHERLAND IRON BITTERS is a medicine as harmless as water. The world has not seen its equal as a cure for diseases which attack the Kidneys and for the complaints to which females are alone liable. It is of more value than any secret compound known to the medical faculty.

Sold by all Druggists and at Depot 149 Jarvis St. Toronto, Ont. Price 50c.
