

Daily British Whig.

The officers of one or two of the American Coal Companies are opposed to the advance of coal. All the principal Companies, except the Pennsylvania Coal Company, have agreed virtually on an advance of 25c. a ton on domestic sizes. This Company advanced its prices 10 and 15 cents on June 15th, and is now reluctant to join in the movement proposed by the Philadelphia and Reading Companies.

The English papers are just not estimating as closely as they can, the harvest of the world. In England the June predictions about the crops have not been verified, mallow having affected the wheat to a serious extent, while potatoes were destroyed and fruitification was further diminished by the unreasonable weather.

Continuing upon Dr. Dupuis' speech on medicinal etiquette the Toronto News says: It is full right for doctors to accept gratuitous pills but wrong to pay for an advertisement. If a patient is dying under the treatment of Dr. A., it is wrong for Dr. B. to try to keep her alive unless he is requested to do so by Dr. A.

In yesterday's Whig we noted the competition of India with America in the raising of wheat for European consumption, and we pointed out that the competition had become more marvellous in consequence of the great reduction which had been made in the changes of the Indian railways.

Various authorities state that a micrococcus fungus causes the rotting of potatoes in the soil. This fungus consists of long filaments of threads which grow through the substance of the vine, robbing it of juices and producing a rapid decay. When the filaments enter the stems and down to the tubers.

A LIVELY RETROSPECT.

THE PLACE WHERE HEK BECAME NAMED IN HISTORY—CHANGES IN THE COURSE OF TIME

Things New and Incidents Strange.—The connection between the Past and Present—Sunday Evening Meet in the Old Town—Reminiscences of the Past—The Story of the Old Town in 1817 and 75—The Old Town in 1850 and 75.

A member of the Whig staff last evening passed an hour in the society of a gentleman who has spent about 60 years in the city, and who has a distinct recollection of circumstances covering the span of most men's lives. The old inhabitant spoke of many things which were quite new to us, especially of spots here and there in the city which have a prominent place in its history.

When they were caused to be a military rendezvous were purchased by James M'augher, father of Mr. J. M'augher, M. P. of the Kingston Post Office. All the Government buildings were constructed of logs, the forest then covering ground at this moment thickly built upon.

on Martin's Island, Bay of Quinte, and F. Tullin became Superintendent of the Locomotive Works under the Marlon management. On Spadina Street, near the water line, there were the remains of a building, a remnant of which remains in the Lanercost school house.

A GOOD SEND OFF.

Presentations to Mr. Alderman Greenwood—Strong Expressions of Good Will.

Last evening a number of personal friends assembled and called Mr. James Greenwood to their midst that they might express to him the regret they felt at the closing of his term of residence here, to move closely ally himself to the growing good fortune of his business in Toronto.

The city was growing fast and gaining steadily in wealth and population. The modest citizens of this town were accordingly surprised at the size and splendor of the business of the whole city and at the beauty of the West End district.

The Vice Chairman toasted two of the fathers of the Public Schools, Wm. Allan and R. M. Horsey, and they were warmly honored. Mr. Allan gave the honor to Mr. Ford, being the father of the schools, but yet he had been twelve years laboring with others, to improve them year by year.

The Victoria Building, situated on the corner of Front and Queen Streets, was the first building of brick erected in the city. It was erected by Mr. M. T. O. and was their office and the main store on Ontario Street.

TEMPORALITIES FUND.

A Proposal to Divide the Principal Amongst the Beneficiaries of the Fund.

Montreal, Sept. 8.—A meeting has been held here of members of the Presbyterian Church of Canada, their object being to amend the Temperalities Fund. A Committee was appointed to make suggestions, and report as soon as their labors were completed.

Mr. Greenwood responded most feelingly, being deeply touched by the kindness shown. It rendered more difficult the parting for the good city seemed dearer than ever. This was not the first disinterested evidence of the friendship of those joining in the testimonial.

Philadelphia, Sept. 7.—Frederick Bass, 70 years old, was dragged from his home last April, placed in a chair, carried, and taken to Narrington in a sedan chair by a porter named Mr. Sullivan.

On the 7th of the month, Mr. J. M'augher, M. P. of the Kingston Post Office, all the Government buildings were constructed of logs, the forest then covering ground at this moment thickly built upon.

THE MINOR NEWS.

Last Night's and Today's Reports—Continued Down For Busy Readers.

The headless body of Frank Frantz (Anglo), a resident of this city, was found on the shore of the Bay of Quinte yesterday. It is believed he was lynched.

San Francisco, Sept. 7.—The Plymouth Congregational Church has agreed to pay Henry Ward Beecher \$4,000 for four lectures. It will probably lose money. Beecher will not receive more of his position as the Chinese question.

On the 7th of the month, Mr. J. M'augher, M. P. of the Kingston Post Office, all the Government buildings were constructed of logs, the forest then covering ground at this moment thickly built upon.

PSALME

Hear all ye people, and give glory to the Lord, who has made the heavens and the earth, who has made the sea and the land, who has made the sun and the moon, and who has made the stars and the planets.

On the 7th of the month, Mr. J. M'augher, M. P. of the Kingston Post Office, all the Government buildings were constructed of logs, the forest then covering ground at this moment thickly built upon.
