Oh, my Back!

Is there a miserable,
weakening pain in the small
of the back? Is it a
punishment? Do you have
palpitation of the heart? Do
strange, indescribable
feelings creep up your back
and sides? Does the least
exertion weary you? Does
your urine show deposits?
Does any sudden fright
cause an intense, sharp pain
in the small of your back?
Do you have an itching in
the groin? Is your memory
impaired? Is your breath
short? Are there shooting
pains about your joints?
Are you becoming dropsical?
These are all symptoms of
kidney disease. Be on your
guard against them. If it
run its course it will
bring on a host of other
diseases, which are
often fatal.
