NOTICE

A RARE CHANGE.

FARM FOR SALE.

GRANGE OF PLACE.

Wanted.

To Let or For Sale.

Daily British Whig.

Open confession is good for the soul, and John Whitt, M.P., has been taking the people of Walsingham into his confidence. In the course of a recent speech he said "his unwillingness to take charge of the Orange Bill had been partly owing to the fact that a large number of voters in East Hastings were Roman Catholics, and he did not want to be continually quarrelling with them."

PEACE AT LAST.
Mr. Taylor, of Bristol Street, Passy, Dies at a Hospital.

Everybody has heard of Mr. Taylor, and many have read his talk of his life claims and great prospects. About 12 years ago he was arrested. It is alleged, without much ground, and for a short time put in the county goal. For this reflection upon his character he took action against some one for damages, and so he was imprisoned.

But he never got the money, and in the long interval, with his health permitted, he visited the lawyers every day. He interposed judges, ecclesiastical officials and constantly shadowed certain prominent citizens about the city.

Emotional religion is not confined to the Salvation Army meetings all over the globe. Moody and Sankey are indulging in the same exciting means to the desired end of conversions. A London paper describes graphically the scene succeeding a late service declaring it to be very extraordinary. Mr. Moody said nothing at all particular, but the service affected a great number of those present with emotions which ran almost to hysteria.

In his speech on nomination day, in West Simcoe, Hon. Mr. Hardy made a reference to educational matters which some of the local snarlers at the Government will appreciate. He refuted the charge that the publishers of the new series of School Readers were reformers who would be benefited, mentioning that Mr. Gage was a Tory, Mr. Campbell a Liberal, and Mr. Campbell, Jr., a Tory.

The Brockville Recorder has given expression to public sentiment in Ontario, and is in a hostile to the great of further state aid to Toronto University. It argues that there appears to be only two courses open, to give aid to all, or none of the Colleges. Queen's, Victoria and Trinity have obtained a considerable endorsement by appealing to their graduates and friends.

Mr. Capel, now on an extended tour in the United States, has been much exercised by the freedom with which marriages have been made and broken by civil and judicial power. He made the matter the subject of a lecture in New York, the other day, and most clearly defined the position of the Catholic Church. The primary idea, he said, of all marriages is that through it woman becomes a mother and the instrument in the hands of God Almighty for perpetuating the human race.
