From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. To J. T Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir,-We embrace this op portunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, or. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Angle-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, we fancy that their sojourn there will be but evanescent We could multiply instances det infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Distriber, and Dys entery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarriora, and even in the more terrible ferms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that is is decidedly the best, and also from a sense of duty we ewe to the profession and ne public, as we are of the opinion that the substitution of any other than Collis Browne's is a
