Gout Cancer, Toothache From Symes & Co., Pharmaceutical Chemists, Medical Hail, Simla, January 5, 1880. To J T Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear bir, - We embrace this op portunity of congratulating you upon the wide-spread reputation this justly esteemed medicine, r. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we must question whether a better is unported into the country, and we shall be glad to hear of its finding a place in every Augle-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and judging from their sale, w. fancy that their sojourn there will be but evanercent. We could multiply instance, ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Distribor. and Dysoutery Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative that have occurred under our personal observation during many years. In Cholera Diarrices, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm

he public, as we are of the opinion that the substitution of any other than Collin Brownes is a DELIBERATE BREACH OF PAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIES We are Sir faithfully yours, Symes & Co., Members of the Pharm Society of Great Britain, His Excellency the Viceroy's Chemists.
