THE ORIGINAL AND ONLY GENUINE. ADVICE TO INVALIDS-If you wish to obtain quiet, refreshing sleep, free from headache, re lief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigor

with that marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff) to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered. HILORODYNE is the best remedy known for Coughs, Consumption, Bronchitis and Asthma WHLORODYNE acts like a charm in Diarrhosa, and is the only specific in Cholera and Dysentery.

THELOHODYNE is the only palliative in Neuralgia, Rheumatism, Gout Cancer, Toothache From Symes & Co., Pharmaceutical Chemists Medical Hall, Simla, January 5, 1880. To J T Davenport, Esq., 33 Great Russell Street, Bloomsbury, London. Dear Sir, - We embrace this op portunity of congratulating you upon the wide spread reputation this justly esteemed medicine. Dr. J. Collis Browne's Chlorodyne, has earned for itself, not only in Hindestan, but all over the As a remedy of general utility we must question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Angle-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy that their sojourn there will be but evanescent. We could multiply instances ad infinitum of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhor, and Dys entery, Spasms, Cramps, Neuralgia the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera Diarrices, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that is is decidedly the best, and also from a sense of duty we ewe to the profession and

ne public, as we are of the opinion that the substitution of any other than Collis Browne's is a
