Another contribution has arrived upon the grave question of Sir John Macdon ald's birthplace. The Parenological Jour. nal, of New York, is giving his history and this time Kingston, and not Scotland or Adolphustown, is credited with the honors of his first appearance. This is untimely, for Sir John has no more use for that plea in this city, whereas an Adolphustown boom just now would have suited admirably. The biographer of the Journal should have rehears. ed with Sir John.

used to admirable advantage in Reform campaigns in Kingston Yes, Messrs Carruthers, Robinson and Gunn have paid their legitimate bills, which Sir John has not done. But what do the courts say upon this point? Mr. Ro binson's seat was protested against, but the protest was dropped, the only suggestion of bribery proven being the solicitation of a Q.C's brother in Kingston, that if the proposer was given a certain Government office the eminent Q.C. would support the Grit cause. Mr. Robinson did not think the game worth the candle, evidently, for the evidence says he declined. Then Sir John was protested against, proven guilty of gross bribery through the unkind assistance of a gentleman of the News in spite of a most treacherous memory, unseated, and very nearly disqualified. The less said about bribery in Kingston elections the better for Tory credit.

Sir Leonard Tilley estimates the revenue from Customs the present year at \$10,500,000. This is a sum over \$6,500,000 greater than would have been required to meet the expenses the Government had the Liberal party remained in power, and that vast sum represents the amount of needless taxa. tion to which the people of Canada are subjected under the present Govern.
