The fact that the Tory party is fight ing like dear life to get any majority at all in 1882 shows what a failure three years of legislation has been. "What a falling off is there, my countrymen Sufficient is itself to condemn the party

A PERTINENT QUESTION.

What's sance for the goose should be sauce for the gander. Dr. Sullivan, in canvassing the vote of Mr. P. McCallum, Pittsburg, stated that as this was the first opportunity the Catholics had had in 50 years to vote for one of their own creed, his co-religionists should throw aside party prejudices, and go for him. Query ? Is this the course be pursued towards Mr. Thomas Dawson when con testing the county for the Local House against Mr. Calvin.

We have Mr. Dawson's authority for stating that Dr. Sullivan appeared and spoke against him at more than one place in that election. We have no doubt that the argument then used by Dr Sullivan-that a man should not aban don his party principles for the sake his creed - will hold good in the present campaign.

BESHENL

The Tory journals of the Province which proverbially seek cries and avoid the main issues, are roaring themselves boarse over alleged maults to electors Such things should be winspered softly in Kingston, especially in Dr. Sullivan's host. bearing. His organ makes no apology for his conduct on nomination day, but that of sudden passion. The people of Kingston are not so reckless as to send to Parliament a'man who cannot control his passions. What a spectacle for the member for Kingston to rise in the House and exclaim

"It's a falsehood, and you know it it's u 110.

The man who would offer such as insult on a public platform to a gentle man of Mr. Harty s integrity and stand ing, with whom he had already broken nature's bond, his word of honor, could not be trusted anywhere in a public discassion. He would have to be placed in the same category as the Macdonnelis and Drinkwaters, who have had to apolo gize for insults in the House.

WORTHY OF HONOLR

These who know Mr. Alexander tiuun -and there are few who do not will agree that he claims no distinction on account of his wealth, though a reck less organ has done its best to spread shat impression. He has a right to ex pect the support of the workingmen. however, as a large employer of labour. as one who has invested liberally in va rious undertakings, which had benefit ted nearly every one connected with them but himself. A man who rises in the world by the exercise of his ability is deserving of esteem, and especially so if his usefulness is increased in the same time. Better still, in the opinion o some, Mr. Gunn is approachable at all times and under all circumstances. He leads off in every movement calculated to benefit Kingston and its people. He shows partiality to no class, society or institution, and what he has been in the past he will be in the future, the result of the pending elections not withstand ing. He has certainly been attentive to the interests of Kingston in Parlia ment, his public duty has had his first consideration, of the poor as well as the rich he has been mindful, in all respects | blow in the face. - Neus. he has proven worthy of the honour conferred upon him. He goes back to the people with clean hands, with a conscience void of offence, and we hope that he may be declared to morrow not People's Choice.

THE LIBERAL PARTY

The party which goes to the poll to morrow under the leadership of Edward Blake is that which in the past Parliament has advocated commercial independence, equal justice to all parts of Empire, and Provincial rights; the party which opposed the outrageous contract jobbing of that personal cor ruptionist, Sir Charles Tupper, whereby bundreds of thousands of dollars of pub he money were given away out of personal preference; which condemned the outrageous waste of money upon a Paci ge Syndicate; and which opposed tha wholesale act of gerrymander, the worst political job ever perpetrated.

It is the same grand old Reform party which fought in days gone by against the Family Compact for responsible Government, and which has won for citizens of Ontario their highest rights Every reform which Canada to day pos sesses has been carried by Reform Gov. eruments or forced by Reform Opposi tions thro' public opinion. The Family Compact party, which tightened the yoke on the people forty and fifty years ago. would seek to-day to govern them in spite of themselves by hiving Reform majorities in a few constituencies. Reformer who deserts the old with its noble history of political schievements must be blind to justice, to manhood, and to the interests of his Province and his country. The liberality of the past to all classes must make all Reformers proud of their party. They should see that it gets its proper endorseCAMPAIGN NOTES.

What has Dr. Sullivan done for the workingmen that they have not paid

Mr. Blake proposes a really National Policy by equalizing the burden of taxes on flour, coal, the necessaries of life and manufacturers' raw material.

The man who wants cheap fuel, food, and clothing will not vote for Dr. Sulli van. The time has come when the electors can call a balt in taxation.

Mr. Gunn got eight per cent. interest on investment in vessel property, while Dr. Sullivan got 10 per cent. on mortgages on real estate. Who was most usurious ?

When Mackenzie went out of power \$22,000,000 ran the Government. Now \$80,000,000 is required. Vote for the Liberal candidates and restore economy in the public service.

The Sailors' Wages Bill, passed by the late session, does not give the sailors one particle of security for their wages The sailors asked for bread and have been given a stone.

If Mr. Blake takes steps to secure for Canada the power of making her own commercial treaties, and Sir John opposes the securing of this power, Dr Sullivan will be found voting with Sir He always goes blindly for the party. None so subservient as he.

How nicely the Tory birds can agree when their party is at stake. How nice ly Mr. Metcaife and Dr. Sullivan pull together. And yet we remember when the former spoke harshly of the latter for the part be took in the appointment of Col. Hance as Chief of Police.

At a meeting of the Porfes on Satur day evening men were appointed to watch Mr. Gunn's supporters on the day of the election. In order to do this Dr Sullivan must be shamefully neglected Some genius is counting without his

The tariff that shuts out our grain injures our shipping, and what is an in jury to our shipping means an injury t our city. Are those whose existence depends upon our marine to perpetuate this iniquity? Vote against it by voting for Mr. Gunn.

The supporters of Dr. Sullivan have had transparencies painted and torches prepared because they say the election must go with them? Will these enthustasts sell out cheaply in the event of Mr. Gunn's re-election? There is no use in the material going to waste.

Mr. Gunn is a manfof the people one who knows them and is friendly either in or out of Parliament. Dr. Sul livan has not known them very well in the past when meeting them on the streets. It would not make him and humbler to send him to Parliament.

Will the workingmen of Kingston vote for a man who can take his part in the deliberations of the country, who can express his opinions, and has opinions to express; or will they vote for \$108.

Vote for both, gentlemen and electors of Kingston-vote for Gunn.

The National Policy does not benefit the journeyman baker, barber, butcher, bricklayer, carpenter, cutter, dyer, engineer, engraver, fireman, fisherman, gardener, grainer, joiner, mariner, mason, painter, printer, plasterer, seaman, slater, shingler, tailor, nor the brakes man, constable, cabman, carter, coach man, doctor, druggist, dry goods clerk, grocer, laborer, lawyer, merchant salesman, teacher, whitewasher. It does nore harm than good to any kind of workmen. Then, why support jug handled protection, when it only raises the cost of living to the great majority ?

THE RELIGIOUS CHY.

Dr. Sullivan, on the hustings, on nomination day, represensed himself as the candidate of the Conservative party and desired it to be clearly understood that he was not the selection of any particular body, for the purpose of catching the votes of any particular class. He gave the electors to under stand that in his canvass he would evade soliciting votes upon sectional or sectarian grounds. From authentic in formation, received within the past 48 hours and which we were at first loathe to believe), we have reason to know that in many instances, when all other cries failed, the religious one has been im ported to do service, both by the caudi date himself as well as by his chief sup porters. What they can expect to gain by spreading a cry of this kind is some thing beyond our comprehension. Form ing, as the Catholics do, a minority in this community they should be the last to raise such an issue. Dr. Sullivan and triends should not forget that this is two edged sword which could be made to work both ways, and if their argu ment-that a Catholic should vote for Catholic -holds good, it could be applied to the majority and Protestant asked to vote for Protestant. We deprecate the use of such weapons, and prefer to take a higher platform in asking the suffrages of the electors for Mr. Gunn; but must be remembered that should religious appeals be made use of the minority must be charged with having

Robbing of Outarie.

The timber in the disputed territory which the frommiss traverument seeks to rob Ontario of, is so valuable that if licenses to cut it were offered by and tion they would really fetch \$200 per square inile for bonuses. This is equal to not less than \$7,(Na),(NN), there Long about \$35,000 square miles of timbered territory. The quantity of timber has been estimated by Col. Deanis, late Surveyor General of the Dominion, to be 26,000,000,000 feet board measure. At the stumpage dues of 75 cents per 1,000 feet this makes \$19,500,000 more. Then there is the ground rent of \$2 per square mile per annum. \$70,000, or say ten years' holding \$70,000. How much does this make Bonus for license, \$7,000,000; stump age dues, \$10,006,000; ground rent (say ten years), \$700,000, total, \$27,000,000. Then there are the minerals, rich mines of silver, copper, irou and gold, and the land itself (22,400,000 acres); this is worth, at a very moderate calculation, \$13,000,000. Add another \$10,000,000 for the 65,000 square miles north of the height of land, which is also rich in mineral wealth, and we have a total of \$50,000,000 as the cash value to Ontario of the territory declared to be hers by the unanimous award of the arbitrators and which Sir John Macdonald and his Tory allies of Quebec are seeking to
