Hancock's Inspirator

Is the most economical appliance in use for feeding boilers or pumping purposes on account of the great range of adjustment, and the small expenditure of steam required for working it. It is intended to take the place of Pumps and Injectors and may be fitted instead to great advantage. It differs material both in its

Construction & Working Qualities

from the class of boiler feeders known as injectors—inasmuch as it has one set of tubes for lifting and another set of tubes for forcing water—a combination entirely new, reliable and efficient. They are simple to operate, always ready for use and almost free from liability to get out of order. They are highly recommended for boilers

PAMPHLETS OF INSTRUCTION furnished on application, also testimonials if required. We guarantee every inspirator according to recommendation or no charge.

Ayer's Cathartic Pills

For all the purposes of a Family Physic.

Curing Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Headache, Erysipelas, Piles, Rheumatism, Eruptions and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood are the most congenial purgative yet perfected. Their effect abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organs into action; and by their influence they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. The most skilful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed, and of great benefits derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take, and being purely vegetable, they are entirely harmless.

WILL YOU EXCHANGE a case of Dyspepsia or Biliousness for 75 cents? It is awfully unwise to agonize under the many ailments arising from Dyspepsia, Indigestion, Disordered Stomach and Liver, when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

NEARLY LOST.

But when he saw the winds boisterous, he was afraid, and beginning to sink, he cried saying, Lord, save me.—Matthew, 14th.

The waves and the billows have gone over me,
And all is deep darkness, no light can I see,
Down, down, to the valley and shadow of death,
Ah! what is my life now? Only a breath.

But hark! I hear a voice on the wave,
Saying, "Look unto Me, be thou not afraid,
Stretch forth now thine hand, thy Saviour is near,
I will uphold thee, cast off all thy fear."

I stretch forth my hand, I am His to save,
And now I can walk with my Lord on the wave,
No more can I sink, with Him by my side,
For Christ is my Saviour, my Helper, my Guide.

LAND BOOM.

Less Talk About it in Manitoba, But Speculations Progressing all the the Same—Lots Unlet.

(Correspondence of the Globe.)

It seems something of a farce to talk of the land boom in Manitoba which has lost all of its glare and glitter. But real estate is really moving in other ways than on the wheels of waggons. They are no longer boys and smart mechanics who are figuring in the transactions, but solid men of capital who have come to Winnipeg to make permanent investments. They have been buying freely but quietly, the sales being no longer reported in the daily press. A 100 feet lot on Main street, near Portage Avenue, which was offered last February, when the boom was its height, for $700, without securing a purchaser, was sold last week for $1,000 a foot, the intention of the purchaser being to build stores of brick. In March last, writing upon the boom, your correspondent pointed out Point Douglas as likely to be the industrial quarter of the city and subsequent events have verified my prediction, for the last remaining lot, next to the mill, was sold this morning for $10,000. Now all along the line of the avenue, on both sides of the railway track, has been taken up for wholesale warehouses, they being able to have railway switch right up to their doors. In the expropriation of lots for the extension of Higgins street, $700 was the arbitrators' figures for lots which could be bought in March last for $500. I understand that a large saw and planing mill is to be built adjacent to the Ogilvie flouring mills by a Mr. Craig, a speculator who has made a deal of money here. He has ordered the finest machinery that money can buy, and the square timber for the building has been already brought from Minnesapolis. The logs will be floated down the river and hauled up into the mill, which is to be situated right on the bank. From this it will be seen that values have risen on Point Douglas, and that the prospects of a progressive rise are good. Property has "stuck in the dirt" on Portage Avenue, some alleging that it was boomed far above its intrinsic worth, and others holding that the colony of soiled doves located at what might be esteemed the business portion of the street effectually blocks the erection of residences, which would attract business places further up the street. The Spence estate, lying between Manitoba College and the Assiniboine River, containing about 500 good building lots, will shortly be put on the market. Old Mr. Spence, who hails from the Orkney Islands, is an old resident who took no stock in the boom, and would not sell his home. He is now raising potatoes and cabbage on ground valued at a low estimate at $15,000 an acre. When a friend of mine visited the old gentleman the other day he was living in his log cabin. The daughter of the house was down on her knees scrubbing the floor, and to use my friend's own words, "the only sign of civilization was a Bell organ." Such is the picture of a home belonging to a man who, without any exaggeration, may be said to be worth half a million.

Murder Will Out.

A few days since Mr. Geo. Herndon, who lives on lot 8 in the 9th concession of the township of Brighton, was digging for the foundation of a new barn, and came across the decayed bones of a man. Old residents remember when a man named Utter very suddenly disappeared from the neighborhood, no one knowing what became of him. A short time previous to this it appears that a barn belonging to a man named Dingman had been burned and rumor had it that Utter did the deed, and paid the penalty with his life. Be this as it may a tolerably well preserved human skeleton was ploughed up by the aforesaid farmer from a depth of not over one foot from the surface, in a piece of timbered land which had just been cleared, and had never before been disturbed with a plough. It is probably too long since to investigate the case and bring the guilty party or parties to justice, although the "old men" remember the occasion well, and profess to have a good idea of who was the supposed culprit of half a century ago. Whether those who were thought to be implicated in the affair are now alive or not we have not learned. The bones of the supposed murdered man are, we believe, still in the possession of the finder, Mr. George Herndon.—*Brighton Ensign.*
