DYNAMITE IN ENGLAND. Plot Laid by the Brish Americans to Carry off the Princess Louise-Can. ada Explorted by Them.

Correspondence of Philadelphia Leager. The English papers lately contained some curious disclosures concerning the operations and plans of what in palled dynamite section of the Fenian party in this city, which there is good semi police reason for saying are, in the main, cor rect. Though the headquarters of the crganization are in this cityu yetemen are engaged in forwarding itomorery large city in the United States, though outside of New York cheir chief abiding place is Chicago. While O'Donovan Rossa was at one time the projector and conductor of the party, he is not now uor has he been for some time in any position to control it, or even to learn ts secret doings. In fact, though sound in his views, Rossa talked too much for the conspirators to trust him, and while his United Irishmun's Society directory were the general managers of the basi. ness they used him only us the hadre head. They directed operations cans rally without his knowledge, and on this account Rossa is now in a somewhat dissatisfied condition of mind. The chief managers now are a triumvirate com posed of Dr. Shine, Spearman and Byrne, . ith some lesser lights, but the leader is Dr. Shine, a bold, reckless, and in some respects influential New York Irish Democratic politician, who has held some offices and was a physician of re-

person, and these have at times amount. ed to \$20,000 to \$30,000.

HATRED OF ENGLAND is the mainspring of the movement, and Has much pleasure in announcing to the genits chief object is to harass the Govern ment at every vulnerable point, to des troy the lives of officials that were most instrumental in oppressing Ireland, and to show the English generally by the destruction of property and public build ings, that it is for their interest to make peace with Ireland on the best terms and to let her go as an independent "The dynamite party we are informed, has "permeated the Land League, and has been aided by many on both sides of the nocan who were might in that body. They have a regular system of cipher cable correspondence with friends in Ireland, England and France, so conducted that it is impossible to find them out. The discovery by the British detectives of the internal ms. chine that were sent over last summer. packed in barrels of cement, led to a radical change in their plans.

> A PLOT AGAINST THE PRINCESS LOUISE. A scheme was laid in the West to cap. ture the Princess Louise, who was expected to accompany the Marquis of Lorne on his recent tour to Manitoba? The conspirators formed the projects of swooping down upon her and keeping ner as a hostage until the Irish suspects should be released, but as the Princess' plot failed, "Because the detectives bad wormed it out, sent over a warning, and she prudently remained in England. Last autumn they planned an expedition to Bermuda, and selected men to red. with a view of blowing up the Government floating dock there. The men arrived safely out, and were proceeding by cautions steps to execute their mission, when the Bermuda authorities act ing as if somebody had informed them what was in the wind, they were obliged to return to New York.

> > CANADA VISITED.

Agents next went to Canada, visited Montreal, Quebec and Halifax, and finally went to St. John, N.B. At Hali fax there were war vessels, but none of them were in a position to be vulnerable, and no one could be got to undertake the task. At St. John they found an old bloop-of-war in charge of a watch it was determined to blow this up. They went back to New York to get the materials, discovered in a few days from some developments at St. John that the plot had leaked out, and this too, was abandoned. Accord. ing to the Loudon Times' correspondent. lowever, the society is persevering in its schemes. Last winter they opened

"DYNAMITE SCHOOL

nstruction upon the manufacture of explosives. This school was opened in Chambers street, but the pupils were mostly brought over from Ireland. The lectures went on until it became a subect of remark from the regularity of its attendance, when another place was got on the outskirts of Brooklyn, and instructions given at irregular intervals so as to disarm suspicion. The pupils are all bound by oath to carry out the Ei hty five orders of the masters, whom they do ders are communicated in a certain way indicating their authority.
