VOL. LI. KINGSTON, CANADA, TUESDAY, AUGUST 29, 1882. NO. 201

It has been in use for 20 years and has proved to be the best preparation in the market for SICK HEADACHE, PAIN IN THE SIDE, OR BACK, LIVER COMPLAINT, PIMPLES ON THE FACE, DYSPEPSIA, PILES, and all Diseases that arise from a Disordered Liver or an Impure Blood. Thousands of our best citizens testify and give it to their children. Physicians prescribe it daily. Those who use it once, recommend it to others. It is made from Yellow Dock, Hondu-ras Sarsaparilla, Wild Cherry, Stillingia, Mandrake, Sassafras, Wintergreen, and other well known valuable Roots and Herbs. It is strictly vegetable, and can suit the most delicate constitution. It is one of the best medicines in use for Regulating the Bowels.

It is sold by all responsible druggists at one dollar for a quart bottle, or six bottles for five dollars.

Those who cannot obtain a bottle of this medicine from their druggist may send us one dollar, and we will send it to them.

HALL'S VEGETABLE SICILIAN HAIR RENEWER

This standard article is compounded with the greatest care.

Its effects are as wonderful and satisfactory as ever.

It restores gray or faded hair to its youthful color.

It removes all eruptions, itching and dandruff, and the scalp by its use becomes white and clean.

By its tonic properties it restores the capillary glands to their normal vigor, preventing baldness, and making the hair grow thick and strong.

As a dressing nothing has been found so effectual or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts, says of it: "I consider it the best preparation for its intended purposes."

BUCKINGHAM'S DYE,

For the Whiskers.

This elegant preparation may be relied on to change the color of the hair [illegible] gray or any other undesirable shade to brown or black at discretion. It is easily applied, being in one preparation, and quickly and effectually produces a permanent color which will neither run nor wash off.

BE WISE

And SECURE YOUR BUILDINGS and contents from the effects of lightning, so prevalent in this country, by erecting thereon the LONDON GLOBE PATENT COPPER LIGHTNING ROD, the safest and best known to scientific men, as shown by the late practical test in London, made by W. M. CAIRNS, ELECTRICIAN, LONDON, MANAGER DOMINION TELEGRAPH COMPANY, and also during the month of August last, when in or about $75,000 worth of property was destroyed by lightning in the County of Middlesex alone, as well as in many other places through the Dominion, yet not one case occurred where these rods were set up, although thousands were in use all over this country. The COMPANY HAS OFFERED $800 to any person who can prove otherwise, and the DOMINION INSURANCE CO., OF HAMILTON, will now insure property where these rods are erected for ONE-TENTH LESS, when application is made by this Company or their authorized agents. One or two good reliable agents wanted. Apply to J. BROKENSHIRE, *Head Agent for Kingston District.*

N.B.—A good variety of WELL PUMPS of the most improved kinds kept on hand. FELT ROOFING also done on the shortest notice.

Four Medals and Diplomas

HAVE BEEN AWARDED THE CELEBRATED JACOBY'S **STOVE POLISH** IN ONE YEAR. CAUTION!

ON account of its merit and extensive sale, like all other good things, it is imitated by worthless stuff of no value to the consumer.

We respectfully request our patrons, when they ask for JACOBY'S SELF-SHINING STOVE POLISH, to see the above Trade Mark is upon each box they buy, and the following signature:

J. C. JACOBY & CO.

This only is the genuine article. Most all responsible dealers keep it.

Oct. 21

WILL YOU EXCHANGE

a case of **Dyspepsia or Biliousness for 75 cents?** It is awfully unwise to agonize under the many ailments arising from **Dyspepsia, Indigestion, Disordered Stomach and Liver,** when this offer is made to you in your own home in all sincerity, with an absolute certainty of curing you.

ZOPESA (from Brazil) cures Dyspepsia and Biliousness. A single dose relieves; a sample bottle convinces; a 75 cent bottle cures.

It acts directly upon the Stomach, Liver, and Kidneys.

Cleansing, Correcting, Regulating, Zopesa gives energy and vim to the Brain, Nerve, and Muscle, simply by working wonders upon the Digestion, and giving activity to the Liver.

Cut this out, take it to any dealer in medicines, and get at least one 75 cent bottle of Zopesa, and tell your neighbor how it acts. It is warranted to cure Dyspepsia and Biliousness.

FALL'S WELL."—A SEA SONG

I lie within this narrow hall.
And hear the billows' heavy tread;
They storm my window and my hall—
They sweep in fury o'er my head.
Deep dives our ship into the sea,
Then climbs again the high hill waves;
Perhaps our safe home yet to be—
Perchance our coffins and graves,
But hark! the watchman's tones loud swell—
"All's well! All's well!"

I through my narrow window gaze
The storm throws back a scowl at me;
Afar the phosphor's embers blaze—
The watch-fires of the warring sea.
Ah, many a night like this has smiled
A moment from within its frown,
To hear loud cries of anguish wild,
And see some gallant ship go down.
Not always creeps that magic spell
"All's well! All's well!"

Among the green hills far away,
My homesick heart's best treasure lies.
A careworn brow, with locks of gray,
Bright faces fair with laughing eyes,
Would I might know that 'mid the storms
That sweep across life's changeful sky,
Those ever loved and cherished forms
Were, even now, as safe as I!
Would some sweet bird the the news could tell—
"All's well! All's well!"

When lying in the narrow berth
That Death's black bar contains for all,
When waves of sea and storms of earth
Awake me not at their loud call;
May friends not weep about my bed,
May tears not rain upon my brow,
But let the words be truly said,
He rests so happy was as now!"
These words of comfort be my knell
"All's well! All's well!"

NEW CANAL PROJECT.

A Scheme of Great Magnitude and Alleged Feasibility—A Glowing Outlook for the Future.

Duluth, "the zenith city of the unsalted seas," hopes to bring about a revival of its fortunes by means of a canal connecting Lake Superior with the Red River, Lake Winnipeg, Assiniboine and Saskatchewan navigation system. Some days ago a convention met in Duluth, under the auspices of the Board of Trade of that city, to discuss the feasibility of the project, and, of course, all the gentlemen present were unanimously of opinion that steps should be taken to have the canal constructed with the least possible delay. Duluth is again filled with visions of future magnificence. It will yet, in the opinion of many of its citizens, outrival Chicago, as the great produce emporium of the North West. The Duluthers appear to be fearful lest they should be forestalled by enterprising Canadians, and that, instead of entering Lake Superior at or near their city the route of the canal may be wholly through Canadian Territory *via.* the Dawson road. All the speakers of the Duluth convention appeared to fully appreciate the great fertility of the Red River Valley, and the importance of securing

A SHARE OF ITS TRADE.

A water route, from the Saskatchewan to the Atlantic, by way of Duluth, is what they expect yet to obtain. The minimum cost of the proposed canal is placed at four millions and the maximum cost at ten millions of dollars, exclusive of the preliminary surveys. After hearing the statements of engineers who have traversed and are familiar with the country between Lake Superior and the Red River of the North, and of the country tributary to that river, the convention adopted resolutions declaring it practicable, by means of about 40 miles of canal with suitable locks and dams, to utilize 340 miles of deep water lakes and rivers now navigable for steam vessels, lying between Lake Superior and the Red River, and so to make a useful water-way for crafts propelled by steam from the Great Lakes to the vast system of water routes in the valleys of the Red, the Assiniboine, the Saskatchewan and their tributaries which reach so large a part of Minnesota, Dakota, Manitoba and the North Western territory and are the natural highways to the richest and most extensive body of contiguous agricultural lands on this continent. The construction of this canal, it is claimed, will afford an outlet by

A THROUGH WATER ROUTE

to the Atlantic seaboard for a stretch of arable country equal in dimensions to the entire Eastern and Middle States of the Union. A country already containing a large population and producing twenty millions bushels of grain, into which an immense population is pouring, and capable of producing bread stuffs for the world, and will give to the vast population which will inhabit this territory all the advantages of cheap transport of their produce and their return supplies. The promoters of the canal project also assert that its completion will bring through the United States the principal traffic of the Canadian North West, and be a powerful commercial link between the two peoples; and also that it will practically extend the existing northern water routes from the Atlantic to and through the Great Lakes to the valleys of the Red River, the Assiniboine, the Saskatchewan and their tributaries, and cheapen the transportation to the seaboard of their vast products sufficiently to make those lands valuable and the inhabitants of them prosperous. Congress will be urged to order surveys and examinations, and to vote a sum sufficient to complete the work. With regard to the productiveness of the soil in the Red River and Assiniboine valleys, Judge Ives, of Cookston, Minnesota, in the course of his address before the Convention stated that after

A CAREFUL SCIENTIFIC ANALYSIS

of the soil in various places, he had found potash, soda, lime and magnesia, sufficient to suffice for the production of one hundred successive crops of wheat without any return in kind. He was also convinced that the same soil contained in sufficient quantities and in proper combination, all the plant food necessary and requisite to the production of enormous crops of wheat; and that the condition, upon which production of great crops depended, was only a complete mechanical preparation of the ground before the crop is sown. Of course it is not difficult to understand that when a variety of wheat contains nearly twice as much albumen as another, it becomes better and more valuable, as the quality of that constituent is increased, and hence it may be assumed that a man's life can be sustained thirty-three days on a
