A LITERATY CURIOSIA ..

John Knox was a wight of wondrous might And his words rang high and shrill, For bold and stout was his spirit bright, And strong was stalwart will. Kings sought in vain his mind to chain. And that giant brain to control. ut naught on plain or stormy plain, Could daunt that mighty soul. John would sit and sigh till morning cold Its shining lamps put out, And brought but pain and doubt. But light at last on his soul was cast, Away sank pain and sorrow; His soul is gay in a fair to day, And looks for a bright to morrow.

DOMINION EXHIBITION.

SPACE AT THE GROUND FAST TAKEN UP

Stock-Delay by the Way- General Observation.

This morning, at 9 o'clock, Manitoba abode of Indians and half-breeds, rederful affinity to the Digestive thed from the hall convinced of one hing, that every kind of grain, vegetaon cornmeal and wild roots. The build-It acts gently and speudily in ing in which the exhibit is shown is really handsome. It stands forth fresh from the builder's hand - Mr. R. Mowatand he certainly has evinced much taste its erection. The ends and sides are The display of vegetables is very good. inblazoned with the words "Manitoba | The season is later in Manitoba than in are shown. THE DISPLAY OF CEREALS.

and other grains in sheaves. THE NATIVE GRASSES are an interesting feature of the exhibi-

tion and will be especially examined by our rural population. These grasses are Bhain abundance. Among the varieties are the beautiful feather grats, purple top, alkali, Scotch beaver, wild rye, champion, wire large rye, highland swamp grass, red roots, bog, fine blue, swamp seed, brush MENT, agua anteed specific for Hysteria, Dizzi- | seely grass, bone grass, &c. These t. Excellent specimens of cultivat. paid on receipt of price. We guarantee six not be raised on prairie land, but such ceived by us for six boxes, accompanied with an impression is evidently erroneous, written guarantee to refund the money if the as the sample shown is really good, some of it four feet long. It was grown in the Boyne settlement and is consider-Kingston, Ont. ed a profitable crop. THE GRAIN PRODUCTS.

The gentlemen who have charge of the palm, and certainly the display con firms this opinion. White Russian height of 5 feet 6 inches. The straw is excellent and hardy, and the heavy been in the west for three years, having been specially secured in Russia by a tame, are grown in profusion. prominent Winnipeg firm. It has now become one of the most popular grains "Converted Scotch wheat"—that is a resemble real Irish bog. wheat cultivated from a spring to a fall as cent stamp Sold at W. J. WILSON'S Drug exhibited are the Lost Nation, Cham-

pion Norway, and White Fife. In oats a sheaf of New Zealand wares. Wildeism has penetrated, and the glorious sunflowers, 9 ft. high, are massive tries;

and imposing in appearance. The yel low fringe has wilted and nothing b the dark seeds remain. Peas, both in pod and vine, and beans are exhibit-Native hemp, in its green state, is another novelty, and alongside it is a quantity of tobacco m seed. This not inviting to the visitor. Fine sheafe of Alsike and red clover, S ft. high, are of millet is also shown in the straw. SPECIMENS OF THE WOODS.

A large collection of the various kinds wood is among the exhibits. The prevalent opinion abroad was that there was nothing but small clumps of willow and white poplar. Although wood is scarce in some sections, still as a gene ral rule there is a well regulated supply throughout the country. The plains abound with wood in clumps, and in other parts there are tracts of forest so evenly interspersed that farmers can generally attain a good wood lot in close proximity to their prairie farms, besides which the lots along the river are covered with good wood. The samples shown are oak, from the Assimiboing, 3 Jost in diameter, and spruce from Lake Winni-For thoughts untold on his mind laid hold, peg, as well as cotton wood, white willew, soft maple, elm, black poptar, oak, birch, balm of Gilead, red cherry, high bush blueberry, black cherry, white ash,

plum and white poplar. The minerals and stones from our prairie province are very interesting to study. An excellent building article from Selkirk is white limestone. It is largely used. The gray grante from Rat Portage is not inferior to Scotch granite. A petrified fish from the guar-The Manueba Exhibit Arrival of Live ries of Bryden & Robinson, Little Stoney Mountain is certainly a curiosity. The country around the Lake of the Woods furnishes fine exhibits of gold, iron Hall was thrown open to the public, and silver and copper ore, and gravel, sand all day it has been a popular resort for and lime for building purposes. The hundreds. "We have come the longest sand from Lake Winnipeg is very white distance, said one of the gentlemen in and expellent for plaster. Rov. Mr. charge, "and we are first to show our Silcox and David Smith, of Winnipag. exhibit. There was general admiration are large exhibitors of minerals. The expressed at the display, and many a lattergentleman has a magnificent disperson who previously looked upon play. Rev. Mr. Silcox shows agates, Manitoba and the North West as the amethysts, copper, gold, silver, galena, graphites, iron, coal, jaspar, Zineblend, Jossil wood, asbestes, galena in pocket of Linchlend. These ores coms from Thunder Bay, St. Joseph's Island, Sassuccessfully grown there, in fact, that | katchewan Vallevand other parts of the the people of the North West do not live Province. The lime tock was beautifully slacked when it reached here. the result of contact with the air. The bricks show that clay is available in Manitoba with which to make them.

VARIETIES IN VEGETABLES.
