patent skates are beautiful. Their world wide popularity and demand in England, Europe, Canada and the United States, proves their utility. The Nova Scotia Forge Company, of New Glasgow, exhibits the plans of a lecomo. been prolonged other manufactures would have exhibited.

The other mineral displays are extremely fine, consisting as they do of dressed in black. the chief ores of the Dominion. Mr. J. Whitehead, of Kingston, has a collection picked up principally in the rear of this and the adjoining counties-iron ore, phosphate, mica, plumbago, lime-

Mr. W. G. Kidd, Inspector of Public M. T. Company's wharf. Schools, shows a very interesting exhibition. The Canadian gems form a col-Also the iron and heavier ores. They are displayed to the best possible advantage, and attract hundreds of those and curiosities in stones and gems o the Exhibition.

THIS MORNING'S NOTES. To-day the Dominion Exhibition admitted of fair inspection. The exhibits have been put in shape and the success . of the Exhibition depends entirely upon the attendance. The weather early light overcoats were much enjoyed. The roads leading to the city were crowded with travellers. The mud at the prince ; buildings became quite slippery. As the forenoon advanced the clouds show will be brightened. The gatekeepers were kept busy rushing the visitors through the turnstiles. The fakirs, humbugs and frauds generally were found in all quarters of the ground, but the public by this time ought, at least, be well enough acquainted with them to avoid dropping supplus cash upon them. Everything moved smoothly along, the grand rush at the Superintendent's and Secretary's office being over. Most of the judges have judges of stock will begin their duties this afternoon, when the animals will

be exhibited in the rings. From afternoon and for several hours the grounds. The street cars were crowded to their utmost capacity, and the less than 10,000 persons were at the fair ground. To-morrow promises to be were on the fair ground to-day. Half-adozen are expected to-morrow.
