LINE OF DEFENCE. What a Frontless Sea Has to Say About the Atlantic Coast.

Frontless, writing to the Globe, says: "The question between Caldwell and McLaren is this: Is the Mississippi, in the sense attributed to the words in this country, a navigable river? There are natural obstructions to navigation along its course; that is, at certain points it is not navigable. There are rapids, and these are nothing more or less than waterfalls stretching across the river."
