CIVIL SERVICE.

Grading of Salaries, Systematizing of the Public Business.

(Globe.)

The report next deals with the outside service, pointing out various defects and making recommendations. In the Customs service that the salaries paid to inspectors being less than those of collectors at principal ports as pointed out as objectionable. The report therefore recommends that the maximum salary of a Collector of Customs shall be $4,000 and a Chief Inspector $4,000. Other Inspectors range from $2,500 to $3,000. Collectors from $1,000 to $4,000. Surveyors from $1,200 to $2,500.

The necessity of a uniform system of receiving money at the several ports and transmitting it to the Receiver-General is urged. The report refers also to a most objectionable practice said to be in existance at most of the ports visited, namely, the practice of split entries in such a way as to leave in the hands of an unscrupulous Collector the means of retaining in his hands large sums of money for many months together. The report also points out that the oath prescribed 40 Vic., cap. 10, is in many places administered by officers not legally authorized, a point which might result fatally to the interest of the revenue in a contested case. This, coupled with the loose, irreverent, and hurried manner in which oaths are administered, has convinced the Commissioners that unless some more impressive and regular mode of procedure is adopted it would be better to abolish the oath altogether.

INLAND REVENUE.

The Department of Inland Revenue in its outside service is next dealt with, the present classification of excise officers being found satisfactory, and the Commissioners express themselves favourably impressed with the manner in which the whole business of this department has been organized and the duties of its officers discharged.

POST OFFICE DEPARTMENT.

In regard to the outside service in the Post Office Department it is pointed out that far too large a remuneration has been given to the postmasters of large cities, the maximum now paid being $4,000 a year. The Commissioners recommend that the salaries of postmasters shall be as follows:

Class 1, where postage collections exceed $80,000	$2,600
Class 2, where postage collections are from $60,000 to $80,000	2,400
Class 3, where postage collections are from $40,000 to $60,000	2,200
Class 4, where postage collections are from $20,000 to $40,000	2,000
Class 5, where postage collections are less than $20,000, $1,000 to $1,800 as the Postmaster-General may determine.	

For Assistant Postmasters:

1st class	$2,000
2nd "	1,800
3rd "	1,700
4th "	1,400
5th "	$1,000 to 1,400

The salaries of Post Office Inspectors are recommended to be as follows:

Chief Inspector	$2,800
1st class, on appointment	2,200
do after ten years' service	2,400
do 20 years' service	2,600
2nd class, on appointment	2,000
do after ten years' service	2,200
do 20 years' service	2,400

Assistant Inspectors to increase from $1,000 on appointment to $1,500 after 20 years' service.

MARINE AND FISHERIES.

After dealing with the outside service of the Department of Marine and Fisheries, the report proposes generally that it would be beneficial to the service if certain officers employed in the Inland Revenue, Customs, and Post Offices service should be exchanged at irregular intervals, and that promotions of Collectors of Inland Revenue and Excise from lower to higher grades of ports or divisions from time to time as vacancies occur would be exceedingly beneficial to the service.

TRIAL OF THE SCHEME.

In conclusion, the Commissioners state that it has been made abundantly manifest that there are in the service many who are not and never will become efficient public servants, and that the number employed is largely in excess of the requirements of the service. The Commissioners are of opinion that the only practical way to ensure thorough and practical reform in the service is to give the system recommended by them the force and authority of an Act of Parliament.

Lord's Prayer.

The changes in the Lord's prayer in the revised testament are considerable. In the 6th chapter of Matthew it will read: "Our Father which art in heaven. Hallowed be Thy name. Thy Kingdom come. Thy will be done, as in heaven, so on earth. Give us this day our daily bread, and forgive us our debts as we also have forgiven our debtors. And lead us not into temptation, but deliver us from the evil one." In Luke xi. it will stand: "Father, hallowed be Thy name. Thy kingdom come. Give us day by day our daily bread, and forgive us our sins, for we ourselves also forgive every one that is indebted to us. And lead us not into temptation."

TURNING TO BONE

A Case of Ossification which Baffles Medical Skill.

Mrs. Mollie Utz, says a New Albany, Ind., letter, is a highly respected widow of this city, whose husband, a well-to-do farmer of Georgetown township, died about one year ago. She is the oldest daughter of Mr. Joseph Carnes, formerly a carpenter of this city, who carried on building here extensively, but now resides on a farm in Harrison county, about fourteen miles from New Albany. About eight years ago Mrs. Utz felt her health failing, her symptoms being those indicated by a disturbed condition of the circulation of the blood. These symptoms grew upon her, often producing sinking or fainting attacks. A little over a year ago she noticed a numbness at the ends of her fingers, and this slowly spread itself upward until all the fingers on both hands became involved. But it was more than numbness—it was ossification. The hardening process still continued, and has now reached nearly to the elbows on both arms. Flesh, muscles, arteries and nerves have undergone the hardening process, and are now apparently solid bone, the skin covering the ossified parts being hard and alabaster-like in appearance.

Eminent physicians have been called to see the case, but they only examined it to tell the lady that she was beyond the reach of aid from medical skill, and that the process of ossification would continue until a vital part was reached, when death would ensue. Mrs. Utz fully realized her condition, and bears up under it with fortitude and resignation. Her heart is seriously complicated in the disease, and the slightest excitement provokes an attack of fainting, in which suspended circulation continues until a reaction is produced by severe friction. Ossification of the principal arteries of the heart has, no doubt, set in. Nevertheless Mrs. Utz is very cheerful, and a few days ago left the city to pay a farewell visit to relatives and friends in the country. She says this will be her last trip to the scenes of her happy married life, and she will return to her home in this city to go out no more until she receives the summons to go away and be at rest.

Suicide of a Member.

The Legislature of New York sustains a severe loss in the death of Hon. William D. Brennan, member of Assembly from Franklin county and chairman of the Ways and Means Committee. Overwork during the late campaign unsettled his mind and accounts for the manner of death—by suicide. Major Brennan was born in Gloucester, Ontario, December 29, 1839. He prepared for college at Malone, graduating in July, 1858, entering Middlebury College, Vermont. In 1862, he left college for the army, and enlisted in 142nd Regiment New York Volunteers. He was chosen first Lieutenant, and in 1864, was promoted to a Captaincy. At the battle of Chapin's Farm, Virginia, he lost his left leg. In 1866 he received, "for brave and gallant services," a brevet commission as Major. Engaging thereafter in the study of law, he has since followed the legal profession. Mr. Brennan espoused the Republican cause and was a member of the Assembly during 1879 and 1880. He was chosen last fall for the present Assembly by a vote of 4,127 against 2,770 for Charles E. Martin.

THE ATTENTION of owners of Farm Property and Residences is invited to the above Pyramid, showing the uniform and sure growth, during the last seventeen of its 27 years of existence, of a fire insurance company whose charter limits its business to their class of property—the **Agricultural Insurance Company**, of Watertown, N. Y. The figures represent the amount set apart at the dates given for the PROTECTION OF POLICY HOLDERS.

Twenty seven years of patient toil has made this the strongest and largest Company doing an exclusive Dwelling Business in the United States, if not in the world. It now issues 45,000 polices a year. No other like Company can show such growth and increase.

The history of this Company proves that a LARGE business, well scattered, managed with prudence, *can be done with a very small profit from each risk*, and afford perfect security, which will grow stronger every year.

While nine-tenths of the "Mutual" fire insurance companies, and many of the Stock companies, have failed on account of reckless or extravagant management, or doing too small a business, the OLD AGRICULTURAL, by economy, energy and prudence, has every year added a substantial amount to its Assets, for the indemnity of its patrons, and it now occupies a position in the confidence of the public second to no other Company.

From year to year it spreads the base of its Pyramid and gains strength.

EXTRACT FROM CHARTER.—"*Article 2.* The Company is formed for the purpose of insuring Farmers' Dwellings, Private Residences, Barns and Outbuildings, with their contents, and other property not more hazardous," and is strictly confined to this class of property.
