CITY AND VICINITY.

PROBS.—Moderate winds, fine weather, not much change in temperature.

RICHMOND & BOYDEN are showing a larger stock than ever this season and are disposing of it rapidly.

K. & P. RR. EXTENSION.—Three of the sub contractors on the K. & P. RR. extension are in the city. Messrs Moak, Hendricks and Grady. All report that the work upon their section is progressing satisfactorily.

CHANGE OF LOCATION.—As indicated by advertisement, Mr. T. Conley, merchant tailor, has removed his place of business from Montreal street to Brock street, Dumble's Block. Mr. Conley's friends should bear this fact in mind.

DEMAND FOR MEN.—The opening up of the rich iron mine at the Mississippi has given employment to a large number of men. The staff of employees is to be increased by fifty. An advertisement, asking for the men, appears in another column.

FALL WHEAT.—Reports from various parts of the county warrant us in saying that fall wheat promises well. Since the snow left the grain has grown wonderfully. On Wolfe Island a farmer reports a growth of three inches. The fields look remarkably green.

LAW FACULTY.—The examinations in law, in connection with Queen's University, begin on Friday. At present there are only five students, but next session there will be a larger attendance. The wisdom of establishing the Law Faculty is fully demonstrated.

THE ROWING SEASON.—All who can, especially employers, should put in an appearance at the meeting of oarsmen this evening. The young men should be encouraged in their efforts to form a rowing club. A large boat house below Cataraqui bridge will probably be erected.

FALLING METEOR.—A citizen stepped into this office this morning to say that he saw a meteor descend last night. He says it struck the earth on Barrie St. and went to pieces. As no other person witnessed the event we presume our informant's seriousness or sanity is open to question.

CITY COUNCIL.—A meeting was called for last evening, but was not held, a quorum of members not being present when the roll was called at 8:10 o'clock. Those in attendance were: Mayor Pense, Alds. J. Carson, Clements, J. P. Gildersleeve, Gordon, Irving, McMahon, Robinson, Smythe, J. Wilson and W. Wilson.

STREET RAILWAY.—A communication from the Street Railway Company, asking for permission to lay a track from King street down Gore as far as lot No. 38, westerly side, in the event of stables being there erected, awaits the action of the City Council. Quite a number of citizens appears to be interested in the result.

SOCIAL EVENING.—Last evening a very social time was spent in the P. M. Church. About 8 o'clock coffee and cake were passed around, followed by addresses from Revs. Messrs. Young, Walker and Jolliffe, and Messrs. Laturney and Dunn. Songs were interspersed. Such social occasions are productive of much good.

GAOL RETURNS.—Recently an application was made for the return to Kingston of fines paid after prisoners, committed here, had been sent to the Central Prison. The Inspector of Prisons and Asylums, Mr. Langmuir, informs the city that on only two occasions have fines been paid after the removal of the convicts to Toronto, and that both of these were paid here.

STUDY OF MEDICINE.—The examination of candidates for matriculation for the study of medicine in colleges affiliated with the University of Toronto opened yesterday. One hundred and twenty one candidates presented themselves, among them three ladies. The examinations are conducted by Messrs. A. P. Knight, of Kingston, and Archibald McMurchy, of Toronto.

RUNNING AT LARGE.—John Harkess, pound keeper, had a citizen before the court this morning for allowing his cows to run at large. The case was withdrawn on the ground that the defendant had already suffered in trouble and expense. The Magistrate entered his strong protest against bovine vagrancy. On Sunday especially the peregrinations of cows and pigs have been an intolerable nuisance.

MARKET BATTERY.—The Mayor has had prepared a plan of a cheap but good looking fence, such as he thinks should enclose the Market Battery grounds. It is proposed to use only turned wooden posts and iron chains, which will keep out vagrant cattle, and enable the premises to be cared for and made a pleasant looking place for the front of the city buildings. Will the Council adopt the idea? That's the question.

WIND WAFTS.

From Various Sources and on a Variety of Minor Themes.

—Repairs are going on at the P. M. Church.

—Castings for the sheetral works have arrived from Syracuse.

—The fire this morning made it great many rise earlier than usual.

—On May 2nd there will be a concert and lecture (by Rev. Jos. Young) in the M. E. Church.

—Potatoes are selling at from 30 to 35c per bushel. Shipments to other cities occur daily.

—Phosphate is being delivered into the city in small quantities. It is worth from $12 to $13 per ton.

—The rehearsals of St. James Church choir will, in future, take place on Saturday evenings at the usual hour.

—The right of way from Napanee Mills to Enterprise, 17 miles, on the N. T. and Q. RR. has been purchased.

—Henry Slicer was allowed a couple of hours to get out of the city this morning. He was before the court for drunkenness.

—"Billee Taylor," is by the authors of "Pinafore" and "Pirates of Penzance." It is on par with these excellent productions.

—The Napanee glass works are being pushed forward, and will be in a position to manufacture window glass by the 1st of September.

—The finance committee will recommend the council to adopt the proposition made by it to the cotton company. It should pass both council and people.

—The Grand Trunk RR. officials dispute that there is delay of emigrants for the North West so far as their Chicago branch is concerned. The detentions have occurred upon the Chicago and North Western RR.

Fire This Morning.

This morning about 5:20 o'clock an alarm was sounded from box No. 6. The fire was found to be in a vacant house on the corner of Chatham and First streets, owned by Calvin Lewis, a teamster, in the employ of Mr. William McRossie. The fire was burning briskly when the engine arrived; in fact the roof had fallen in. The steamer was located at the corner of Chatham and Elm streets and pumped from the tank. In a few moments two streams were pouring upon the burning structure. The flames meantime had attacked the house adjoining, owned by the same parties. The firemen turned their attention to the salvation of the latter building and succeeded, but not before considerable damage was done. The house in which the conflagration started was completely destroyed. Yesterday Mrs. Lewis was preparing the house (which had been empty for some time) for occupation, and the fire is supposed to have originated from a stove which she had used while cleaning the premises. Mr. Lewis is out of the city. There was an insurance upon the property, which was mortgaged. The policy was issued from the Royal Insurance Company, $675 being taken on the dwellings and $25 on the shed. Both the buildings—the one burned and that damaged—were frame.

The house was about sold a few days ago to Policeman Campbell, but at the last moment the latter withdrew from the arrangement.

New Steamboat Line.

The Montreal *Witness* is informed that arrangements have been completed to run a line of steamboats in connection with the Rome, Watertown and Ogdensburg and Utica and Black River Railways from Cape Vincent, Clayton and Ogdensburg to Montreal during the present season to accommodate the pleasure travel. Its informant says he has seen the list of shareholders, which includes the names of Mr. J. K. Gerrison, of New York, and that it is no "U. C. Amanse" company, a necessary assurance after the many rumors that have been started about the line it is proposed to run over the same route. It is proposed to run trains in connection with these boats by the Rome Watertown and Ogdensburg Railway from Niagara Falls to Cape Vincent, and also by the Utica and Black River Railway to Clayton, and passengers will leave Cape Vincent at 7 a.m., and arrive at Montreal about 5:30 p.m. The boats, it is said, will be specially fitted up for summer travel, with every convenience to ensure the comfort of passengers. The culinary arrangements are to receive especial attention. The boats, it is anticipated, will commence running about the end of next month. The company is being organized under the laws of the State of New Jersey, and it is said the necessary capital, $500,000, has been subscribed.

Holman Opera Company

Audran's comic three act opera, "Olivette," was produced in Hamilton on Monday evening, and the *Times* says it abounds in cheering music and comic and happy dialogue. The costumes and dresses were good, and on the whole the operetta was well given. Miss Sallie Holman as "Olivette" was lively and romping, and pleased the audience with her singing. Mr. Dalton as "Duc des Ifs" was the funny man. His singing was capital and his local gags and hits were cutely arranged. His rendition of "Sara Bernhardt is getting fat," in "Bob up serenely," was wildly encored. Mr. Plan as "Valentin" and Messrs. A. D. Holman and E. Batters also deserve special mention. Miss Blanche Bradshaw as the "Countess" was particularly attractive in her singing. Miss Ada Gilman as the "Cabin Boy" was much admired. On the whole the opera is a good one, with a fairly sufficient plot, and its rendition by the Holman combination was excellent. The calcium light worried from the gallery caused the actors and the scenery to look gorgeous. Our readers thus know what they may expect on the production of the opera in Kingston.

ST. PAUL'S S. SCHOOL.

The Annual Children's Concert Presentation to Mrs. Rudston.

Last evening the annual concert was held in the school room. About 200 persons were present and spent a most enjoyable evening. The following excellent programme was given:

Good Evening—Children's opening chorus.
Song—Miss Wilson.
Piano Solo—Miss Ettie Reid.
Song—Mr. Keeley.
Song—Maud Anderson.
Piano Solo—Dolly Trendall.
Song—Miss Anderson.
Song—Miss Wright.
Piano Solo—Ethel Metcalfe.
Recitation—Eva Wilson.
Rally—Chorus by children.
Song—Eliza J. Reid.
Song—Major Goodwin.
Piano Solo—Miss Fraser.
Song—Miss Wright.
Song—Mr. Phippen.
Piano Solo—Dolly Trendall.
Song—Mrs. Rudston.
"What shall the Harvest be?"—Chorus by children.

The Rev. W. B. Carey, who occupied the chair, called Upon the committee for the manner in which they had carried out the programme. He especially thanked Miss Boothe for the way she thus trained the young. The following children in addition to those named took part in the choruses: Misses McLean, Linton, Wilson, Taylor, Hersey, Rose, Gaskin, McDonald, Wilmot; Masters Rose, Kain, Perry, Wilson, Gaskin, Anderson, Horsey, Linton. The concert will be repeated on Thursday of next week, April 28th, with the addition of several new pieces.

A very pleasing feature of the evening was an address and presentation to Mrs. Rudston, who leaves shortly for Pennsylvania, where Mr. Rudston has a position as book-keeper in the petroleum works. A very handsome morroco purse containing $25 was given to Mrs. Rudston, Mr. Phippen, on the part of the choir and congregation, of which Mrs. Rudston had been a member for over twelve years, read the address and made the presentation. Mr. Carey made a touching and suitable reply for Mrs. Rudston, at the same time bearing his testimony to her very efficient and faithful service in the choir.

TEMPERANCE MEETING.

Excellent Music and Singing Recognition of Mr. Keeley's Services.

A successful temperance meeting was held last evening in the St. James' School House, which was numerously attended. As is usual, an attractive programme was prepared and fully carried out to the entire satisfaction of the large audience assembled. Mrs. R. V. Rogers kindly contributed a pleasing waltz song, "The Blue Alsatian Mountains," with great taste and precision. Miss Katey Wilson rendered the "Pigeon Song," without accompaniment, which was also highly appreciated. Mr. Callahan, a young man from "B" Battery, with a clear voice, rendered, "I Have Heard Sweet Music," acceptably. Miss L. Smith and Mr. Keeley appeared in the duet, "There's a Sigh in the Heart." The audience demanding an encore they again appeared in the duet, "When Night Comes O'er the Plain," the latter being very successful considering the very short practice. We hope to hear the duettists soon again. The President, Rev. F. W. Kirkpatrick, gave a very instructive reading, which, as usual, was highly appreciated. Towards the close of the entertainment, and in the absence of His Worship the Mayor, (church warden) Mr. R. V. Rogers made a very pointed and appropriate speech to Mr. W. Keeley, commenting upon the valuable services rendered by him in the choir and otherwise, at the same time presenting him with a handsome purse, made by one of the ladies of the church, and containing a sum of money in gold ($25.00) from the congregation. Neat speeches from Mr. Keeley, who was very much surprised, also from the Rev. F. W. Kirkpatrick followed. After further remarks by the President, renewing of the pledge by the members of the Society, and a motto song by Mr. Keeley the proceedings were brought to a close by the singing of a hymn and the pronouncing of the benediction. Miss Dupuy kindly played the accompaniments, assisted by Mr. Reyner, the organist of the church. Thus ended a very pleasing meeting of St. James' Church Temperance Society.

ST. GEORGE'S SOCIETY

Exhibition of Tableaux Vivants—A Musical Programme of Merit.

A large audience assembled in St. George's Hall last evening to witness the exhibition of tableaux. At the request of many who were unable to attend the first entertainment given about six weeks ago several of the scenes then exhibited were re-produced. The first scene shown last evening was the murder of the children of Edward IV in the tower, at the instigation of Richard III. Then followed "The Fatal Shot." Two scenes from the life of the ill-fated Lady Jane Grey, viz., "Her Refusal of the Crown" and "Execution," the last of which was particularly impressive. There came four scenes from the well known nursery history of Blue Beard; the melancholy end of the monster provoking much mirth amongst the juveniles. The second part opened with a scene from Shakespeare's "Taming of the Shrew" in which the music master comes to grief. Next in order came "The Vestal Virgins" which was much admired. Then a scene from "King Lear." "Pocohontas saving Capt. Smith" came next. This scene was accompanied with a red light which gave a fine effect, a wierd aspect to the picture. This was followed by a rendering of Rosetch's great picture "The Game of Life," in which a young man is represented as playing a game of chess with the Evil Spirit for his soul. The last tableau was that of "The Nations," during which the National Anthem was sung. The musical part of the programme was very good, the performers being Miss Henderson, Messrs. Pipe, Pugh, Trendell, and Telgmann, who were repeatedly encored. Mr. Griffin read some very amusing pieces, and Misses Mingaye and Walkom contributed in their usual winning manner. Altogether St. George's Literary Society are to be congratulated on the success of their efforts. Every one, we are sure, went home pleased with the entertainment of last evening.

MARINE NOTES.

Harbour Occurrences—Garden Island Fleet Ice in the West Troublesome.

The scows all gone from the bay opposite Bath.

The new cribwork in the market is planked and being slanked over.

The str. "Maud" makes her first trip to Cape Vincent to-morrow morning at 9 o'clock.

The steamer "Hero" will be taken to Portsmouth, hauled out and strengthened.

The steamer "Pierrepont" went to Gananoque this afternoon. She returns in the morning.

The steamer "Flight" will, to-morrow morning, begin her regular daily trips from Napanee to Picton.

The upper works on the str. "Gipsy" are well advanced. The promenade deck will be spacious; the cabin comfortable.

The schr. "Denmark" arrived at Toronto from Kingston yesterday. She is being keyed with timber for Kingston at $30.

The schr. "E. W. Folger" was launched at Portsmouth yesterday afternoon. She was towed to the city by the "Mixer."

The schr. "Polly M. Rogers," that has wintered across the channel from Cape Vincent, was yesterday towed into that harbor to be fitted out.

The schrs. "Erie Belle," "Lily Hamilton" and "Hercules" have commenced fitting out at Portsmouth. They do not expect to move until the Welland Canal opens.

The schr. "Annandale" left Kingston on Monday afternoon, and arrived in Oswego on Tuesday morning at 6 a.m. Capt. McMaster reported a pleasant trip and no ice on the lake.

The ice in Consecon harbor is fast wasting away. The upper bay is quite clear, but there is yet quite a lot in the lower bay, which probably will be all gone by the first of next week.

Capt. T. Longway, of Tonawanda, N.Y., has arrived to take charge of the schr. "Brooklyn." He brought his crew of four with him. The vessel will enter into the iron ore trade between Cleveland and Escanaba.

The first arrival reported at the Custom House was a scow laden with peas and beans from Cape Vincent for Wolfe Island. The grain will be used for seeding purposes by the Wolfe Island farmers.

The ice went out of Big Bay yesterday, leaving the bay clear of ice from Belleville to within two miles of Picton, where it is apparently quite firm. There is about eight miles of ice between Stone Mills and Macdonald's Cove.

The new Lloyd's register for 1881 has been issued and is now in the hands of the various insurance agents. The work has been carefully compiled. The presence of Capt. W. R. Taylor, of this city, at the board meant the proper classification of Canadian vessels.

The schr. "John Wesley," Capt. M. Mullin, took a trip down Big Bay, from Belleville on Monday, and found the ice still unbroken from the vicinity of Northport eastward. How far the ice extended those on board could not see.

The harbour at Collinsby is clear of ice. The schooner "Gulnair" expects to leave for Hamilton on Thursday. The "Bessie Barwick" is to be taken to St. Catharines for repairs. The Collinsby Rafting Company expects several cargoes of timber from Hamilton before the opening of the canal. They have been making spring arrangements, and have put on additional steam winches to meet the business.

The schooners "Oriental," Capt. A. H. Malone; "Bavaria," Capt. Jas. Dix, and "Siberia," Capt. Ezra Crawford, which were in tow of the steamer "Chieftain" and were let off Nicholson's Island on Sunday, reached the Hamilton piers about dusk on Monday night. Yesterday morning the "Chieftain" started from the beach with the "Oriental" for the H. & N.-W. wharf, but could not reach it on account of the strength of the ice. The "Oriental" was left out in the ice, and the "Chieftain" returned to the emigrant wharf.

The grain carrying from Toronto does not promise to be profitable this season. There is to begin with, only about 250,000 bushels of grain in store in that port. Shippers believe they can count on the presence of a number of medium sized vessels going there during the season. One vessel captain said yesterday that he had been offered, in good faith, the rate of 1½cts. to Kingston. And in good faith he did not close the bargain. Vessels have sailed for that rate within the last three years, but others do not expect such a rate this spring.

A JURY'S DISAGREEMENT.

A case interesting to mariners came up at the Assize Court, Cobourg, on Tuesday last. It was entitled Munson vs. Hayden. The case arose out of an agreement that was entered into last November between the parties whereby the plaintiff was to proceed to Wellington Beach and remove the defendant's schooner, the "Albatross," where it was stranded. The "Albatross" was driven ashore during the disastrous gale last November, the 5th of that month being the date of the wreck. On the 15th of November the parties arranged that the plaintiff should proceed to the scene of the wreck, after procuring the necessary supplies and provisions at Cobourg, for which they were to receive $8 an hour while working at the vessel, and $4 an hour for any time which it might be necessary that they should seek shelter on account of the storm. The plaintiff was bound to use all due diligence to save the vessel; and the defendant contended that he had not done so. Plaintiff brought several witnesses to prove that he had to seek shelter in Presque Isle Bay, and that he was unable to leave there until the following Monday morning, and during all the intervening time it was not safe to go near the wreck. The defendant offered evidence from several mariners, that the plaintiff could have reached the wreck had he been so disposed, and that, therefore, he had not "used all due diligence." The judge charged the jury slightly in favor of the plaintiff, but they returned to court after being out over two hours, stating that they could not agree. It is understood that they stood seven for plaintiff and five for defendant.
