REMINDERS.

SATURDAY.

FLOWER MISSION.—Saturday meeting at Mrs. Dr. Strange's at 11 a.m.

TENNIS.—The City and Victoria Parks grazing and hay crops received at noon.

EXAMINATION for Collegiate Institute scholars begins at 9 a.m.

CHEAP EXCURSION to Cape Vincent at 2 p.m.

CITY AND VICINITY.

PROBS.—Moderate to fresh winds mostly, southwesterly to southeasterly, fair warmer weather.

TO-DAY'S HEAT.—At 8 p.m. the thermometer registered 76 in the shade—maximum, 85.2.

ARCH AT GLENVALE.—The Orangemen will erect an arch at Glenvale on the 12th. On it will be a "Welcome" to passing excursionists.

SCHOOL SYSTEM.—A requisition is about to be circulated, asking for the holding of a public meeting to discuss the "lapping" of the school system.

COMPLAINT ATTENDED TO.—The subject of "An Observer's" complaint has been made known to the Chief of Police, and a policeman will give it his especial care for a few days.

A LOST BOY.—A boy, aged six years, a son of Mrs. Cornelius, living near Col. Duff's, on Princess street, was lost for several hours yesterday, and there was a lively search for him.

VISIT TO THE PENITENTIARY.—The number of visitors to the Penitentiary is on the increase owing to the frequent arrival of American and English excursionists. The visitors are usually attended at the prison by a guard.

ADMITTED THE CHARGE.—This morning two licensed liquor dealers were summoned before the court, charged with selling liquor within prohibited hours. They, without equivocation, admitted the charge and paid $20 and costs each.

ROWING REGATTA.—A number of citizens are prepared to enter into a movement to raize from $1,000 to $1,200 to secure the Hop Bitters race in Kingston harbour. This has been conveyed to Mr. Soule, the manager of the proposed race.

ONE YEAR.—The promises of Mary Brunston before the police court yesterday morning, went for nothing. She failed to fulfil them, and was re-arrested while wandering aimlessly around the the streets. The magistrate ordered her removal to the Mercer Reformotory, there to remain for one year.

MECHANICS' INSTITUTE.—The Education Department has informed the Secretary of the Mechanics' Institute that as soon as he is satisfied that $600 have been expended during the past business year, in accordance with the conditions of the Legislative Grant, it will be entitled to its annual remittance.

NOBODY likes to lend a trunk or valise, however sweetly they may smile, when doing so, and nobody ought to borrow when he can be purchased as low as at present. Those contemplating a trip should call at Haines & Lockett's, who to-day advertise all styles and grades at their usual low prices.

SIGNIFICANT ADVANCES.—Our readers generally may not have observed the fact, but both yesterday and to-day the Montreal quotations for flour have indicated a marked increase. This fact will convince any thoughtful one that the increased cost of bread is not an unjustifiable movement of the local bakers.

PRUNING TREES.—The caretaker of the Park was so busy this Spring that the regular work of pruning the trees on the streets was passed over. It is too late now to trim with safety, so the work has again to be postponed until the Fall. Meanwhile dead trees and limbs will be cut away, Mr. McCabe being at once spared for the duty.

FOUL PREMISES.—Police inspections took place to-day of McCammon's piggeries near Elm Street, of the hide house on Upper York Street, of a piggery near the corner of Earl Street, and of the nuisance ground, owing to public complaints of offensiveness. Sickness is attributed to the stench in two of the cases. A summons has been issued in one case, and more are to follow.

VOKES FAMILY.—On Friday, the 15th (a week hence) the Vokes family will perform in the Opera House. A New York paper says they are the originators of the particular kind of entertainment in which they appear, and have had many rivals and imitators, but none to equal, let alone excel them. They have lent dignity to folly by lavishing upon it the resources of theatrical art. It is common to see comedy converted into farce; it is most rare to see extravagant farce interpreted by true comedy methods.

The Locomotive Works.

If there is any institution in the city that resembles a well developed bee hive it is the Canadian Locomotive Works. The new building is being rapidly erected, and when finished will be a very imposing structure. The roof of the boiler and blacksmith shops has been re-modelled and improved, affording more light and ventilation. Considerable of the machinery recently purchased has arrived, and more is on the way. When Mr. J. Carruthers left for England he was empowered by the Directors of the works to secure the services of a number of men who had been employed in leading old country shops. He has carried out his commission, and the men are expected to arrive here shortly. The enterprise shown by the new company is really commendable.

PASSING OBSERVATIONS.

Trifling Things Noted by Our Reporter in Passing Through the City.

That the Rideau Rifles will not be a winner in orange lilies.

That there will not be a school examination on the 12th.

That a "mandate a resolution" is a very ordinary occurrence.

That hot headed young men now rush to the barbers for close cuts.

That the *Mail* makes some very stupid references to our harbour.

That the St. Andrew's Sunday School picnic was immensely popular.

That the police officers would be very grateful if removed to a more healthy station.

That crops on Wolfe Island are looking finely and the island people are happy.

That the telephones have a tendency to develope the staying powers of the local gossips.

That the cheap excursion to morrow will be as largely attended and as popular as ever.

That the man who says the cotton mill directors have not been legally elected is talking "nonsense."

That the Frontenac Ward incendiaries (thought to be boys) have had enough fun for a while.

That during the camping season the city will suffer the usual depopulation, the exodus having already commenced.

That the intermediate examinations will not be held, as announced, in the Collegiate Institute, but in the City Hall.

That the results of the promotion examinations indicate the efficiency with which our schools have been conducted.

That several cabmen have been reported for an infringement of the regulations regarding the solicitation of "fares" on steamers.

That the oarsmen's contest for a silver cup, shortly to take place, will likely be close and exciting. The members of the rowing club practice nightly.

That some one has been giving the *News* what the boys call "a stiff" when it announced that two visitors from Toronto were to be entertained at a picnic.

That the Deputy Returning officers, who will conduct the voting upon the cotton mill bonus by-lay in the several Wards, were given their instructions to-day.

The Division Court will, hereafter, be held in the Court House, the Council Chamber being unsuitable and the expense of fitting up the Ontario Hall unjustifiable at present.

WIND WAFTS.

From Various Sources and on a Variety of Minor Themes.

—The Government is evidently disposed to be very strict.

—The afternoon express, from the west, was upwards of two hours late.

—New regulations have been issued anent the Intermediate examinations.

—Grace Egerton, the gifted actress and vocalist, died in Montreal on Wednesday.

—The compound tandem engine, ordered for the cotton mill, is being built by Messrs. James and Edward Wood, of Bolton.

—The Grand Trunk Railway Company has arranged a cheap excursion from Montreal to Winnipeg. It will leave on Aug. 4th.

—The electric light at the Thousand Island house is said to be a grand success. It illuminates the building and grounds handsomely.

—Griffin, who was in the employ of Messrs. Rathbun & Son, and a defaulter, has been sentenced to ten days' imprisonment in the Napanee gaol.

—Mr. W. Sawyer has been commissioned to paint a portrait of the late Fred Jarvis, of Ottawa, who died in the old country shortly after winning the Gilchrist scholarship.

—The Ottawa *Citizen*, speaking of long sermons in warm weather, in reply to the opinion of a Kingston clergyman, says "elaboration under the circumstances is not necessary or desirable."

PERSONAL MENTION.

Major D. Jones, R.A., is at the Windsor Hotel, Montreal.

Sir John Macdonald, we are assured "was never better; only a little weak."

Bishop Cleary will not return to Kingston untill the latter end of next week.

Principal Grant, of Queen's College, spent an hour in the Smith's Falls High School on Wednesday.

The Tandy Brothers will again have charge of the singing at the Grimsby Camp ground this year.

Mr. Joseph Cartier, a nephew of the late Sir George, is the Conservative candidate for a seat in the Provincial Legislature for Vercheres.

Moses Oates, the weather prophet, spent yesterday in the city. He was interviewed by several and prognosticated some extremely hot weather.

Mr. J. E. Hamjer, representing the Vokes family Comedy Company, was in the city to-day arranging for a performance in the Opera House next week.

The family of Mr. A. Gunn, M.P., have settled for the hot season at Camp Iroquois near Gananoque. The str. Marquis of Lorne daily plies between the camp and Kingston.

Archbishop Bourget, Bishop Lafrech, Senator Trudel, and Dr. Trudel, are about to leave for Rome to get leave from the Pope to establish an independent Catholic university in Montreal.

Mrs. Dawson, wife of Prof. Dawson, of the High School, Belleville, (sister-in-law of the Warden of the county) is so ill that the physicians in attendance have very little hopes of her recovery.

The death of Mr. John May, of Beckwith township, Lanark county, father of the Rev. John May, Public School Inspector for the county of Carleton, is reported. Deceased was in his 98th year of his age.

Edward Farrar, formerly editor of the *Mail* and now of the New York *World* staff, has an article forthcoming on Lower Canada. It will be published in an American magazine, and will be profusely illustrated.

YACHTING NOTES.

A Talk with the Experience Builder, Capt. Cuthbert—His Opinions of Yachts.

Last Sunday a reporter of the WHIG found quietly enjoying himself at an Ontario street residence. He was approached by our reporter and his reverie disturbed. Everybody knows the Captain to be a Scotchman (with Canadian ideas). He came to this country when quite young and for the past twenty three years has been engaged in yacht and shipbuilding. He first established a yard in Cobourg at which some speedy crafts were built; but they were of small moment compared to those now the favorites. Among the first yachts built were the Sir John Macdonald and Garibaldi. Both of these have long since been converted into kindling wood. The Annie Cuthbert, now the Grey hound, of Chicago, was modelled and built by him, and is the fleetest craft in the harbor of that western metropolis. Following her came the Katie Gray, Surprise, Madcap and many others. It is a remarkable fact that nearly all the fast yachts owned on Canadian waters at present were made by Mr. Cuthbert. The Countess of Dufferin was a big undertaking, unfortunately too large for fresh water. He said that her recent sale was a good one. He was asked what he thought of the Emma. He built her several years ago at Trenton (to which place he removed) for Mr. G. Offord. She is trim and fast; in moderate winds hard to beat; in a heavy blow he thought she might not be so successful. Altogether she was an excellent boat. He referred to the Atlanta which is now in course of construction at Belleville. He was laying himself out, he said, to make her that she could not be beaten. She will be about 84 tons burthen, yacht scale, but about 56 tons by Customs measurement. She is, he thinks, his best model. Only the most select material is being used in her construction, and no expense is being spared to make her such that the Queen's cup, now held by New Yorkers, may come to Canada. Her cost will be about $5,000. Capt. Cuthbert emphatically stated that the winning of the cup was a matter of honor to him. The Atlanta is now nearly ready for planking. Captain Cuthbert said that "new wrinkles" in yacht building were becoming known every day, and constant attention was necessary in order to fully understand them. He thinks that the Atlanta's model compares well with any he has seen. He keeps himself thoroughly posted on the latest improvements. He related his experience in yacht building in this city. Over ten years ago he started the Lady Stanley in Mr. McCorkell's ship yard. He about half finished her, and then (for some reason he did not explain) took her to pieces and removed her to Cobourg where she was completed. All the sails so far for Mr. Cuthbert's yachts have been manufactured at Messrs. Oldrieve & Horn's in this city, who, he considers the most expert in this line in Canada. If he can arrange the matter satisfactorily he will give the firm the contract for the outfit for the Atlanta.

Women's Missionary Society.

At the last monthly meeting of the Woman's Foreign Missionary Society of the Presbytery of Kingston the following resolution was passed: "The thanks of the Society are cordially tendered to the Rev. Dr. McKay and Rev. Colborne Haney, for their interesting addresses at the union missionary meeting held during the sitting of the General Assembly; to the choirs of St. Andrew's and Chalmer's Churches, for their kind assistance in leading the singing; to the ladies who gave efficient assistance in the arrangements for the social meeting; to Lieut. Donaldson, "B" Battery, for printing the programmes; and to the papers for giving space for reports."

A Foolish Story.

We take the following singular story from a contemporary: "As a rumor has in someway got afloat in this village and vicinity to the effect that Thomas Whitton, son of Mr. Jas. Whitton, of Seymour East, was to have been hung in Kingston on the 15th inst., we wish to correct the false report and lay the plain facts before our readers. About a year ago Thomas got into a quarrel with a resident of Westport, situated about 60 miles below Kingston, in which the latter in some way got his arm fractured, and part of it had to be amputated. Whitton is still living, however, and, we learn, is able to eat his three meals a day as well as any man."

MARINE NOTES.

Another River Boat—A Sailor's Benefit—New Tug will Advance—A Steamer is on the ways at Powell's shipyard undergoing repairs. She is receiving a new wheel.

The St. Lawrence Steamboat Co. has purchased another steamer, called the Maxwell, which will run on the lower end of their route.

The barges Elm and Ox have arrived with the first cargoes of salt shipped west from Montreal this year. The barges carried about 3,000 bags.

This morning a raft of timber, in tow of the tug Conqueror, passed down the river. There were five drams. The timber, from Toronto and Hamilton, was bound for Quebec.

The Sailors' Union have started a subscription list for the benefit of the man who, last fall, fell from the crosstrees of the schr. Oliver Mowat breaking his leg in two places. He is still a sufferer.

A canal steamer arrived at New York yesterday, nine days from Buffalo, bringing 7,500 bush. corn and towing a consort laden with 9,000 bush. corn. This is, in time and tonnage, said to be unprecedented.

Capt. Allen's new tug is now ready for planking. The finest oak and elm are being used. The tug will probably be completed in about a month. The engine and machinery in the Lady Franklin will be transferred to the new tug. The hull of the Lady Franklin will be burned up.

Tug Carlyle, Ironsides; barges iron pre., Star, Guiding Star, Milwaukee, 20,000 wheat.

Departures.

Steambarge Nile, Ogdensburg, lumber.

A Steamer Burned.

This morning the schooner Ionia took fire at the foot of Wolfe Island and was entirely destroyed, as well as her cargo of hay. She was owned by Mr. C. Kelsey, of Cape Vincent. This is the second vessel, laden with hay, that has been burned at the foot of Wolfe Island.

A Captain's Death.

Last evening the fine propeller Prussia, of the Merchants Line, came into Swift's wharf last evening with her flag flying at half mast. On enquiry as to the cause it was learned that the flag was floated out of respect to the memory of Capt. More, of the California, of the same line, who fell through an open hatch at Cleveland and sustained fatal injuries. Capt. More was highly respected by all who knew him. He had been a mariner for upwards of 40 years. His home was in Prescott.

Steamer Nellie Cuthbert.

The str. Nellie Cuthbert has not left port because the Government Inspector will not issue his certificate until she has been made to fully comply with the law. The recent steamboat disaster at London has sharpened the Government officials, who are especially particular that all the necessary apparatus for saving life is provided. The boats on the Cuthbert were considered too small, and an extra outlay of $80 has been made to remedy the defect. New steam pipes, bells and life preservers have all to be added. Altogether upwards of $800 will have to be outlaid before the steamer can pass inspection satisfactorily. Mr. Cuthbert, the builder, will be a loser to some extent by the strict enforcement of the Act. In a few days her repairs will be completed. She will then leave for Toronto, from which she has been engaged to carry passengers to Lorne Park. She is said to be capable of making 13½ miles an hour. She ran from Deseronto to Kingston at that rate of speed.

Death of Rev. Mr. Ross.

The death of Rev. Walter Ross, M.A., of St. Andrew's Church, Carleton Place, is intimated by the obituary notice elsewhere. We learn from the *Central Canadian* that two weeks ago last Sunday, about 11 p.m., he felt a violent pain in his left side which descended to his knee, and subsequently lodged in an old sore which had troubled him some years ago. This attack seemed to hasten others for four distinct assaults, each of itself painful, gathered upon him at once, and on Thursday he died. Rev. Mr. Ross was born in Nova Scotia, and went fresh from the college at Kingston to the church on the 7th line of Beckwith in 1862, and there lived until three or four years ago, when he moved into Carleton Place. It may be said that his whole ministerial life has been spent in the one locality. He not only always retained a bright and intelligent congregation, but was continually drawing substantial additions. He was scholarly and a preacher of recognized ability and force. He was always devoted to his work; even during his severe illness, while in the greatest paroxysms of physical suffering, he cried out to be permitted to make his usual Sunday circuit, and once pronounced the Benediction over a cup of beef tea. His earnestness and fidelity to the Master were never called in question.

He was a brother-in-law of Mr. J. P. Pense, of the Post Office Department, having married an elder daughter of the late Mr. Thomas Burrows, J.P., Kingston Mills. The family has been heavily bereaved, three deaths having occurred in it within a very short time.

A healthy man never thinks of his stomach. The dyspeptic thinks of nothing else. Indigestion is a constant reminder. The wise man who finds himself suffering will spend a few cents for a bottle of Zorrea, from Brazil, the new and remarkable compound for cleansing and toning the system, for assisting the digestive apparatus and the liver to properly perform their duties in assimilating the food. Get a 10 cent sample of Zorrea, the rare remedy, of Heath & Gunn, or Henry Wade. A few doses will surprise you.

COTTON MILL BY-LAW.

The Preliminaries Who Can Vote and Who Cannot—The Decision on the Point.

The cotton mill bonus by-law is a specimen of the loose manner in which a by-law is drawn up. It is a by-law unlike any by-law hitherto thought necessary here, and not understood by even the officials. It is singularly inexact in its provisions, and in more than one respect is impracticable in its working. The by-law is for $5,000, payable on January 1st next, the city to float the debentures at 5 per cent., to be matured within ten years.

THOSE WHO CAN VOTE.

"Any person shall be entitled to vote on any by-law requiring the assent of the electors who is a male ratepayer and at the time of tender of the vote of the full age of twenty-one years, and a natural born or naturalized subject of Her Majesty; and who has neither directly nor indirectly received, nor is in expectation of receiving, any reward or gift for the vote which he tenders, and is at the time of such tender a freeholder, either at law or in equity, in his own right, or in right of his wife, of real property within such municipality of sufficient value to entitle him to vote, at any municipal election, and is rated on the last revised assessment roll as such freeholder, and is named, or purported to be named, in the voters' list of electors." This is the law in full upon this point.

THE VOTERS' LISTS.

The lists will contain only the names of those qualified by assessment to be entitled to vote at municipal elections. All freeholders of $400 can vote without question, except the shareholders in the company and those pecuniarily interested in it. They are expressly disqualified.

A leaseholder must have a written lease for 10½ years to come to be qualified. A lease for over three years is not legal if only verbal. A freeholder can vote in each ward in which he or his wife has property.

Leaseholders, who have leases running for ten years from next January, may also vote; but in all likelihood the scrutineers will require from each a declaration or proof of such qualification. The law says the voters' lists given to the returning officers shall contain the names of all qualified voters under the by-law act, but since there is no mode of ascertaining the qualified leasehold voters every name rated for over $400 has to be entered, though probably not fifty of them are holders of leases. Similar insufficiency of the machinery of the law will be encountered perhaps when the vote is finished. Who can tell without a long and laborious scrutiny in case of a close vote whether a majority of qualified votes have pronounced in favor of the grant? The City Clerk has made an approximation of the total vote, but then it is only an approximation after all and not legally definite.

PREPARING FOR WORK.

The seven returning officers were sworn in this afternoon. No one attended at the Mayor's office to-day to take the declaration and be sworn in as scrutineers at the polls. The sitting was therefore adjourned until ten o'clock to-morrow morning. If they do not then declare they cannot afterwards be appointed. The friends of the by-law, as well as its opponents, should in consequence bring forward seven men on each side to-morrow to be appointed. Only in case of the absence of one of these qualified men can a returning officer accept another scrutineer. If there are none appointed for a polling place in the first place none can be admitted there during the election. It is important in the public interest that both sides should be fully represented and the true sentiment of the voters find expression.

The cotton company shareholders will meet this evening to discuss the situation. So far no organization on either side has been effected.

A GREAT SUCCESS IN SERGE FOR SUITINGS.—Z. Prevost, at the New York Clothing Store, is having great success in his serge suitings, having on hand English, Irish and Canadian serges. His English serges at $10 a suit (made to order) are taking the trade in the city.

GIBBARD & SON'S
FURNITURE!
Is taking the lead and WHY?
BECAUSE they have it all manufactured at their own Factory and employ none but skilled workmen, use the best material and sell cheaper than any other House in Ontario. They are receiving orders from Toronto, Montreal, Belleville, Kingston and other large cities and towns, and still they come, so that their Factory is worked to its utmost capacity.
Photos and Prices can be seen and had from J. E. Hutcheson, Esq., Kingston.
