FALSE FACTS ABOUT INSECTS.

Information for the Agriculturists' Time the Plants are in Danger—Use of Soot.

There is a popular idea that a severe and thick winter will be followed by the summer following. The idea is not a true one. When our winters are steadily cold few insects hatch out of the egg or the chrysalis state; in those winters that are mild large numbers of insects come forth on fine warm days and nights, and great numbers will perish before they can lay eggs or change their forms by frost, storms or birds. This is not theoretical, but proven by the observations of over forty years spent in the study of natural things. Any one may see on warm days and nights plenty of flies, gnats, &c., in winter, and these are almost invariably destroyed before they can breed. In some springs we have a continuance of cold, ungenial winds which prevent a good growth in plants. At such times plants, shrubs, and even trees get infested with

GREAT QUANTITIES OF INSECTS,

especially what is called the green and black aphis, or fly; many people still believe that these insects are brought to the winds, but this is far from the truth; the plants by their slow state of growth are made more favorable places for insects. By these conditions every gardener who knows his business knows that insects get most upon his plants when they are in a low state of growth; the eggs and chrysalies are always somewhere around, and when circumstances are favorable they are ready for work. An old gardener once expressed it, that only ignorance and idleness ever allowed insects to get "boss" in gardens or houses. The old man's words are true. Many good people have a happy knack of

DEALING WITH THE INSECT WORLD.

They will see a few one day on their plants, and leave them to some other time before they undertake to stop them either from breeding or eating, and then often commence to save their plants when they are well crowded, and it takes as much to destroy the vermin as often fixes the plants also. Those who wish to keep insects in check must never have any "to morrows" about their ways but must act as soon as the eggs, chrysalides, or vermin in any state are seen. Destroy the first lot and it is rare that there's much trouble after. Those who have only

A FEW PLANTS IN A WINDOW

can easily keep them clean. If the plants are not large take the pot in the right hand, by its bottom, and let the stem of the plant between the middle fingers; then souse the head in a pail or tub of soapsuds, and then rinse it in clear water. If this were done once or twice a week it would benefit the plants even if no insects had to be killed. It would be easy to write many chapters how to destroy insects, but watchful eye and prompt action in destroying them is worth all that can be recommended, and the finger and thumb will often keep a large place pretty free from such pests. There are occasions when it is needful to apply wholesale (as it were) means. The English farmers could not grow turnips were it not for their

FREE USE OF COAL SOOT.

As soon as their turnips get into a second leaf a little black fly comes in millions, and would destroy the crop (which is there an important one), but by covering the plants with soft coal they are saved. The soot don't kill the insects, but insects are somewhat like human beings; if they get well annoyed they shift, and the soot as it washes off the plants makes them grow faster. Soot is used often over large areas of other crops to drive away insects, and as a fertilizer. It is not an uncommon thing to see ten or twelve car loads of soot leaving a town or city for the farmers in the country. Were the uses of soot more generally known we should have fewer complaints about insects.—(A perambulating gardiner, in *Prairie Farmer.*)

Green's August Flower.

It is natural for people suffering with Dyspepsia and Liver Complaint or any derangement of the digestive organs, such as Sour Stomach, Sick Headache, Habitual Costiveness, palpitation of the Heart, Heartburn, Water brash, gnawing and burning pains at the pit of the Stomach, Yellow Skin, Coated Tongue and disagreeable taste in the mouth, coming up of food after eating, low spirits, &c., to put off from day to day buying an article that they know has cured their neighbor, friend, or relative, yet they have no faith in it until it is too late. But if you will go to your druggist, J. G. King, and get a bottle of GREEN'S AUGUST FLOWER your immediate cure is as certain as you live. Sample Bottles of this medicine can be obtained for 10 cents to try its superior virtue. Regular size 75 cents. Try it two doses will relieve any case.

Holloway's Ointment and Pills.

SORE RELIEF.—The weak and enervated suffer severely from nervous affections when storms or electric disturbances agitate the atmosphere. Neuralgia, gouty pangs, and flying pain, very distressing to a delicate system, may be readily removed by rubbing this Ointment upon the affected parts after it has been fomented with warm water. The Pills taken occasionally in the doses prescribed by the instructions, keep the digestion in order, excite a free flow of healthy bile, and regenerate the impoverished blood with richer materials, resulting from thoroughly assimilated food, wanting which, the strongest must inevitably soon sink into feebleness, and the delicate find it difficult to maintain existence. Holloway's Ointment and Pills are infallible remedies.

Given up by Doctors.

"It is possible that Mr. Godfrey is up and at work, and cured by so simple a remedy?"

"I assure you it is true that he is entirely cured, and with nothing but Hop Bitters; and only ten days ago his doctors gave him up and said he must die!"

"Well-a-day! That is remarkable! I will go this day and get some for my poor George—I know hops are good."—*Salem Post.*

Why Incur Torture?

By disregarding cleanliness of the teeth, and thus encouraging their decay, when SOZODONT, which is delightful to use, prevents the possibility of toothache, by keeping the teeth in health. No one who has not used this popular article, can form an adequate idea of how much improvement defective teeth are susceptible. SOZODONT is infinitely to be preferred to abrading tooth powders. It preserves, not scratches the enamel.

Enjoy Health.

The "Mandrake Bitters," world known name. No others have obtained such fame. From North to South, from East to West The people say they are the best. Let sufferers from dyspepsia fly, And Baxter's Mandrake Bitters try. They're sold in every city, town, No others have such wide renown. Let all who would enjoy good health 'Tis more than houses, acres, wealth, Remember how they can obtain Relief from all their woes and pain.

PREPARE FOR SPRING.—After a long, severe winter the system needs cleansing of impurities. Nature must be assisted to re-cooperate, the liver must be made to act, all surplus bile and impurities carried off. Zoroma, from Brazil, acts as a gentle purgative. It it just introduced into this country. The remarkable results of a few doses is most surprising. Ask Heath & Gage or Henry Wade for a 10 cent sample, and try Zoroma, the most powerful remedy for Dyspepsia, Indigestion, Constipation and Biliousness ever introduced in this country.

—Two lovers were united in marriage by a Philadelphia clergyman. The man promised to call at his house the next day and pay for a certificate. He departed, however, without doing so, and the clergyman prints a marriage notice, with the added words, "No cards, no cake, no cash, no certificate."

—Sir Leonard Tilley sent a letter to a temperance meeting in New Brunswick, and was excused from being present on the ground of a family affliction, while at the very moment the apology was being read he was delivering a political address from the front steps of Senator Boyd's house.

Chapter of Accidents.

Surrounded as we are by destructive agents, artificial as well as natural, the chapter of accidents necessarily occupies a large space in the record of physical suffering. But for the kind Providence that in a measure shields mankind from the consequences of their own neglect, recklessness and brutality, that chapter would be much longer than it is. Still, the number of human beings bruised, distorted, mutilated, and destroyed every year, by fortuitous causes is immense. Unfortunately the list is greatly augmented by unskilful treatment. Limbs are lopped off, lameness and distortion superinduced and perpetuated, and unutterable pain and sorrow inflicted, in thousands of cases where the application of the proper remedy would have prevented such lamentable consequences. "But," exclaims the inexperienced reader, "what is the proper remedy?" Every surgeon has his pet theory, his peculiar style of practice. The faculty disagree—who, then, is to be trusted?" We answer, let the preponderance of testimony decide the question. That preponderance is in favor of HOLLOWAY'S OINTMENT as the best and safest dressing for wounds, bruises, burns, scalds, and every species of external injury to which humanity is liable. We have examined this subject in two lights—the light of unquestionable evidence from foreign sources, and the light of personal experience. We find that during the campaign of the Crimea, both in the stationary hospitals at Gallipoli and Scutari and in the ambulances at the seat of war, the Ointment was used with the happiest effect as a dressing for sabre cuts, bayonet puncture, and gunshot wounds. This is history. The French and English surgeons admit the fact, and the governments of both nations have, we understand, authorised the purchase of large quantities of the preparation for army purposes.

But in addition to the proofs of its efficacy derived from aboard we have the testimony of our own senses. We know that it rapidly relieves the agony of contusions, cuts, dislocations, fractures, and other injuries of the fleshy fibre, bones, muscles, and integuments, allays the immediate inflammation, and prevents the fever which under ordinary treatment so frequently supervenes. It has also been applied, in this region, with striking benefit, in cases of stiff joints and similar affections.

Our purpose in this article is to touch especially upon its unparalleled usefulness in all cases of injury arising from accidental causes, and to recommend that it be kept on hand wherever casualties of this kind are to be apprehended. No western settler, no traveller by land or water, no railroad station, no steamboat's medicine chest, no family household should be without it.—*Buffalo Commercial Advertiser.*

OUR TYPE IS NEW THROUGHOUT

SULPHOLINE LOTION.

An External Means of Curing Skin Diseases.

It will be Sulpholine in a few days, and [illegible] and roughness, vanish as if by magic, whitehead, reddening, skin disorders, that have plagued the sufferer for years, no matter for what purpose they may be. "Sulpholine" will successfully attack them. It destroys the animalic which cause these unsightly irritable painful affections, and always produces a clear, healthy, natural condition of the skin. Sulpholine Lotion is sold by most Chemists' bottles 1s. 6d. made by PEPPER & CO., London, Eng.

PEPPER'S QUININE AND IRON TONIC strengthens the nervous and muscular system, improves digestion, animates the spirits, invigorates the health. The debilitated female from the effect of hot climates this tonic is invaluable.

PEPPER'S QUININE AND IRON TONIC restores and develops the nervous energies, enriches the blood, promotes appetite, inspires laughter and depression, fortifies the digestive organs. It is a special remedy for neuralgia, sick headache, indigestion, fevers of every kind, chest affections, and in wasting diseases, scrofulous tendencies, &c. The whole frame is greatly invigorated by Pepper's Tonic. Under its influence the nervous system is greatly strengthened, the constitution greatly strengthened, and a return to robust health certain. Bottles, 2 doses, 4s 6d; 50 doses, 9s; chemists everywhere. The name of J. Pepper, Bedford Lab., 240 to 242 London road, must be on the label. Those in search of certain relief are earnestly requested to see that Pepper's Quinine and Iron Tonic is strongly recommended to residents in India and the Colonies, and should always be kept ready for use in every case of fever or febrile condition.

TARAXACUM AND PODOPHYLLIN.—Prepared only by J. Pepper, London. This fluid combination, extracted from medicinal roots, is now used instead of blue pill and calomel for the cure of dyspepsia, biliousness, and all symptoms of congestion of the liver, which are generally seen beneath the shoulders, head ache, drowsiness, no appetite, furred tongue, disagreeable taste in the morning, giddiness, disturbance of the stomach, and feeling of general depression. It acts the sluggish liver in motion, very slightly acts on the bowels, giving a sense of health and comfort within 24 hours. It is the safest medicine. Taraxacum and Podophyllin is a full decade only by J. Pepper, Bedford Laboratory, London, whose name is on every label. Bottles, 2s. 9d. and 4s. 6d. Sold by all chemists.

LOCKYER'S SULPHUR HAIR RESTORER will darken grey hair, and in a few days completely bring back the natural colour. The effect is superior to that produced by an instantaneous dye, and does not injure the skin.

LOCKYER'S SULPHUR HAIR RESTORER is the best for restoring grey hair to its former colour. It produces a perfectly natural shade and is absolutely harmless. Recommended for destroying scurf and encouraging growth of new hair.

LOCKYER'S SULPHUR HAIR RESTORER. Never fails in acting on color glands, always restoring and maintaining that which has been lost. No other hair dressing is requisite. Large bottles, 3s. 6d. Sold by the hairdressers and perfumers in London, and throughout the year. Lockyer is equal to any of the high-priced preparations.

Dr. J. Collis Browne's Chlorodyne.

THE ORIGINAL AND ONLY GENUINE.

CHLORODYNE is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best known remedy for Coughs, Consumption, Bronchitis and Asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases, Diphtheria, Fever and Ague.

CHLORODYNE acts like a charm on Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE—Effectually cuts short all attacks of Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From W. Freshfield Pettigrew, M.D., formerly Lecturer at St. George's Hospital, London.—"I have no hesitation in stating that I have never met with any medicine so efficacious as an Antispasmodic and Sedative. I have used it in Consumption, Asthma, Diarrhœa and other diseases and am perfectly satisfied with the results."

Earl Russell communicated to the College of Physicians that he received a despatch from Her Majesty's Consul at Manilla to the effect that cholera has been raging violently, and that the only remedy of any service was Chlorodyne.—See *Lancet*, 1st December, 1864.

CAUTION.—*Beware of Piracy and Imitations!*—The public are further cautioned against a Government stamp having come to the knowledge of the Board of Inland Revenue.

CAUTION.—Vice Chancellor Sir Page Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne, that the story of the defendant, Freeman, was deliberately untrue, which he regretted to say had been sworn to.—See *Times*, July 16, 1864.

Sold in bottles at 1s 1½d, 2s 9d, 4s 6d, and 11s each. None to genuine without the words "*Dr. J. Collis Browne's Chlorodyne*" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer, J. T. DAVENPORT, 33 Great Russell Street, Bloomsbury, London. [illegible]
