Mr. Charles Belford, who was editor and chief of the Mail, is very low, and is not expected to recover. This intelligence will be regretted by the journalistic profession, by the mambers of which he was recognized as an able and talenter

The failures in move Scotia for the past your numbered one hundred and wirty-eight, with liabilities amounting to \$2,077,663, being an increase over the previous year of fifty-two in number, and \$891,200 in liabilities. In Prince Edward Island last year there were seventeen failures, with liabilities amounting to \$520,998, the number in the previous year being twenty-three, with liabilities of only \$240,975. The enormous inclease in liabilities last year was due to the failure of James Duncan & Co.

The Globe says a gentleman at present in Ottawa from the Pacific Province states that the mass of the people there are indifferent as to which route is adopted so long as the Canada Pacific Railway is speedily commenced at its western terminus. It is only a few individuals having purposes to serve who talk so boldly in favor of the Bute Inlet route. The manifesto threatening separation should the terms of the Union be carried out has no support from the mass of the people, and is only the voice of a few scheming politicians. Even should the people of Vancouver Island desire to form a Crown Colony annexation to the United States is not a possibility. The enly brought in £800,000 instead of whole of the mountains region will be £2,000,000. loyal to the Dominion. The Burrard Inlet route lies through a fine section country with a growing population, and the terminus of the route would be at a majestic harbour. The people of the Province are willing to leave the question of route to be decided on professional testimony, and in such an event the preponderance of testimony will be on behalf of the Burrard Inlet.

#### TEMPERANCE POLITICS.

What we wish particularly to allude to in connection with Mr. Tilley's reply to the gushing address of his temperance admirers is the fact which the Hon. gentleman took special pains to impress upon them himself, viz -that prohibitory legislation, to be effective and successful, have been issued by the City of Toronto must be supported by a preponderance of public sentiment in its favour. He cited the case of Fredericton, where the new "Scott Act" had been adopted by a two thirds majority, as one in point, and very earnestly deprecated any precipitate local enactment, even of a permissive bill like this, before the moral sentiment of the people had been educated to its decisive adoption and 1 s effective enforcement. All this is very wise counsel from a Minister of the Crown who, at the same time, enjoys the reputation of being an prominent young lawyer of Montreal, will ardent advocate and a consistent exem- be elected in Beauharnois.
