TURBDAY. MEETING of the Electors of Rideau Ward MURTING of the Athletic Lacrosse Club-7:30 p.m.

The acquittal of Dewitt Talmage will excite more congratulation than surprise. Twenty five members of his clerical jury were for acquittal, and twenty all told were for conviction on either the whole or part of the charges preferred. With all his eccentricities of language and style Talmage has approved himself to be a fearless moral reformer, and it is a matter of general congratulation that he he has been vindicated from the accusations of his enemies. Had he been condemned by them he would not have been silenced, no Church malediction could put a stop to the public ministration of a man of his mettle. His usefuls ness might have been impaired, however, had the case gone against him, and had he been placed under the ban of ecclesiastical displeasure. As it is he will now, doubtless, go on his way rejoicing, becoming more than ever a terror to evil doers and a praise to them that do

The County of Simcos is divided into North and South Ridings for the purposes of representation in the Dominion Parliament, but into East and West Rid-10,8 for the Ontario Legislature. For this reason the result of the election last September will hardly prove a criterion by which to judge of the probabilities in the present contest. As we have already intimated, Mr. H. H. Cook, ex-M.P. for North Simcoe, is now running for the East riding with excellent prospects of success. In West Simcoe the Conservatives have re-nominated Mr. Long, of Collingwood, who, it is said, by those who know the local feeling, will have a hard road to travel to secure re-election. Mr. Long is being confronted this time by a Mr. Phelps, a prominent miller in the constituency, who is said to be well informed in public affairs, a fluent speaker, and a general favorite. Under these circumstances there is good hope that this hitherto Conservative strong hold will be redeemed to the cause of good Government, and there is little doubt that many other so-decined strong Tory constituencies will be sure to do likewise throughout the Province. Lacking as they do the talismanic cry of the National Policy, which, anyway, has ost its charm, the Tory party is foredoomed to defeat in the coming struggle. The Mowat Ministry will be sustained by harsh one there is no school like that of

a largely increased majority. NO REASON FOR CHANGE. On what possible score the Opposition candidate can expect success in his con test with Mr. Robinson it would puzzle a Philadelphia lawyer to discover. NOT ENOUGH PROTECTION-

Sir John Macdonald tries to make it

appear that protection, as such, has given satisfaction, and alleges, in proof of his contention, that the farmers of Cana ds are complaining that they have no been awarded protection enough. Precisely. This is just what our rural friends were warned about when the arch promiser and deceiver was beguiling them with his wiles-before the Tory

the dutin dirition at his, restoration. Then they were most assuredly promised "enough protection. "Ask what ye will and it shall be done unto you," was the promise constantly on the lip of the Chieftain. The hook with which the farmers were caught was baited with the delusion that the new tariff was to be 'readjusted' with a special view to their interests, and they were to be made aware of the inauguration of the new era by the upward bound of the prices of all the products of the farm. price. So with horses and cattle.

Grain of all kinds was to be enhanced in fact there was to be an unprecedented demand for all the farmer had to sell, and he was to be placed in a poaition to regulate to his own liking the rates of the market. With seeming candour Sir John, it is true, forewarned them that, in order to bring about this golden state of affairs, they might possibly have to pay a trifle more for what they had to buy, but, on the "live and let live" principle, this would not be grumbled at, as the disadvantage was sure to be but a mere bagatelle in comparison with the vast benefits which would be sure to accrue under the National Policy to the sons of the soil. And so many of the farmers of Ontario were wheedled to according their support to the oily tongued Tory promisers. But what has been the result? Where is the fact or the prospect of the vast improvement in the farmers' condition? Why, we have

himself for it that the farmers are not satisfied. They have not protection enough, he says. In other words, under t'iè new policy there has not been relization of the reseate promises by which it was foreshadowed. It is beginning to dawn up n the youmen of the country, that while that part of Tory ante-election representations which foretold an increase in what they have to buy is coming true enough yet there is not a corresponding increase, but on the contrary an actual diminution in the price of many of the things they raise and sell. They are now beginning to realize the force and the truth of the Liberal warnings, that the price of grain is regulated by the general markets of the world, and the quotations at Liverpool cannot be affected by any possible adjustment of our little local tariff as between us and

the outside world. The farmers who listened to the charming of the Tory sirens have been badly sold and bitterly deceived, and are now crying out, not only to Sie John but through Sir John on the floor of Parliament that they have not protection enough. To their bitter regret they will become more and more convinced of this fact as time wears on Though the teacher therein is rather
