THOSE who have suffered from the various and complicated forms of disease assumed by Catarrh, and have tried many physicians and remedies without relief or cure, await the answer to this question with considerable anxiety. And well they may; for no disease that can be mentioned is so universally prevalent and so destructive to health as Catarrh. Bronchitts, Asthma, Coughs, and serious and frequently fatal affections of the lungs follow, is many instances, a case of simple but neviected Catarrh. Other sympathetic affections such as deafness, impaired eyesight, and loss of sense of smell, may be referred to as unlow but nevertheless serious results of neglected Catarrh, bad enough in themselves, but as nothing compared with the dangerous affections of the throat and lungs likely to follow. Gentlemen. — My case is briefly as follows: I have had Catarrh for ten years, each year with increasing severity. For nine years I had not breathed through one nostril. I had droppings in the threat, a very bad cough, asthma so bad as to be obliged to take are medy for it at night before being able to lie down and steep, and a constant dult pain in my head. My head was at times so full of catarrhal matter as to injure my sense of hearing and competent to get up several times in the night to clear it me to get up several times in the night to clear it and my throat before I could sleep. Every one of these distressing symptoms has disappeared under the use of not quite three bottles of Sampoko's Rapical Curs. My hearing is fully restored. I have no asthmatic symptoms, no cough, no droppings in the throat, no headache, and in every way better than I have been for years. I could feel the effects of the Curr on my appetite, on my kidneys, and, in fact, every part of my system. What has been done in my case is wholly the effect of the Radical Curr. Very respectfully.
