## DESPERATE AND DISREPUTABLE

The matter to which we are about to will go, and at what straws they are catching to avoid defeat. Prior to the arrival of the Royal party it was desired and expected that during their stay one, at least, of the public schools would be visited among other local institutions which were to be complimented by a similar recognition. Owing to some unexplained delay in the General Committee, the public school authorities were not apprised of their Excellencies definite intention so to visit the public schools till the very eve of the Royal arrival. Deeming then the time too brief in which prepare for the distinguished visitors befitting reception, the School Board rethemselves of the intended honor. tely raised that the political friends of Bishop, the Superior, Dr. Sullivan, Fa Mr. Robinson upon the School Board | thera Farrelly, Corbett, Twohey, Mc had purposely declined the royal visit so public schools under their care, and de- room, where the nuns and orphan chil prive the children of those schools of a treat the children of other classes in the community! It is needless for us to ing a little daughter of Dr. Sullivan's say that no political consideration ever so remotely influenced the decision of the Board or any member of it. It any positive disproof of such an imputation were wanted it is to hand in the fact that the action of respectfully declining the visit was taken at the instance of Mr. Jas. Wilson, Chairman of the Johnson Street School Committee, and concurred in by Mr. S. Woods another member of the Committee, and both life long Conservatives. All were actuated by the desire to receive the honor of a Royal visit to our schools, but at the same time by the fear that at the eleventh hour ade quate preparation could not be made for the proper reception of the Royal party. Men who could torture party capital out of an incident like this richly deserve the defeat they so evidently anticipate. It is a satisfaction to know that the visit of His Excellency and Royal Highness to Johnson Street School this morning not only gave intense gratification to the teachers, popils and public school authorities, but it has administer ed an effective quietus to the silly outcry to which we have considered it our duty the orphans' ward, where 35 beds are ar-
