The Daily British Whig SATURDAY EVENING JUNE 21. RAILROAD TIME TABLE AND STEAMER ANNOUNCEMENTS.

CITY AND VICINITY. LADIES AND GENTLEMEN visiting the grounds of Mortwood on Tuesday next will have first class skills at city rates.

APPOINTMENT.—We are informed that Dr. Medcalf has been appointed Medical Superintendent of Rockwood Asylum.

IS YOURS THERE?—We have a small collection of lost keys. The finders left them at the Wiro office for identification.

ST. GEORGE'S CATHEDRAL.—The Lord Bishop of Ontario will deliver the sermon at St. George's Cathedral to-morrow morning.

A CHURCH SALE.—The ladies of St. James' Church, who, a few years ago, managed one of the best sales ever given in Kingston, are preparing for another, to be given in the Fall.

STEAMER SALE.—Attention is directed to the advertisement of the sale of a good, serviceable excursion steamer at Montreal, on Wednesday next. It would make an excellent river boat.

SETTLEMENT.—The appeal case of Johnston v. Brown, assault, which was to have been tried at the last sitting of the County Court, was settled by defendant paying the costs, hence it was withdrawn.

LENOX ELECTION.—The recount of ballots in the Lenox election case was made yesterday, resulting in Mr. Hawley, Liberal, being sustained by 10 of a majority. Mr. Hawley lost five votes by the revision of the figures.

MARKET.—There was a large market this morning. New potatoes made their first appearance, including a fine lot of Martin Boyce's, of Sturtington. The island market fully sustained its reputation.

TARGET PRACTICE.—The Cadets of the Military College will use the hills on Monday, in consequence of which the target practice of No. 6 Company will not take place on the evening for drill.

SENATE DEBATE.—We received this morning our copy of the debates of the last session of the Senate, reported and printed on contract. These debates make a larger volume than usual; they are well bound, and are such as become valuable additions to the library of any public man.

THE SCULLING RACE.—Any one who examines Bengough's cartoons on the Elliott-Hanlan race cannot refrain from smiling. They illustrate the various errors of Hanlan's success. On the back we have a few political caricatures, which are as pungent and as pointed as any which Grip has ever printed.

NEW MURPHYS.—This morning Mr. W. B. Follet, of Williamsville, deposited on the Writ table a measure of new potatoes of full growth—fully as large as would command a sale in the Fall. Mr. Follet has been very successful in this line in past years, and this season has distanced the field.

PUBLIC SCHOOL PICNIC.—This popular event for the girls and boys has been definitely fixed for Dominion Day. Thus far the programme for the national day is: St. Vincent de Paul excursion; Public School picnic; Y.M.C.A. garden party; Christian Brothers' exhibition; M.E. visit to the camp ground.

MANITOBA.—We learn that the Rev. J. D. Meares, of the City of Winnipeg, has made arrangements for delivering a lecture in St. George's Hall next Thursday evening, on the subject of Manitoba. Our prairie Province deserves our best attention, and Mr. Meares' contribution to our knowledge of its condition will, no doubt, be both useful and entertaining.

GLICHERIST SCHOLARSHIP.—Prof. Dupuis, and Mr. S. Woods, M.A., have been appointed to examine the competitors for the Glicherist scholarship. The satisfactory performance of this duty necessitates close confinement and application for about a week, and there is no compensation allowed for it. The examination commences on the 30th and closes on the 9th prox.

WIDOWS AGAIN.—There is a new phase to the case. Information has been received that an investigation has been held by the Christian people of Glasgow into the charges against ex-Mr. Widows, and it has resulted in proving their falsity. On the strength of the result of the inquiries, Widows was presented with an address at a public meeting and a purse of sovereigns.

CRICKET MATCH.—Yesterday afternoon the first innings of a cricket match between the Military College Cadets and the Kingston Cricket Club took place on the cricket field at 2 p.m. The Cadets went first to the bat, scoring 64 runs, 40 being made by Shanley. The Kingston Club had scored 34 runs and one wicket down when the play was discontinued. It was resumed to-day at 2 p.m.

POLICE COURT.—Lizie is Murray, a talker and a vagrant, was discharged. A former named Knight was fined 25 cents and cost or one day in goal for assaulting J. Ferris. Two cases of driving cabs without license were adjourned until the 24th inst. N. McOgic assaulted his wife, but after discussing the warrant, she withdrew the charge, not wishing him to be punished. How foolish!

CHRISTIAN BROTHERS' SCHOOL.—The closing examination and distribution of prizes in connection with the Christian Brothers' School (prior to the summer vacation) will take place in the Opera House on the evening of Dominion Day. The programme is quite lengthy, and includes music and recitations and drama. The whole making an interesting display, which the parents and friends of the school will enjoy. The attendance should be large.

WIND WAITS. FROM VARIOUS SOURCES AND ON VARIOUS THEMES. Cape Vincent is excited about the 4th of July celebration.

RECEPTION MEETING. NEW MEMBERS OF THE MONTRÉAL CONFERENCE. Last evening there was a large attendance in the Sydenham Street Church, the occasion being the reception of those who have lately been admitted into full membership.

THE CHAIR was occupied by the President, Rev. Mr. McKittrick. After devotional exercises, singing and prayer, the choir sang an anthem.

THE CANDIDATES. The Secretary, Rev. Mr. T. G. Williams, read the names of the candidates, each one of whom rose to announce Messrs. S. D. Chow, T. B. Connelly, B.A., S. E. Lyle, W. D. Smith, and W. H. Sperry, B.A.

PERSONAL REFERENCE. The applicants for admission to the ministry were then invited to relate their personal and religious experiences.

Mr. Ely was the first to speak. He had experienced many solemn seasons in his short life, but none more solemn than that occasion. Six years ago he had not the faintest idea of the ministry.

Mr. Ely was the first to speak. He had experienced many solemn seasons in his short life, but none more solemn than that occasion. Six years ago he had not the faintest idea of the ministry.

Volunteers in Camp. Yesterday the Kingston Field Battery went into camp in the Artillery Park, and this morning they commenced their annual drill. The Battery is officered by Capt. H. Wilnot, Lieut. P. G. Wilnot, John Wilnot, and Drs. Saunders and Dr. McIntosh, V.S., compose the medical staff. The force is composed of four officers, fifty gunners and drivers, and 23 horses. They have in use thirteen tents and one marquee.

The Ganacook Field Battery will go into camp on Monday morning next for twelve days' drill. The place selected for occupation is the same as last year, just west of the village. An instrumental band has been organized in connection with the Battery, which will be quite an agreeable addition. Fifteen instruments have been purchased, all of which are of the best make and most approved description, and Mr. Rackett, Bandmaster of 'A' Battery, has been engaged as instructor.

Sunday Appointments. Sydenham Street Church—Conference Love feast, 9 a.m., Ordination Sermon, 10.30, Rev. S. N. Nells, D.D.; Sabbath School, 2.30, G. A. Hanson, G. Rogers, 6.30, H. B. Johnston, M. A. B. D. Queen St Church—10.30, H. F. Bland, S. School, 2.30, J. Allen, J. T. Pitcher; 6.30, L. N. Beaudry. Depot—6.30, G. Robinson. Williamsville—6.30, W. Philip. Primitive Methodist—10.00, D. Winter; 6.30, R. Whiting. St Andrew's Church—11, J. W. Sparling; M. A. B. D. 6.30, W. A. Allen. Chalmers Church—11, L. N. Beaudry; 6.30, T. G. Williams. Brook St Presbyterian Church—11, A. B. Chambers, B. O. C. L. 6.30, E. S. Shorey. First Con Church—11, J. T. Pitcher; 7, J. M. Hagar, M. A. Second Con Church—11, W. R. Dyer; 6.30, J. Armstrong. Baptist Church—10.30, R. F. Oliver; 6.30, J. Henderson. M. E. Church—10.30, S. G. Phillips; 6.30, A. Campbell. Portsmouth Church—10.30, J. Scanlon. Park—4, J. Holmes and D. Winter.

PARLIAMENTARY LIBRARY.—A large portrait of the Hon. Mr. Wilnot, Speaker of the Ontario House, and painted by Mr. Sawyer, has recently been hung up in the library at Ottawa. The papers speak well of it, and those to whom the honorable gentleman is personally known say that the likeness is a really good one. This, however, is a foregone conclusion, one of Mr. Sawyer's chief characteristics as a portrait painter being the transferring to the canvas of the main traits of his subject, even to his idiosyncrasies, so that the likeness never fails to strike one as being that of the man himself, 'and nobody else.' This is the third of the Speaker's portraits from Mr. Sawyer's hands, the others being those of Sir Henry Smith and Hon. Mr. Wallbridge.

A SMALL WHALE.—Yesterday an agent of Coup's manmoth chirk and manager arrived here per Grand Trunk RR. (Express department) having in charge a small whale, which was caught in the Gulf, and which he purchased at a considerable sum for addition to the monster show. The calf (for such it is, being about 10 feet long and weighing 1200 lbs.) died in transit between Richmond and Montreal. It was shipped from her by the propeller 'Kincardine' for Oswego last evening.

ARCHDEACON FARNELL.—We regret to learn that since yesterday Archdeacon Farnell has been quite ill, and it has been ascertained that for the last month he has been indisposed and beyond his labors in the preparation of work for the Synod. The tone of the late debates indicated his popularity, and that his services and ability were appreciated as they should be. There can be no doubt of the Archdeacon's industry and application, and his present illness is much to be regretted.

THE CAMP GROUND.—An excursion down the river and visit to the St. Lawrence central camp ground, calling at Ganacook, has been planned by the Jubilee M. E. Church for Dominion Day. The steamer 'Hasting' has been engaged for the occasion.

TIGERS will be music, both vocal and instrumental, at Mortwood on Tuesday afternoon and evening next, and in fact all kind of refreshment for mind and body.

Welland Canal. Port Dalhousie, June 20.—Up: Schrs. Hyndman, Kingston, Chicago, salt; Arabia, do, stone. Down: Schrs. Denmark, Chateaufort, Kingston, timber; str. Scotia, Chicago, wheat.

'Truth lies in a nut-shell,' and 'perversity is the soul of wit.' To be brief, when the shell is broken, the truth will be discovered, that the Grand Central Hotel, Broadway, New York, set out on both plans, the American \$2.50 and \$5.00, and the European \$1.00, and upwards, per day, gives more satisfaction for the same money, than any other first-class hotel in the continent. An elegant restaurant, at moderate prices, is conducted by the Grand Central.

we need you; but when the Master calls you hence, you may do not only rejoicing in hope of the glory of God, but rejoicing also in the assurance that you are being taken to the glory of God. The Methodist Church men who love the Church as you have loved it, and who will serve it with abundant labors, and will do so with the assurance of life. We will have need of the distinctive influence of these young men, and that upon two accounts. First, I congratulate them upon their reception into a ministry which is a ministry and nothing less. I shall plead military spirit, but not a military desire just to drop, for the special benefit of these young brethren, a short formula for the setting of their claim, and that of any man or set of men, to be in the true Apostolic succession. Like the true Apostolic doctrine of Aristotle, it is very short and is universal in its application. It is this: Do they live Apostolic lives? Do they preach Apostolic doctrines? Do they have Apostolic fruit? We will not only have the apostolic, but the apostolic in its fullness, and Christ is the vine; and every branch that lives and bears fruit is, beyond possibility of mistake, a branch in the true and living vine. Now what are these young men doing with grapes, or a branch of the vine which was cut away in last year's pruning, and seasoned under last year's sun, and in this year bending with clusters of purple fruit, and I will show you an equally strange phenomenon—a so-called Christian minister who lives a life of Apostolic purity, preaches Christ as the Apostle preached him, and succeeds like the Apostle in turning many to righteousness. The more we know of the works of God the better shall we be able to admire and to serve the Great Workmaster. God bless all the sturdy toilers in the field of Science. But let it never be forgotten that the certain salvation of souls, and the certain destruction of others, a salvation so free that it cleanses and saves to the uttermost of human guilt and pollution. Happy will it be for those brethren if, mingled with that divine charity which will make them the friends of all and the enemies of none, they have the wisdom to adhere to the doctrines and methods which have entangled upon them the seal of the divine approval in every region of the globe to-day, and which has penetrated. I also intend the hope that our dear brethren will not be of the number of those who borrow trouble from the revival of Science which is just now going on. By all means let Science revive. The more we know of the works of God the better shall we be able to admire and to serve the Great Workmaster. God bless all the sturdy toilers in the field of Science. But let it never be forgotten that the certain salvation of souls, and the certain destruction of others, a salvation so free that it cleanses and saves to the uttermost of human guilt and pollution. I also intend the hope that our dear brethren will not be of the number of those who borrow trouble from the revival of Science which is just now going on. By all means let Science revive. The more we know of the works of God the better shall we be able to admire and to serve the Great Workmaster. God bless all the sturdy toilers in the field of Science. But let it never be forgotten that the certain salvation of souls, and the certain destruction of others, a salvation so free that it cleanses and saves to the uttermost of human guilt and pollution. Happy will it be for those brethren if, mingled with that divine charity which will make them the friends of all and the enemies of none, they have the wisdom to adhere to the doctrines and methods which have entangled upon them the seal of the divine approval in every region of the globe to-day, and which has penetrated. I also intend the hope that our dear brethren will not be of the number of those who borrow trouble from the revival of Science which is just now going on. By all means let Science revive.
