MONTHLY MURTING of St. George's Society-MOONLIGHT EXCURSION to Channel Grove

To-morrow is the twelfth anniversary of our Federal Union. Spite of the unpatriotic efforts of those who-placing party before country-have at times done their best to deprecate its progress, the whole Dominion has made wonderful advancement since the date of Confederas tion. It is not our purpose to review just now the career of the Dominion but simply to wish at and all its varied interests a 'happy New Year' of unparalleled prosperity.

The Toronto Telegram expresses pretty frankly its own opinion of party journals for keeping up their political fusilade this hot weather. The principal difference between our independent friend and the journals he takes to task is that while the latter are battling the opposite party, the Telegram is opposing both. The no-party organs have simply to fight two parties instead of one, and continually deprecate party warfare into the bare gain. As a party journal we find we have quite enough on hand for the heated term, and we should not like to double our duties and responsibilities by assuming the Ismaelitish role of a so-called independent newspaper.

The Toronto Globe enlightens the Otta wa Free Press with the information that already the Mowat Government has matured a scheme of Civil Service Reform, turned. On a former occasion he had to treat to the magnanimity of a Reform Government to avert ign minious expulsion from Parliament; ... o, doubtless, he fancies himself secure behind the unacrupulous majority of his party in the Commons. In any case a man of his dubious record should never have been sent to Parliament, and this is doubtless the opinion of many who voted for him against the promptings of their better judgment at the last election.

## QUEBEC LIBERALS TRIUMPHANT.

After a fengthy, and, so far as members of the Opposition were concerned, a most factious and obstructive debate, the Quebec assembly has reached its first division, the triumphant vindication of the Joly Government being the result. The Speaker has been relieved of the necessity of casting his vote to sustain the ministry. THE TORY DISMISSAL MANIA-The local Tory organ does its puny beat o prove that in the matter of civil service dismissals the Mackenzie Govern ment was as bad as the preceding Mac donald administration. We need not say that this miserable attempt to shield its Dominion patrons from well merited public odium will only confirm the organ's now firmly established notoriety for wilful and deliberate misrepresentation. Our contemporary has the temerty to refer to the baker's dozen of appointments made Mr. Mackenzie, 'after the verdict of the country had gooe against him, conveniently forgetting the many hundreds death-bed appointments made by Sir John Macdonald after the country had means of the very money for which

gone so completely against him that he found his Government moribund in the very Parliament which had been elected under his own auspices and largely by had corruptly sold a public charter. Every one of those appointments, from that of Lieutenant Governor Tilley down might have been cancelled with at least as much reason as the arbitary removal of the few necessary appointments made by the late outgoing Liberal Ministry So far from taking such a course, how ever, the Mackenzie Government left the swarming hordes of Tory appointees it undisturbed possession of their ill-gotten places, although there was no time during the whole five years of the Liberal egime when the creatures of the previous Ministry did not provoke dismissal by prostituting their official opportunities to the partizan purposes of the spy and the informer. In most unfavorable contrast to this truly Liberal magnanimity the present Tory Government has addressed itself to the task of dismissing by wholesale the legitimate appointments of places for the hungry harpies that are hankering and clamoring for office.
