THE CITY PROTEST.

The hour is rapidly arriving when pro tests in re the late elections must be enter ed or the members elect be rendered safe from further challenge of the validity of their return. In the case of this city will be owing to most marvellous magnau imity or supineness -we will not say which -if the candidate, returned as elected should be permitted to retain his hold on a seat which was won by resort to the most flagrant violations of the election aw. The only way to vindicate the law and to do justice to the honest electors is to afford an opportunity for a public and legal investigation into the causes which led to the strange success of the Tory candidate for this city. This opportunity can be obtained only by the fyling of a tion were present. The examination was protest within 30 days from the date of thorough and the answers prompt. The election. HON- EDWARD BLAKE.

Among the principal causes which contributed to the recent Liberal victory in Ontario, the services of the Hon. Edward | the first book. Blake must be accorded a foremost place Had the Hon, gentleman been well in health and present in the country to do personal battle for those Liberal principles, of which he is so model an exemplar and so elequent an exponent, the verdict of Ontario would not have been so onesidedly Protectionist last September. At carried the people back to the time when Smith, G. A. Bowers and Georgina Day, he was mainly instrumental in rescuing the first with 130 marks out of 153 the Reform Province of Ontario from the From Third to Fourth, Kate Little and trap of Toryism into which it had been F. Hoag passed. At the close of the enticed by the N. P. (no party) bait of exercises the pupils surprised the teach-1867, and it was only meet that the first or, Mrs. Bowers by the presentation of Reform Premier of Ontario should be handsome pair of table ornaments, largely instrumental in again redeeming the Province from the N.P. (National ledged. The school room was elaborate-Policy) delusion of 1878. The great Liheral party of Ontario will any time fol low the lead of this great tribune of the people to victory and to power. What he has so signally helped to do in Ontario he will soon fellow up as he did before, by the capture of the Dominion citadel from the Tory enemy.

PURE COVERNMENT.

Reform Government in the Province of Ontario starts out its third parliamen tary term with an unchallenged reputation for political probity. Had there been the faintest shadow of a reason, shakiest possible foundation for it, the very tiret outers against the Government during the recent campaign would have been that of corruption. The Government has had to handle many millions of public funds during the past seven years These expenditures were narrowly watched by a lynx-eyed Opposition in the hope that somewhere or other some small peg might be discovered on which to hang the imputation of corruption with what result? From one of the province to the other not one out of the 88 Opposition candi dates including their leader Mr. Meredith and his meek Lieutenant Mr. Morri -not one was able, after the most anxious and microscrpie examination, to put hi. finger on a solitary act of the Mowa Ministry which could, by the most unfair warping of which Tory ingenuity is a all times capable, be tortured into the crookedness of corruption, or the fairtest deviation from the right line of publischolars proved themselves well versed in honor and honesty. Every attempt fish up anything of this kind against the Government so utterly failed that the Opposition leader, making a virtue of necessity, publicly declared of Hon. Mr. Mowa -somewhat as Pilate did on a much more momentous occasion—that he could find no fault whatever in this respect against the Ontario Pre mier, although, like Pilate, he proceeded to condemn his victim all the same. SCHOOL WEEK.

EXAMINATIONS IN THE PUBLIC SCHOOLS.

On Monday morning the mid-summer public examinations began in the Public Schools, the pupils of which had already undergone a prolonged siege from the Inspector, over the promotion competition. The actual work of the departments | Adams, was tested this year more than usual, by cutting short the exhibitions or entertainment items, and devoting more time to close interrogation of the classes upon often quite unexpected subjects. So far, the scholars have done well. Despite the unsettled character of the past two months schooling, owing to the Vice-regal visit and other interruptions of the even tenor of school life, the classes have shewn a steady progress, as practically evinced by so many promotions. These honors are not lightly won. Unless a Leod. scholar get a high average on all subjects he or she cannot be advanced, but most remain in the same class for six months more. The examinations will be continued until Monday next, when the holidays
