THURSDAY. Public School Board-Regular meeting

The rumour of the defeat of the Que bec Government, circulated in the city last evening, proved to be unfounded. The Tory wish was father to the thought. The fondly anticipated defeat did not come to time. Mr. Chapleau grew saucy bler station of a full private in the On- prescriptions. too soon on the catch victory of two tario Legislature. Gen. Grant has almost completed his world-wide cruise and is on the point o departure from Japan for the western shores of his own country. As we have more than once anticipated he is so time ing his return as to suggest his eligibility for Presidential candidature. He will get home again just in time for nomination, and notwithstanding his alleged reluctance we cannot but think that he might be prevailed upon to run again for the White House in the Republican interest. We believe the "third term" passion is as strong within him now as ever it was His foreign travel, and all the eclat which the princely ovations of which he has been the recipient will give him with his stowed upon him, would go far to whiteto try for it.
