THURSDAY EVENING, AUG. 14.

Two of our prominent citizens has this week been made the recipients special honor at the hands of the Ordere of which they have for years been dis tinguished and useful members. D Fowler has been elected to the Presi dency of the Grand Lodge of the Independent Order of Oddfellows; an yesterday, at Guelph, Thomas Gordon Esq., was, in his absence, elected by the Grand Chapter of the Royal Arch Masons of Canada, Superintendent of the Central District, extending from Montreal westward to Belleville. Both gentlemen are eminently deserving of the confidence of their confreres, and we congratulate them on the honors by which their merit has been recognized.

Just to keep their hands in, no doubt, three firemen of Listowell started a ficin that place on Friday night last. Fond of their avocation, and wishing to prove afresh their powers as extinguishers, they ignited a barn just for the pleasure of putting out the big bontire. The avowed foes of the "fire-field," it seems curious enough that members of a fire brigade should thus be provoking hostilities with the enemy. They are likely to pay dearly for their escapade, howeverhaving just been committed to trial for incendiarism. It will go none the easier with them on account of the fact that they were firemen. So far from this giving them the right to start a fire for Conference and take, at any rate, a listen the mere pleasure of trying to put it out, it will only prove an aggravation of the ing interest in its intensely interesting

the advanced views and the happy style Perhaps, in anticipation of our suggestion when referring to the announcement that the Dominion Government had reduced the pay of "B" Battery men by five cents a day, the same rule has been applied to the men of "A" Battery also. This is highly commendable from a Tory economical standpoint. By all means let Dominion ministers bask in the sunshine of office and enjoy their pay and their pickings in full; let good fat offices be provided also for all and sundry Tory backs whose party service entitles them, without doubt, to the best the country can afford as the rewards of their patriot. istr. Let Reformers in office be dismissed on the score that (a Tory Government being in power) their usefulness is gone. Let every vacancy, thus or otherwise created, be filled, and as many more be opened as may be deemed necessary in been reported in Constantinople, but they are believed to be sporadic. order to make place for hungry Tory harpies and office-hunters. All this the true interests of the country and the efficiency of the public service imperatively require. But extravagance must be curtailed, for all this, by a Government whose members have been railing at the flush expenditures of Liberal Government. While providing most generously for themselves and their political friends the Government has made good its protestations of economy by cutting down the excessive pay of the rank and fyle of linquished his intention of going back. a couple of Batteries to the extent of five cents a day! Let the pay of the volunteers be reduced in the same proportion, and then let us all hurrah for Sir John Macdonald and Tory economy!

### Dairy Markets.

UTICA CHEESE RATE .- A change took place at Utica on Monday. Prices were up and the salesmen were happy. The advance did not manifest itself at once. and even these who departed on the o'clock train west thought that 54e was to be the leading prices. But a strong THE LADIES AID SOCIETY competition arose on certain brands, and the price paid for these drove up all It is expected that St. Gothard Moun- the leading factories an eighth above
