THIRD DAY'S SPORT - CLOSE OF THE VALL MEETING-A FINANCIAL SUCCESS.

The owners of the Cataragui Driving ark, (Mesara T. C. and W. Wilson,)and those who have been associated with them in the management of the horse races, must be gratified with the results, and they are to be congratulated upon the general satisfaction which the programme has given. The spread of the 'sport' over three days may not have met the desire of some, but the postponement of the free-for-alls to yesterday had the effect of letting in pacers which could not have possibly filed an appearance had the original calculations of the Association been rigidly and literally carried out.

The attendance yesterday was perhaps the best of the three days. The grand stand was completely occupied, and an unsettled crown surged about the tracks of the course in the vicinity of the grandstand by Capt. Wilson, who, as the A. Mestra J. Waddingham & Son have D.C., so to speak, and superintendent of the track, performed exercise which called for the use of patience as well as vigilance, and he was domplimented alike The seven cent store occupies a stand by those interested in the races and by

There was much disappointment felt by some that Happy Abbott did not win. He was backed heavily after the first heat was trotted. A wordy occurred be Lewis, the owner of Happy Abbott, and the judges, which went so far that the latter was ordered off the track. The backers of Happy Abbott murmured and retire and give place to others. The e barrassing breeze blew quickly by, how ever, when explanations were made, and
