Many valuable discoveries and much useful knowledge is kept from the world, because of the immense expense in making them known to the people. This is to the case with Boschees German Syrup, though but a few years introduced into this country, its sale now reaches in every town and village in the United States and Canada. Its wonderful success in curing Consumption, severe Coughs, Pneumonia, Asthma, and all other diseases of the throat and lungs, was first made known by distributing every year, for three years, over 400,000 hottles to the afflicted, free of charge, by Druggists.
