SWORN EVIDENCE.

The following Cure is probably the most remarkable ever effected by any medioal preparation for the treatment of

Gentlemen.— I hereby certify that I have had Catarrh for ten years, and for the last six years have been a terrible sufferer. I was sendered partially deaf, had busking in the head, pains across the temple, dirry spells, weak and painful eyes, awellen and pierated tonsils, hard and constant cough, severe pain across the chest, and every indication of consumption. My head sched all the time. The matter accumulated so rapidly in my head and threat that I could not keep them free. Proquently at night I would spring out of beef, it seemed to me, at the point of suffocation. I would then have recourse to every means in my power to dislodge the unucus from my throat and head before being able to alcep again. For a period of six years my tonsils were ufcerated and so much inflamed that I could with difficulty swallow. I shally coosulted an eminent surgeon in regard to an operation on them, but at his request postponed it. The constant inflammation and ulceration in my throat caused by the poisonous matter dropping down from my head hadso irritated and inflamed my lungs that I coughed incessantly. — a deep, hard cough. Meanwhile my system began to show the affects of this disease, so that I look flesh, grew pale, and showed every symptom of an early death by consumption. When matters had reached this stage, or shout six months ago, I began the use of Sanford's Rapical. Culm pon Catarria. After using the first bottle I began to improve rapidly. The first dose segmed to clear my head as I had not known it to be for years. It scopped my cough in three drays. By using it as a gargiel soon reduced the inflammation and swelling of my tonsils, so that they soon ceased to trouble me. The soreness across my chest disappeared, the buzzing noises in my head ceased, my senses of sceing and of hearing were completely restored, and every symptom of disease that had reduced me to the verge of the grave desuppeared by the use of Sanford's Rapical Culm for Catarria. I have seen a great deal of suffering from Catarria, and hope to convi

I am familiar with the freatment of Catarrh as practised by the best physicians, and have consulted the most eminent about my case. I have used every kind of remedy and apparatus that have appeared during a period of six years past, and have, while following their use, taken great care of my general health, but obtained no relief or encouragement from any of them.

CHRONIC PLEURISY CURED Messrs. Wekks & Potten: Gentlemen, - Having for many months past suffered with a very lame side, called by my physician Chronic Picuriay, caused by aformer injury and strain, and for which I used many prescriptions and liniments, as well as the so-called themsatic cures, without the least benefit, my physician recommunied one of your Collixs' Voltaic Plasters, which, to my great surprise, relieved the pain and soreness almost immediately, and I have been able to attend to my household affairs over since with perfect case and comfort, whereas, before the application of your invaluable Plaster, I was scarcely able to do anything. I consider them inestimable, and shall with pleasure recommend them to the afflicted. Yours pleasure recommend them to the afflicted. Yours respectfully, Mrs. FRANCES HARRIMAN. ORLAND, Me., April 21, 1876.

There is no medical or protective appliance that will prove so grateful and effective in Tickling Coughs, Irritation and Soreness of the Chest and Lungs. We believe them capable of preventing serious diseases of these organs. PRICE, 25 CENTS Do not confound these Plasters with the ordinary Plasters of the day, that by comparison are abso-intely worthless. Be careful to obtain Collens' Voltaic Plaster, a combination of Electric or Voltaic Plates with a highly Medicated Plaster, as seen in the above cut. Now our trade with that country had been greatly influenced by the mis-fortunes of our neighbors. The lumber trade, for instance, had falles off from \$13,000,000 to very little more than \$4,-

AN EXTRACT FROM ME CARTWRIGHT'S RE-

The hen, gentleman had called attention to the fact that a very broad line apparated the good and evil times of the country. He said, "When we were in power the country had good times; when so were put out had times followed." (Laughter.) If that meant anything, it meant this: that had the hon, gentleman

remained in power he could have aveided the commercial disasters which have over-

taken the country. What was it to

000,000 in the space of three or four years. Another cause which contributed to injure a great many members of the commercial community was the remarkable fall in the value of goods, which left

many of them with goods on their shelves.

Another cause was beyond the question the general depression which prevailed

all over the world as well as in the

United States, and another prominent cause was the bad harvest of 1876. New,

were they to understand that had the hen, gentleman been in power it would

have been with'r the compass of his

ability to have removed the financial de-

pression which existed in the United

States? Would it have been in his

power to stop the fall in the value of

goods, or to have given us a good harvest in 1876 instead of a bad one? If the

hon, gentleman could have done that, he

and the great wender would be

that he had r'lowed himself to be driven from the position he held. (Laughter and Cheers.) The distress 'n

Canada had arisen from the fact that dur

ing 1873-4 we imported some \$80,000,000

or \$100,000,000 of goods more than we

was not only our seient but omnipotent.

BE WISE .- Too often a cold or slight cough is considered a very ordinary, trifling affair, just as well left to go as it came, and hence systematically neglected until a simple curable affection is converted into a serious pul monary disease. The more prudent, aware that a cough or cold should never be triffed with, cromptly use Bryan's Fulmonic Wafers which have sustained their reputation for over 30 years.
