Gentlemen.— I hereby certify that I have had Catarrh for ten years, and for the last six years have been a terrible sufferer. I was rendered partially deaf, had buzzing in the head, pains across the temple, dizzy spells, weak and painful eyes, swollen and ulcerated tousils, hard and constant cough, severe pain across the chest, and every indication of communicion. My bead ached all the time. The matter accumulated so rapidly in my head and throat that i could not keep them free. Frequently at night I would spring out of bed, it beemed to me, at the point of suffocation. I would then have secquire to every means in my power to disloting the insieus from my throat and head before being able to sleep again. For a period of six years my tousils were ulcerated and so much inflamed that I could with difficulty swallow. I finally consisted an emihent surgeon in regard to an operation on them. could with difficulty swallow. I finally consulted an eminent surgeon in regard to an operation on them, but at his request postponed it. The constant inflammation and discretion in my throat caused by the pol-onous matter dropping down from my head hadso irritated and inflamed my lungs that I coughed incessantly,—a deep, hard cough. Meanwhile my system began to show the effects of this disease, so that I lost fiesh, grew pale, and showed every symptom of an early death by consumption. When matters had reached this stage, or about six months ago, I began the use of Sanford's Radical Curs for Catarns. After using the first bottle I began to improve rapidly. The first dose seemed to clear my bead as I had not known it to be for years. It seemed gradually to arrest the discharges. It stopped my cough in three days. By using it as a gargle! soon reduced the inflammation and swelling of my tomain, so that they soon cessed to trouble gargle I soon reduced the inflammation and swelling of my tomain, so that they soon crossed to trouble me. The soreness across my chest disappeared, the buzzing noises in my bead coased, my senses of seeing and of hearing were completely restored, and every symptom of disease that had reduced me to the verge of the grave disappeared by the use of Sampond's Rapidal Curs pos Catarsh.

I have been thus explicit because, as a druggist, I have seen a great deal of suffering from Catarrh, and hope to convince many that this is a great remedy. I am familiar with the treatment of Catarrh as

practised by the best physicians, and have consulted the most eminent about my case. I have used every kind of remedy and apparatus that have appeared during a period of six years past, and have, while following their use, taken great care of my general health, but obtained no relief or encouragement from any of them.

A MURDERER LYNCHED.

A few days ago a man of the name of Wallace was imprisoned at Wheeling, Va., for a triple murder accompanied by outrage of the most horrible description. Lynching was threatened at the time. but was averted by the precautions taken. The mob, however, did not intend to be baulked, on the morning of that day a party of fifteen men met, and laid their plans to take the prisoner John Walface and hang him. They were all armed with revolvers. They marched silently to the house in question, where they were joined by ten more men, also armed. They approached the building and demanded admission; the guard refused, on which they drew their pistols and fired several shots in the air and the man ran off. Entering the front door noisily they began knocking off the lamp chimneys with their pistol barrels, and as the wind was blowing strong the lamps were soon extinguished and the place was in utter darkness. Then the mob began firing farmer has to devote all his time to pre- into the ceiling and abouting as if they

One of the men yelled, 'You murderer, Miss Church wants to see you, and, by God, she shall? After placing the rope firmly on his neck they dragged him down stairs head-foremost and out of the house on to the railroad track, where he uttered the most

horrible cries, cursing, praying, and begging them to let him go. They paid no attention to him, but
